GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From the Chairman, Ootacamund Municipality, dated 5th June 1886, No. 451.
Endorsement by the Collector of the Nílgiris, dated 5th June 1886, Mis. No. 663.
Endorsement in the Financial Department, dated 9th June 1886, No. 366.
From the Superintending Engineer, IV Circle, dated 16th June 1886, No. 209 E.W.

G.O., dated 18th June 1886, No. 565-A (M.), Financial.

Read—the following papers:—

From the Collector of Nílgiris, dated 5th June 1886, No. 663.
Memorandum from Public Works Department, dated 16th June 1886, No. 255 D.

Order—dated 18th June 1886, No. 565-A (M.), Financial.

On further consideration, the Government resolve to carry out from Provincial Funds so much of the Ootacamund water-supply scheme as relates to the northern side of Ootacamund, and to leave the portion relating to the southern side, the estimated cost of which is Rs. 75,000, to be dealt with by the municipality.

2. The estimate for the northern portion amounts to Rs. 1,70,000, of which the sum of one lakh, already provided in the Provincial Public Works budget, can, it is believed, be spent within the year.

3. The execution of the southern portion of the scheme by the municipality may be postponed pending the completion of the northern portion. The necessary action on these proceedings will now be taken in the Public Works Department.

(True Extract.)

(Signed) E. S. LAFFAN,
Acting Under Secretary.

From the Executive Engineer, Nílgiri division, dated 18th June 1886, No. 804.

ORDER—dated 18th June 1886, No. $\frac{1545\ W.}{A.}$, Public Works.

The estimate, amounting to Rs. 1,70,000, for improving the water-supply of that portion of Ootacamund lying to the north of the lake, is sanctioned.

2. A sum of Rs. 1,00,000 has been provided for the scheme in the final issue of the Provincial budget for 1886-87. The Superintending Engineer, IV Circle, will take immediate steps for commencing work, and will make such arrangements as may be necessary to utilise the full amount of the allotment without fail.

3. This sanction has been registered as Provincial, No. 52 W. of 1886-87, and classified as Miscellaneous Public Improvements, Original Works.

(True Extract.)

JUNE.

Ootacamund Water Supply.

Estimate of Rs. 1,70,000 for improving the — sanctioned with remarks.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From J. GROSE, Esq., President, District Board, Nellore, to the Chief Secretary to Government, dated Nellore, 12th December 1885, No. 1458.

I have the honor to submit the regular budget of 1885-86 and the proposed budget of 1886-87.

2. To begin with, I must remind Government of the financial state of the circle. In my letter submitting the last budget (read in G.O., dated 13th March 1885, No. 547 F.), I said that all items of expenditure had to be reduced because of the want of funds, and that unless more money could be borrowed or otherwise obtained, the roads of the district would degenerate and many of them must ultimately disappear. In paragraph 5 of the letter submitting the incomplete list (G.O., dated 21st August 1885, No. 643 L.F., Financial), I referred to the same subject. In my letter, No. 1376, of the 13th November 1885, I mentioned it again and applied for permission to raise a loan. The transactions of the current year then threatened to leave the circle with a deficit of Rs. 30,000, and I had to issue orders for curtailing expenditure accordingly. On making up the figures for 1885-86 calculated on the supposition that the taxation would continue the same, that the *normal* expenditure of 1884-85 would be incurred in Grant I, that the expenditure proposed by the Zillah Surgeon and the Deputy Inspectors of Education and Vaccination would be adopted for Grants II and III, and that the necessary expenditure (which can be calculated very nearly) would be provided for in Grant IV, I found that there would be a deficit of Rs. 1,37,243. Under these circumstances, the District Board have found it necessary to establish new toll-gates (about which I have addressed Government separately) and to cut down expenditure in every direction to the utmost possible extent, and the framing of the budget has not been an easy matter.

		RS.
Expenditure—		
Grant I		2,41,680
„ II		37,186
„ III		46,730
„ IV		7,332
Reserve		23,030
Balance		11,565
	Total ...	367,523
	Receipts ...	230,280
		1,37,243

3. The *receipts*, according to the *regular budget* of 1885-86, are expected to be as follows:—

Items.	Budget estimate. RS.	Regular estimate. RS.
Opening balance—		
Road Fund	5,870	— 27,977
General Fund	21,650	32,849
(1) Rates and Taxes—		
(*a*) Cess on land	2,20,000	2,12,982
Tolls under Act V of 1884	7,000	7,955
Contribution from Municipalities ..	1,100	1,100

Items.	Budget estimate.	Regular estimate.
	RS.	RS.
(2) Education—		
(a) School-fees	2,200	2,500
(c) Sale-proceeds of books	1,000	800
(e) Miscellaneous	...	3
(3) Medical—		
(e) Miscellaneous	...	152
(4) Interest—		
(b) Arrears of land-cess	10	10
(5) Miscellaneous—		
(h) Choultry rents	...	120
(d) Bungalow fees	700	700
(e) Fees and fines (Police Act)	100	100
(h) Fishery rents...	1,000	1,572
(j) Avenues	...	1
(k) Sale of stores	...	1
(l) Sundry receipts	...	9
Savings and refunds	...	190
Choultry inam	...	31
(6) Public Works—		
(e) Refund of expenditure	100	522
(f) Miscellaneous	500	500
(7) Contribution from Provincial Funds—		
(a) Education	2,410	2,410
(8) Contribution from Special Funds—		
(a) Pound Fund...	4,000	4,500
Total ...	2,67,640	2,41,030

4. The balances are as settled by the Accountant-General. It will be observed that they are Rs. 22,648 less than the estimate. This arises chiefly from the facts that the balances at the beginning of 1884-85 were Rs. 18,720 and the land-cess collections Rs. 96,563 less than was expected, so that the income of 1884-85 and the balance left at the end of it were small.

5. The regular estimate of land-cess collections is Rs. 7,018 less than the budget estimate. This decrease, which is not large, must be assigned entirely to the fact that the amount of the arrears outstanding at the beginning of the year was smaller than was expected. The estimate is framed on elaborate calculations made in the Collector's office.

6. The toll-gates of the District Board are expected to yield Rs. 955 more than the original estimate. The leases were sold for Rs. 7,955.

7. School-fees may yield Rs. 300 more than was expected. The data on which the original estimate was framed was very uncertain, as the rates had just been enhanced.

8. The sale of books may yield Rs. 200 less than was expected. This is because the closing of the Government Book Depôt and other circumstances made it impossible to procure a stock till late in the year.

9. The fishery rents have already been sold and been paid for, and have realized Rs. 572 more than was expected.

10. The actuals of the first six months of the year show that Rs. 500 more than was expected will probably be contributed from the Pound Fund.

11. The expenditure, according to the regular estimate, will be—

	RS.
Grant I	1,54,483
„ II	35,375
„ III	39,709
„ IV	7,082
Total ...	2,36,649

12. No remark is required with reference to the particulars of Grant I, except this, that when the deficit of which I have spoken began to threaten the District Board, it was thought necessary to direct the Local Fund Engineer to curtail his expenditure as far as he could, and the result is that Rs. 13,907 less will be spent than was provided for in the budget and Rs. 24,039 less than that sum with subsequent allotments added to it These subsequent allotments are enumerated in statement IX-B.

13. The expenditure in Grant II will be less than the budget allotment by Rs. 2,335. In consequence of the state of the finances mileage has been refused to the Inspecting Schoolmasters and expenditure on gymnastic apparatus, &c., for the Normal schools has been deferred. There is a saving of Rs. 500 because the Deputy Inspectors have not been able to fill up all the vacancies in the studentships of Normal schools. The salaries of masters are less because the state of the finances has made it necessary not to entertain any on the occurrence of vacancies as long as possible. The actuals show that Rs. 8,500 will be enough for results grants.

14. The expenditure in Grant III will be Rs. 3,991 less than was estimated for. When I submitted the incomplete list, it was thought that the travelling allowances of vaccinators might be reduced by Rs. 1,000, but the actuals now show that it can only be reduced by Rs. 450. The sanitation allotments have had to be reduced considerably because of the state of the finances.

15. In Grant IV the only changes from the budget that need be noticed are the transposing of sums provided for the establishments in the offices of the Collector and the District Board in accordance with recent orders from Government (G.O., dated 19th October 1885, No. 895 L.F., Miscellaneous), and the provision of Rs. 350 for pension charges which it is anticipated will fall on the Board on account of certain overseers who were ousted in the recent revision of establishment (G.O., No. 156 L.F., dated 13th May 1885).

16. Deducting the expenditure, viz., Rs. 2,36,649, from the receipts, viz., Rs. 2,41,030, there remains Rs. 4,381, and the commencing balance of 1886-87 may be taken to be Rs. 4,380.

17. *Budget Estimate for* 1886-87.—The estimate of receipts for 1886-87 is as follows :—

Particulars.	Amount.
	RS.
Balance	4,380
(1) Rates and Taxes—	
(a) Cess on land	2,00,000
(b) Tolls {Under Act V of 1884	12,000
(b) Tolls {Contribution from Municipalities	3,300
(2) Education—	
(a) School-fees	3,130
(b) Sale of books	350
(4) Interest—	
(b) Arrears of land-cess	10
(5) Miscellaneous—	
(b) Choultry rents	70
(d) Bungalow fees	750
(e) Fees and fines	100
(h) Fishery rents	1,600
(l) Sundry	...
Choultry inam	30
(6) Public Works—	
(e) Refund of expenditure	500
(f) Miscellaneous	500
(7) Contribution from Provincial Funds—	
(a) Education	3,940
(8) Contribution from Special Funds—	
(a) Pound Fund	4,000
Total ...	2,34,660

18. The balance is the surplus left in the regular estimate of 1885-86.

19. The receipts from land-cess were estimated in the budget for the year at Rs. 2,20,000, but the regular estimate shows that we cannot now expect to get more than Rs. 2,12,982. The demand for 1886-87 will probably be—

	RS.
Arrears	30,284
Current	2,08,651
Total ...	2,38,935

Of this it is anticipated that Rs. 2,00,000 will be collected.

20. The state of the finances has made it necessary to reconsider the question of tolls carefully, and the District Board have resolved that three of the four old gates, viz., the two at Gúdúr and the one at the Nellore anicut, should be abolished and six new gates established at the confines of the district. I have addressed Government separately on the subject. The result will be that the estimate can be raised from Rs. 7,000 to Rs. 12,000, Rs. 2,450 being expected from the old Bodelingampad gate and Rs. 9,550 from the six new gates.

21. In consequence of the recent change in boundaries (sanctioned in G.O., No. 771 M., dated 6th November 1885), the Nellore Municipality has imposed the upkeep of about 7 miles of road, some of which are in a very bad state and require remaking, on the District Board. The Board has therefore decided to require the councillors to contribute a portion of their tolls, and I have written to the Chairman on the subject. There is no reason to alter the estimate of the contribution from the Ongole Municipality, which is Rs. 1,100. Rs. 2,200 have been added for the Nellore Municipality.

22. The estimate for school-fees is Rs. 930 more than it was last year. This is because the enhancement of school-fees has not checked attendance quite so much as was feared.

23. It is proposed to entrust the sale of books to commission agents, but Rs. 350 may be expected from the sale of books now in hand.

24. Choultry rents are charged when travellers halt in choultries for more than three days. Experience shows that now the railway has been resumed, we may expect to get Rs. 70 from this source.

25. The estimate for fishery rents is Rs. 600 more than it was last year. The regular estimate shows that we have got Rs. 572 more than was expected this year, and it seems safe to anticipate that competition at the sale of the leases will continue and even increase, so that we shall get a little more next year.

26. The Rs. 30 shown under (*l*) Sundry receipts is the amount expected from the inam endowment of a choultry which was handed over to the District Board by the late B. Ramasawmy Naidu, Assistant Salt Commissioner.

27. The estimate of Rs. 500 on refunds of expenditure is based on the regular estimate of 1885-86.

28. The contribution from Provincial Funds for education is expected to be Rs. 1,530 more than was estimated for this year. This is because the rules allow Rs. 374 to be given in salary grants to the Nellore Normal school, and because experience shows that large sums will be paid in result grants to the practising department of the Normal school, and to other schools. The exact amount has been carefully calculated by the Deputy Inspector and checked by the Inspector.

29. The estimate of expenditure in Grant I is as follows :—

Particulars.	Amount. RS.
(*a*) New Works—	
(1) Communications	17,900
(2) Civil Buildings	12,420
(3) Miscellaneous Public Improvements	4,200
(*b*) Repairs—	
(1) Communications	56,050
(2) Civil Buildings	2,090
(3) Miscellaneous Public Improvements	890
(*c*) Establishment—	
(1) Public Works Department supervision	1,500
(2) Local Fund Engineering establishment	28,300
(*d*) Tools and Plant	1,270
(*e*) Contingencies	2,000
Total ...	1,26,620

30. In submitting the budget last year, I remarked that the grant had been cut down to such an extent that it seemed likely that the roads would degenerate and that some of them would ultimately disappear. Even then the grant, as ultimately sanctioned by Government, was Rs. 11,270 more than is now proposed (assuming that Rs. 15,350 may be added to it as the Road Fund portion of the reserve). The decrease means, of course, that the state of affairs as to roads degenerating and so forth is even worse than it was.

31. Details are given as to the expenditure on new works in statement III-A. The four new communication works shown, with an allotment of Rs. 17,900, are not new works except in the technical sense. They are restorations and improvements of old roads which are of vital importance to the district. No fewer than sixteen sanctioned works have to be omitted because of the state of the finances. The unsanctioned works shown as proposed are all works which have been before the District Board and approved by them as much wanted. In this case, and in the case of all other works shown without allotment in this statement and statement III-B, it has been thought desirable to enter the works in order that they may not be forgotten when the District Board gets more money. The allotments entered for civil buildings are for completing the school-houses at Kávali and Gúdúr and the chattram at Kottapatam, which are important and already far advanced, for putting up a shed at the Nellore Normal school to give additional accommodation which is much required but not afforded by the existing building, to go on with contracts already entered into for avenues, and to finish the chattrams at Dugarázpatnam and Ramayapatam, which the District Board is building for the Buckingham Canal Memorial Committee, who have paid over to them the cost.

32. Statement III-B shows the details of the expenditure on repairs. Most of the maintenance allotments have had to be again reduced. That for the Great Northern road is Rs. 31,710 this year, but it is to be Rs. 25,530 next year! The allotment for the Kistnapatam road is halved, but that is partly because a large portion of it has been remade. The only allotment which has been increased is that for the Dornal road (No. 8), which was Rs. 5,000 in the last budget and is Rs. 6,000 in this. In the budget for 1884-85 it was Rs. 6,000, and experience has shown that this sum is necessary. The part of the road between Nellore and Sangam is made of great importance by the traffic in connection with the works of the Sangam project. As regards civil buildings, small amounts (Rs. 40 each) are provided for finishing off the compounds of the new dispensaries at Kávali and Gúdúr. As regards miscellaneous public improvements, it is proposed to finish work already far advanced at Sarvapalle, &c., and to maintain the important water-supply works which have been constructed at Udayagiri.

33. The amount provided for Public Works Department supervision is the sum provided in this year's budget.

34. The allotment for the Local Fund Engineering establishment is Rs. 410 more than in the sanctioned budget of the year. Of this, Rs. 120 is nominal, and arises from a proposal to place the storekeeper on the regular establishment and charge Rs. 10 a-month of his pay to that instead of to maintenance as is now done with questionable propriety. The remainder arises from the increments of pay contemplated in the sanctioned proposals, viz.—

	Rs.
Overseers	144
Head accountant	60
Second do.	30
Draughtsman	60
Total ...	294

35. The sum provided for tools and plant is 1·37 per cent. on the expenditure on works.

36. The items under contingencies are as follow:—

	Rs.
Stationery	600
Printing and binding	300
Postage	500
Furniture	200
Sundries	400
Total ...	2,000

37. In the last budget, Rs. 2,600 were provided on this account.

38. The expenditure under Grant II is as follows:—

Particulars.			Amount.
			Rs.
(*a*) Inspection			1,620
(*b*) Normal Schools—			
(1) Salaries of masters			2,136
(2) Stipends of students			2,880
(3) Clerks and servants			132
(4) Miscellaneous			686
(*c*) Secondary Schools—			
(1) Salaries of masters			4,632
(2) Clerks and servants			60
(3) Miscellaneous			262
(*d*) Elementary Schools—			
(1) Salaries of masters...	Fixed	9,060	
	School fees	322	
	Results grants	945	
			10,327
(2) Servants			249
(3) Miscellaneous			1,154
(*e*) Grant-in-aid—			
Results grants			8,700
(*f*) Contributions—			
Municipalities			1,100
(*g*) Miscellaneous—			
Purchase of books (commission)			200
Total ...			34,140

39. There are now two inspecting schoolmasters in the Ongole range, one in the Kávali range, and one in the Nellore range. The District Board think it impossible to dispense altogether with this agency, and they wish they could provide two inspecting schoolmasters for each range, but the state of the finances is such that only one can be allowed for each. This reduces the allotment from Rs. 2,300 to Rs. 1,620. The estimate for the current year was swollen by a provision for granting mileage, but this must be refused now.

40. As regards the masters of normal schools, the only change is the retransfer of a master on Rs. 30 from the Kandukúr school in lieu of a master on Rs. 25 at the Nellore school. A transfer was made in this year's budget, but it seems desirable to effect a retransfer now.

41. The allotment for sundries in normal schools is less by Rs. 432, because it has been decided to supply them with nothing more than is absolutely necessary. The project of providing them with gymnastic apparatus has been relinquished.

42. The five secondary or middle-class schools remain as at present. It has been decided to pay the masters at the same rates in all, whereas Venkatagiri, with an attendance of only 34, is now getting Rs. 1,080 in consequence of its previous history, whilst Buchireddipalem, with an attendance of 61, is getting only Rs. 744. The uniform salaries now to be paid will be as shown in the margin. In Gúdúr and Kávali it is considered necessary to have an extra master on Rs. 8 a-month. In Kandukúr, which is the only school where there is an upper fourth-class, it is considered necessary to have the staff with exceptionally high pay shown in the margin.

	Per Month. Rs.
Head master	30
Second do.	25
Third do.	15
Total ...	70

	Per Month. Rs.
Head master	40
Second do.	25
Third do.	15
Fourth do.	10
Total ...	90

43. Hitherto two of the schools have had two servants costing Rs. 60. Now it is proposed that they as well as the rest should have one sweeper on Rs. 12.

44. The new Kávali school-house will be finished by the beginning of the year, and that at Gúdúr by the middle of it, so the allowance for rent can be reduced accordingly.

45. With regard to maps and books, it is proposed to supply these schools with Rs. 10 each for annual prizes.

46. There are now forty-nine elementary schools, Zaladanki and Indukurpet having been added to those named in the budget of 1885-86. It has been decided (in consequence of the state of the finances) to abolish all with an attendance of less than twenty-five, except those at Chundi and Ramayapatam which are exceptionally situated. Chundi is the head-quarters of the zemindari of that name and Ramayapatam is a place which has been and may again be flourishing, where a good road meets the canal. Seven schools will thus be stopped, viz., those at Irkam, Gangapatam, Damaramadugu, Sydapuram, Anamasumudrampett, Nandaveram and Ponnaloor. Hence the numbers shown in the present budget is forty-two.

47. It has been decided that a second master is needed at Sangam where the attendance is now thirty-two (new residents having been attracted by the anicut works) and that the salary of the head master of Kanigiri school may be reduced from the exceptional rate of Rs. 30 which was allowed last year to the head master, because the school was then reduced from a middle-class school to an elementary school, but is not needed now that a new incumbent has got the place. Otherwise there is no other change in the pay of the masters than those in the combined schools derive from changes in school fees and results grants.

48. Seven of the ten-master schools now draw Rs. 12 for a sweeper. Rs. 6 is found sufficient elsewhere, so four of them are allowed Rs. 6 only. Rs. 12 is allowed in the case of Allúr, Náyudupet and Rápúr, because they are more important than the rest and have recently been reduced from the status of middle-class schools.

49. A provision is made of Rs. 36 for rent at Sulurpet. The District Board had a building there, but it has been destroyed by the weather.

50. The other items are calculated with the intention of providing absolute necessaries only.

51. For results grants, Rs. 8,700 were provided in this year's budget, but Government, at the instance of the Director of Public Instruction, increased the allotment to Rs. 9,500. The regular estimate has shown that Rs. 8,500 only are likely to be spent. It is considered sufficient to provide Rs. 8,700 for next year.

52. For contributions to municipalities, Rs. 1,350 are provided in this year's budget, being Rs. 1,000 for Nellore and Rs. 350 for Ongole. The latter amount was the result of a calculation at Ongole, and it is now found that Rs. 100 is sufficient for that municipality.

53. The decrease in the allotment for the purchase of books is due to the fact, which I have already stated, that the District Board have resolved to get books supplied by a commission agent, giving him Rs. 200 as an advance.

54. The expenditure under Grant III is estimated as follows :—

Particulars.	Amount.
	RS.
(*a*) Hospitals and Dispensaries—	
(2) Medical subordinates	2,400
Travelling allowance to do.	150
(3) Clerks and servants	600
(5) Medicines and surgical instruments	1,650
(7) Midwives, &c.	1,410
(8) Medical pupils	2,148
(9) Medical practitioners, &c.	1,820
(10) Zillah Surgeon's establishment, including travelling allowance	808
Contingencies	474
(*b*) Vaccination—	
Fixed charges	9,300
Contingencies	750
(*c*) Sanitation—	
(1) Improvement of water-supply	2,000
(2) Do. of village-sites	1,200
(4) Arrangements at fairs, &c.	300
(5) Other sanitary outlay	1,500
(*e*) Choultries—	
(1) Establishment	578
(3) Contingencies	202
(*f*) Public bungalows	890
(*g*) Contributions—	
(1) Provincial services—	
(2) Sanitary inspection	1,200
(4) Cutler's establishment	50
(5) Lunatics	300
(3) Municipalities	8,950
Total	38,680

55. The circle has now ten dispensaries, six medical practitioners at centres and two passed students in reserve. The Zillah Surgeon wishes to establish four more dispensaries next year, but this cannot be afforded. He thinks Rs. 3,200 ought to be given for medicines and surgical apparatus, but hopes that Rs. 2,100* (the amount now provided) will just do. The provision for rent can be reduced because the dispensary building at Kávali is nearly finished and that at Gúdúr far advanced. It is necessary to provide something for the travelling allowance of medical subordinates transferred from one station to another,

	RS.
* For dispensaries	1,650
For medical practitioners	450

&c., and the District Board think Rs. 150 will be enough. The cost of the ten dispensaries will thus be—

	RS.
Medical subordinates	2,400
Travelling allowance to do.	150
Medicines and surgical apparatus	1,650
Servants	600
Rent	226
Contingencies	246
Total	5,272

56. The differences between this estimate and that for the present year (Rs. 5,010 in the aggregate) are slight. Experience has shown that the provision in the current year's budget for medicines, &c., is insufficient.

57. The cost of the medical practitioners will be —

	RS.
6 practitioners at centres	864
2 do. in reserve	384
Travelling allowance for do.	50
Medical apparatus	450
Contingencies	72
Total	1,820

58. Last year Rs. 880 was sufficient, but then the practitioners, who were only to pass in June, were not expected to get to work till far on in the year. Moreover, it has been found necessary to raise the allowance for medicines, &c.

59. To supply these medical subordinates, a medical school is kept up at the Nellore dispensary. There are now seven students under instruction, who will not pass out till 1887. The Zillah Surgeon wishes to enter fourteen new students, but the state of the finances is against this, and there is no prospect that the District Board will be able to establish new dispensaries so as to utilize their services. It is with great regret that the District Board have come to the conclusion that, unless other circles join in keeping up the school, it may have to be abolished altogether. This will be a great pity, for the school has been very successful and has supplied exactly the set of medical agency which the District Board wants at a cheap cost. The expenditure on the school is as follows :—

	RS.
Superintendent (District Surgeon)	1,200
Translator	300
Scholarships	624
Contingencies	24
Total	2,148

60. There are eighteen midwives out in the district and five under instruction at the lying-in hospital, Nellore. This year eighteen were provided for and one has been added since (G.O., No. 503 L. F., dated 23rd July 1885), but one of them has been dismissed. They are required to visit Nellore once a year to be examined by the Zillah Surgeon, and it is thought necessary to provide Rs. 30 as travelling allowance for them.

61. The provision for the vaccination establishment in this year's budget was—

	RS.
Establishment	6,750
Travelling allowance	3,000

Government considered the provision for travelling allowance excessive, but the regular estimate shows that no reduction is safe. The Zillah Surgeon thinks that the

deputy inspector of vaccination, who now draws Rs. 70 + 22½, might be replaced by one who draws Rs. 40 + 15, but that no other reduction can be made. The District Board have adopted this suggestion, and the result is that the estimate for vaccination, fixed charges, is Rs. 450 less. The inspector of vaccination will be requested to make the change. The vaccination contingencies are the same as in the last budget, except that in accordance with experience Rs. 400 has been provided for rewards instead of Rs. 200. These rewards are granted at the rate of two annas a case for every successful case when vaccinators perform more than 100 successful operations in a month, and Rs. 200 has been found quite insufficient both this year and last year.

62. The state of the finances has made it necessary to cut down general sanitary expenditure far below the amount at which the District Board think it ought to be fixed. Rs. 4,500 are provided in this year's budget for conservancy establishment, that is for sweepers in the large villages. The Zillah Surgeon, who has seen the men at work in all parts of the district, reports that they do little or no *sanitary* work, and that though they sweep away harmless rubbish from the chief streets and do private work for the officials, they leave the dirtiest places untouched on the ground that they are *sweepers*, not *scavengers*. The District Board concur in this opinion. They think that in any case the service is one which should be left for the newly-constituted unions with their house-tax. Rs. 2,800 are provided in this year's budget for water-pandals which supply drinking water to travellers along all the chief roads for the five dryest months of the year. The District Board think that Rs. 1,000 will suffice to provide for the most urgent wants in Darsi, Podili, Addanki, Kanigiri and Kandukúr and along the Gúdúr-Venkatagiri road for the three worst months. With Rs. 500 added for miscellaneous purposes, this forms the allotment of Rs. 1,500 for "other sanitary outlay."

63. Experience shows that it will be sufficient to provide Rs. 300 for sanitary arrangements at fairs and festivals.

64. The allotment for choultries is reduced, because the entry in the current year's budget of the *Venkatareddipalli* choultry is a mistake. There is no choultry at that place. One was commenced, but it has been abandoned, and was in ruins before the beginning of the current year, so that it was entered in the budget by mistake.

65. The public bungalow at Velampalli is not entered in the current year's budget, and in my letter submitting that budget, I stated that it had been abandoned. This was a mistake. The District Board resolved to keep the building though they thought it might be locked up and left in the care of the village munsif, but since then it has been found necessary to furnish it with a sweeper.

66. Under contributions for municipalities the following amounts are provided :—

		RS.
(1)	Nellore municipality—dispensary	3,600
(2)	Do. lying-in hospital	1,000
(3)	Ongole municipality—dispensary	3,000
(4)	Do. building grant for do.	1,350
	Total ...	8,950

67. Items 1, 2 and 3 are the same as in the current year. The total amount seems large, but it must be remembered that the dispensaries at Nellore and Ongole and the lying-in hospital at Nellore are institutions of the greatest service to the circle and entail an expenditure out of all proportion to the means of the municipalities. Item 4 provides a portion of the amount promised for the Ongole dispensary by the District Board, viz., Rs. 2,480. In their order on the current year's budget, Government remarked that this grant must be paid, and ordered the President to arrange for making it in the course of the year. Under circumstances which need not be recapitulated, however, the new building has not been commenced yet, and the District Board think it will be enough to provide Rs. 1,350 on this account next year.

68. The total expenditure under Grant IV is Rs. 7,330. The items are the same as in the current year, except that under recent orders some of the expenditure

in the Collector's office establishment has been transferred to the District Board's office establishment, and that a provision of Rs. 570 is considered necessary for the pensions to which overseers who ceased to be employed at the revision of the Engineering establishment may be declared entitled.

69. Rs. 23,030 at 10 per cent. of the income *minus* the balance has to be provided for the reserve.

70. The total expenditure will thus be—

	RS.
Grant I	1,26,620
„ II	34,140
„ III	38,680
„ IV	7,330
Reserve	23,030
Total ...	2,29,800

71. As the receipts amount to Rs. 2,34,660, this leaves a balance of Rs. 4,860, which is Rs. 6,650 less than Government have ordered. The District Board have found it impossible to cut down expenditure any further than they have done without causing serious harm. They hope that under the difficult circumstances of the district, Government will be satisfied with the balance they have provided. If not, the Kandukúr normal school must be abolished, but this will only provide a portion of the sum required and would be a most deplorable step, detrimental in the extreme and almost ruinous to the educational system of the circle.

72. I enclose a copy of resolution No. 154 of 1885-86 in which the District Board pass the budget.

ENCLOSURE.

Proceedings of the District Board, Nellore, passed at a meeting held in the Collector's office on Friday, the 11th December 1885, at 3-30 P.M.

* * * * * * *

154. Read consolidated budget of the District Board, Nellore, for 1886-87 passed by the budget sub-committee at meetings held on 2nd and 3rd December 1885.

Resolution—The budget as amended by the budget sub-committee is passed. The District Board are of opinion that it is necessary to establish new toll-gates, and think there should be a gate at each place where district roads leave the district, viz., one at Bhímavaram on the old road from Guntúr, one north of Addanki, one at the Vemulapad pass, one south of Venkatagiri, one-west of Náyudupet, one at the end of the Dorual road which has already been sanctioned, and the one at Bodilingumpaud which being near the southern end of the great northern road need not be changed. The toll-gates at the anicut and Gúdúr should be abolished when the new gates are established. The President is requested to make an application to the Nellore Municipality for a contribution from tolls. Even when this is done, there will be a smaller balance than Government require. The only means of raising it to the proper amount seems to be by abolishing the Kandukúr normal school, but the District Board would greatly deplore this move, and think its effect on education would be severely detrimental.

From D. DUNCAN, Esq., M.A., D.Sc., Acting Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 16th January 1886, No. 264.

I have the honor to submit the following remarks on the budget estimate of the Local Funds of the Nellore district for 1886-87.

2. *Receipts.*—A sum of Rs. 3,940 is entered as contribution from Provincial funds for education. The amount should be raised to Rs. 3,970 with reference to the total given in statement IV. The total educational assets amount to Rs. 40,780 :—

	RS.
One-sixth land-cess	33,330
School fees	3,130
Sale of books	350
Provincial grant	3,970
Total ..	40,780

3. *Charges.*—The charges proposed aggregate Rs. 34,140 against Rs. 38,710 in the current budget estimate :—

	1885-86.	1886-87.
	RS.	RS.
Inspection	2,300	1,620
Normal schools	6,270	5,834
Local Fund schools	18,340	16,684
Grants-in-aid	9,500	8,700
Miscellaneous	2,300	1,302
Total ..	38,710	34,140

4. *Inspection.*—The board having resolved to dispense with the services of one of the two inspecting schoolmasters in the Ongole range, have allotted Rs. 1,620 against Rs. 2,300 in the current year's budget. The Inspector of Schools is not in favor of the measure, and considering the backward condition of education in the district generally, I would urge that the staff of inspecting schoolmasters be left undisturbed, and that the allotment be raised by Rs. 600.

5. *Normal Schools.*—No provision is made for supplying gymnastic apparatus to the normal schools. I beg to recommend that Rs. 60 may be added to the proposed expenditure.

6. *Local Fund Schools.*—The decrease in the provision for the upkeep of the Local Fund schools is due mainly to the contemplated abolition of such of the elementary schools as contain less than 25 pupils. I would suggest to the board that the grants be utilized in starting schools in other localities where no means exist for educating children. The introduction of a uniform scale of pay in secondary schools is a step in the right direction.

7. *Results Grants.*—The assignment for results grants is Rs. 8,700 against Rs. 9,500 in the current year's budget. The reduction appears to have been made with reference to the actuals of 1884-85. As the outlay under this item is of a fluctuating character and as some of the Local Fund schools will be abolished, I would recommend that a provision of Rs. 9,500 be budgeted for 1886-87 also.

8. *Miscellaneous.*—The items shown under this head call for no remark. The board's proposal to get books supplied by a commission agent may be tried, subject to a report at the close of a year on the working of the new system.

9. The total expenditure will be Rs. 35,600, if my recommendations be adopted, against an income of Rs. 40,780.

From M. C. FURNELL, Esq., M.D., F.R.C.S., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 20th January 1886, No. 30.

I have the honor to state that the provision made in Grant III of the budget estimate of the District Board of the Nellore district for the year 1886-87 for the maintenance of the dispensaries is adequate and calls for no remarks.

ORDER—dated 16th June 1886, No. 667 L.F., Financial.

The following abstract shows the estimated Local Fund receipts and charges of the Nellore district for the year 1886-87, as passed by Government :—

CHARGES—*continued.*

	District Fund.	Taluk Funds.	Total.
	RS.	RS.	RS.
Balance—	7,040	7,680	14,720
Deduct—			
(1) Balance under House-tax, if any	..	..	..
(2) Balance under Endowments, if any	..	..	..
Net balance available for general purposes	7,040	7,680	14,720

2. *Revised Estimate for* 1885-86.—Excluding debt heads the opening balance amounted to Rs. 4,829 against a budget estimate of Rs. 27,520. The decrease was due to the unusually small amount realized under Land-cess in 1884-85, owing to the causes noticed in paragraph 3 of G.O., 21st September 1885, No. 756 L.F., Financial. Excluding this balance, the receipts were estimated at Rs. 2,36,158 against Rs. 2,40,120 in the budget, the decrease occurring under Land-cess and being attributed by the President to the comparatively small arrears outstanding at the beginning of the year. It is observed, however, that the estimate contemplates the collection of only 55 per cent. of these arrears and an increase of upwards of Rs. 3,000 in the amount of arrear outstanding at the end as compared with the beginning of the year. This ought not to be, and if the remaining 45 per cent. of old arrears are not recoverable, immediate steps should be taken to write them off the accounts. The expenditure is estimated at Rs. 2,36,649 against Rs. 2,65,020. This decrease, as compared with the budget, is the result of reductions, chiefly under Grant I, in view to avoid a deficit at the close of the year.

3. *Budget for* 1886-87.—Deducting the charges of the revised estimate from the receipts, the balance to be taken over to the budget of 1886-87 is Rs. 4,340. The receipts are estimated at Rs. 2,30,280 against Rs. 2,40,120 in last year's budget, the decrease being the net result of variations occurring chiefly under Land-cess and Tolls. The cess on land is expected to yield Rs. 2,00,000 against Rs. 2,20,000. Here again the estimate contemplates an accumulation of arrears from Rs. 30,284 at the opening, to Rs. 38,935 at the close of the year. At this rate the amount in arrear will double itself in no long period of time, and the writing off of large sums will again present itself as an unavoidable necessity. The current collections, it is observed, are estimated at only 85 per cent. of the demand. Considering that in the revised estimate the proportion is 91 per cent., the Government consider that the budget rate may safely be raised to 90 per cent., being the rate for arrears as at present, viz., 75 per cent. The estimate will accordingly be increased to Rs. 2,10,000. Under Tolls the receipts are estimated at Rs. 12,000 against Rs. 7,000 in consequence of the proposed opening of six new toll-gates. But as G.O., dated 3rd March 1886, No. 268 L.F., sanctioned the opening of only three new gates and the transfer of two of those already existing, the President is requested to report whether the estimate needs any alteration under this head. The district board have taken credit for Rs. 2,200 as the Local Fund share of the tolls of the Nellore Municipality, but the municipal council have provided only Rs. 1,000 in their budget. The former amount will be allowed to stand pending further report from the President. The educational grant of Rs. 3,940 from Provincial funds will be raised to Rs. 3,970, as advised by the Director of Public Instruction.

4. The expenditure is estimated at Rs. 2,29,800 against Rs. 2,65,020 in 1885-86, owing to reductions caused by the necessity of maintaining the financial equilibrium. The provision for new roads is Rs. 17,900, and is intended for the four works noted in the margin. That for the repair of communications is only Rs. 56,050 against Rs. 64,960 in 1885-86, and no provision is made for twenty sanctioned works on which expenditure has already been

	RS.
Restoring Nellore-Kistnapatam road	6,560
Do. Rajapolem-Iskápalle road	5,000
Completing Ongole-Kottapatam road	5,000
Remetalling 44 to 48 miles of Great Northern road..	1,340
Total ..	17,900

incurred. In view of this state of things and of the generally unsatisfactory state of the roads throughout the district, the board propose to raise a loan of Rs. 90,000 in the open market for the purpose of putting the principal lines of communication in thorough order and starting afresh. A formal application for this purpose has been submitted to Government, but as it was incomplete in some respects, it has been returned to the President for amendment. The provision for Local Fund Engineering establishment including contingencies, amounts to more than 32 per cent. of the proposed outlay on works. As the limit fixed by rule is only 20 per cent., and the existing staff does not appear to produce results in proportion to its cost or to keep the roads in satisfactory order, the board will be invited to consider whether the establishment should not be reduced until the finances of the district have materially improved. With reference to the corresponding entry in the budget of the Ongole Municipality, the sum of Rs. 1,350, provided under Grant III as a contribution towards the cost of constructing a municipal dispensary, will be reduced to Rs. 1,300 and transferred to Grant I.

5. The provision for education is Rs. 34,130. The Director suggests that this should be raised to Rs. 35,590, but this cannot be sanctioned in the present state of funds. Under Grant III the provision for hospitals and dispensaries is considered adequate by the Surgeon-General, and the remarks of the Sanitary Commissioner on the allotments for vaccination and sanitation are awaited. The contribution to Provincial funds on account of sanitary inspection will be reduced from Rs. 1,200 to Rs. 1,180, being ·5 per cent. of the receipts according to the revised estimate for 1885-86, and the sum of Rs. 3,000, shown as a contribution to the Ongole Municipality for the upkeep of the dispensary there, will be reduced to Rs. 2,430, the amount taken credit for in the municipal budget. Under Grant IV the contribution on account of controlling establishments at the Presidency should be Rs. 1,840, the actuals of 1884-85. The reserve calculated at 10 per cent. of the estimated receipts is Rs. 24,030, and the budget closes with a balance of Rs. 14,720, a portion of which may with advantage be made available for the repair of communications.

6. The district board have not distributed the receipts and charges between the district and taluk funds as required by rule, the reason being probably that they contemplated the postponement for a time of the constitution of taluk boards and panchayats. As, however, this proposal has not met with the approval of Government, the required distribution should be carried out without delay, and the Government have accordingly made a tentative distribution in the abstract at the head of these proceedings. This distribution should be adhered to in the absence of good reason to the contrary, the existence or non-existence of which should be reported.

(True Extract.)
