Some months ago there was a suggestion made that lodging houses for students attending the Presidency College should be erected on the site suggested for H.E.'s Band.

Let me see the papers.

The subject became think mixed somehow with the proposals for removing the fishing Village on the Beach.

Proposed site for quarters for H.E. the Governor's Band.

To W

For orders, with reference to D.O. No 125-S.W. of 18.5.86.

The site previously mentioned by His Excellency's Military Secretary, & which was declared to be not available, was on the west bank of the Canal, opposite the College of Engineering.

The site now recommended is near the southern boundary wall of the Park, near the Presidency College stables:— the same plot of ground apparently which has been suggested as a carriage stand for the employés of the various offices at Chepauk.

Sir

With reference to G. O.
No. 1258 W dated 18th May 1886,
we have the honor to forward
a plan of the Southern portion
of the Chepauk Park, showing
the site selected by us, as the
most suitable for the proposed
quarters of His Excellency the
Governor's Bandsmen.

Enclosure
1 Site plan.

2. There are already some
Military Students of the Civil
Engineering College quartered
there - and the Bandsmen
quarters - if built on the
site selected would not be
likely to prejudice the appear-
ance of the Park from the

main portion of which they would be hidden by trees already well grown.

3. The Site is salubrious and the best available. Its distance from Government House Mount Road would be 1000 Yds and from the place where the band is play at Chepauk 900 yards.

4. We would strongly recommend the Site for the approval of Government.

I inspected the site proposed for houses for H.E. the Governor's Band on the 7th instant and am of opinion that it is well suited for the purpose and that the quarters if built there will not prejudice the appearance of the Park. I do not know & cannot ascertain what site was lately recommended for a carriage stand; but I consider that the site for the quarters for band would be quite unsuitable for such a purpose, as the distance from the Revenue Board Office is nearly ½ mile.

The distance from the offices of the proceedings for a carriage stand was noticed in the papers relating to drop rules for the Chepauk Park.
