Read—the following letter from the Honorable R. W. BARLOW, Collector of Madras, to the Secretary to Government, Revenue Department (through the Board of Revenue), dated Madras, 19th April 1886, No. 1076 :—

I have the honor to submit the report called for in Government endorsement,* No. 6349; dated the 16th November last, on the petition * of Ghulam Ali Akbar and Ghulam Ali Azghar, dated the 30th

October last, requesting permission to rail off a tomb erected to the memory of their grandfather Syfed Dowlah Bahadur, grandson of Nabob Wallajah in the male line.

2. It is reported that this tomb, which was constructed of substantial brick, existed till about fifteen years ago on the spot marked A and colored pink on the sketch herewith sent, but that—owing to long neglect—it had gradually fallen into ruins, and there is nothing now standing by which it can be identified, though the petitioners allege that “underground there are its foundations and the remains may be found if the ground is dug up.”

3. The site of the tomb is Government land included in the compound of the new Ophthalmic Hospital—72 feet from Marshall's road and 60 feet from the southern compound wall of the hospital—measuring 10 × 8 feet, and the petitioners say that they will rail off the site, if permitted, within one month at their own cost, their object being simply out of respect to the dead to prevent people walking over the spot.

4. I see no objection, so far as this department is concerned, to their request being granted on the distinct understanding that they will have no right whatever to the land. The site is now vacant, and of small extent, and I do not think that the hospital authorities would in any way be inconvenienced by its being fenced round; the more so as the petitioners say they will not even claim a right to visit the place.

5. It was reported that about fourteen years ago the fathers of the petitioners requested Government to permit them to keep the tomb in repair at their own cost, and that Government were pleased to permit them to do so, but petitioners can produce no copy of the Government Order nor can it be found—spite of diligent search—either in this or in the Deputy Collector's office; hence the delay in replying to this reference, which I much regret. The Deputy Collector's report was only received on the 16th instant after several reminders.

ENCLOSURE.—Sketch.

Reference on the above, dated 10th May 1886.

The Collector should ascertain and report if the hospital authorities have any objection to the tomb being railed off.

Read—the following letter from C. F. MACCARTIE, Esq., Acting Collector of Madras, to the Secretary to the Board of Revenue, dated Madras, 28th May 1886, No. 1615:—

In reply to the Board's reference on Petition Register No. 1505, dated the 10th instant, I have the honor to report that the Superintendent, Eye Infirmary, who has been consulted on the subject, states that he has no objection to the tomb being railed off, provided the height of the rails does not exceed one foot above the ground.

2. I see no objection to the limit of the railing being fixed at three feet. This height will effectually prevent trespassing upon the grave.

Resolution—dated 8th June 1886, No. 1275.

Submitted to Government.

2. The Board support the Collector's recommendation that Government should, as an act of grace, permit petitioners to fence in their ancestor's tomb with a railing three feet high.
