Certain transfers of —, sanctioned.

Memorandum on the Fort
Armament work.

This work is now nearly finished.
Originally estimated to cost Rs 42,035/-
it cannot be now quite finished
as the Completion Report sent because
the brass magazine locks have not
yet been received from England
and delivered: and also because
3 of the 5 rifled guns for the salient
angles have not as yet been
mounted ~~on the salient angles~~
~~I believe~~.

The amount expended on the
work to date is Rs 39,535.

In order to avoid all future
complaint on the part of the
R. A. arising from deficient
ventilation of the magazines in the
hot weather.

I propose to add an outside
door to each shell and cartridge
store. Also all the shell and
cartridge stores are, necessarily

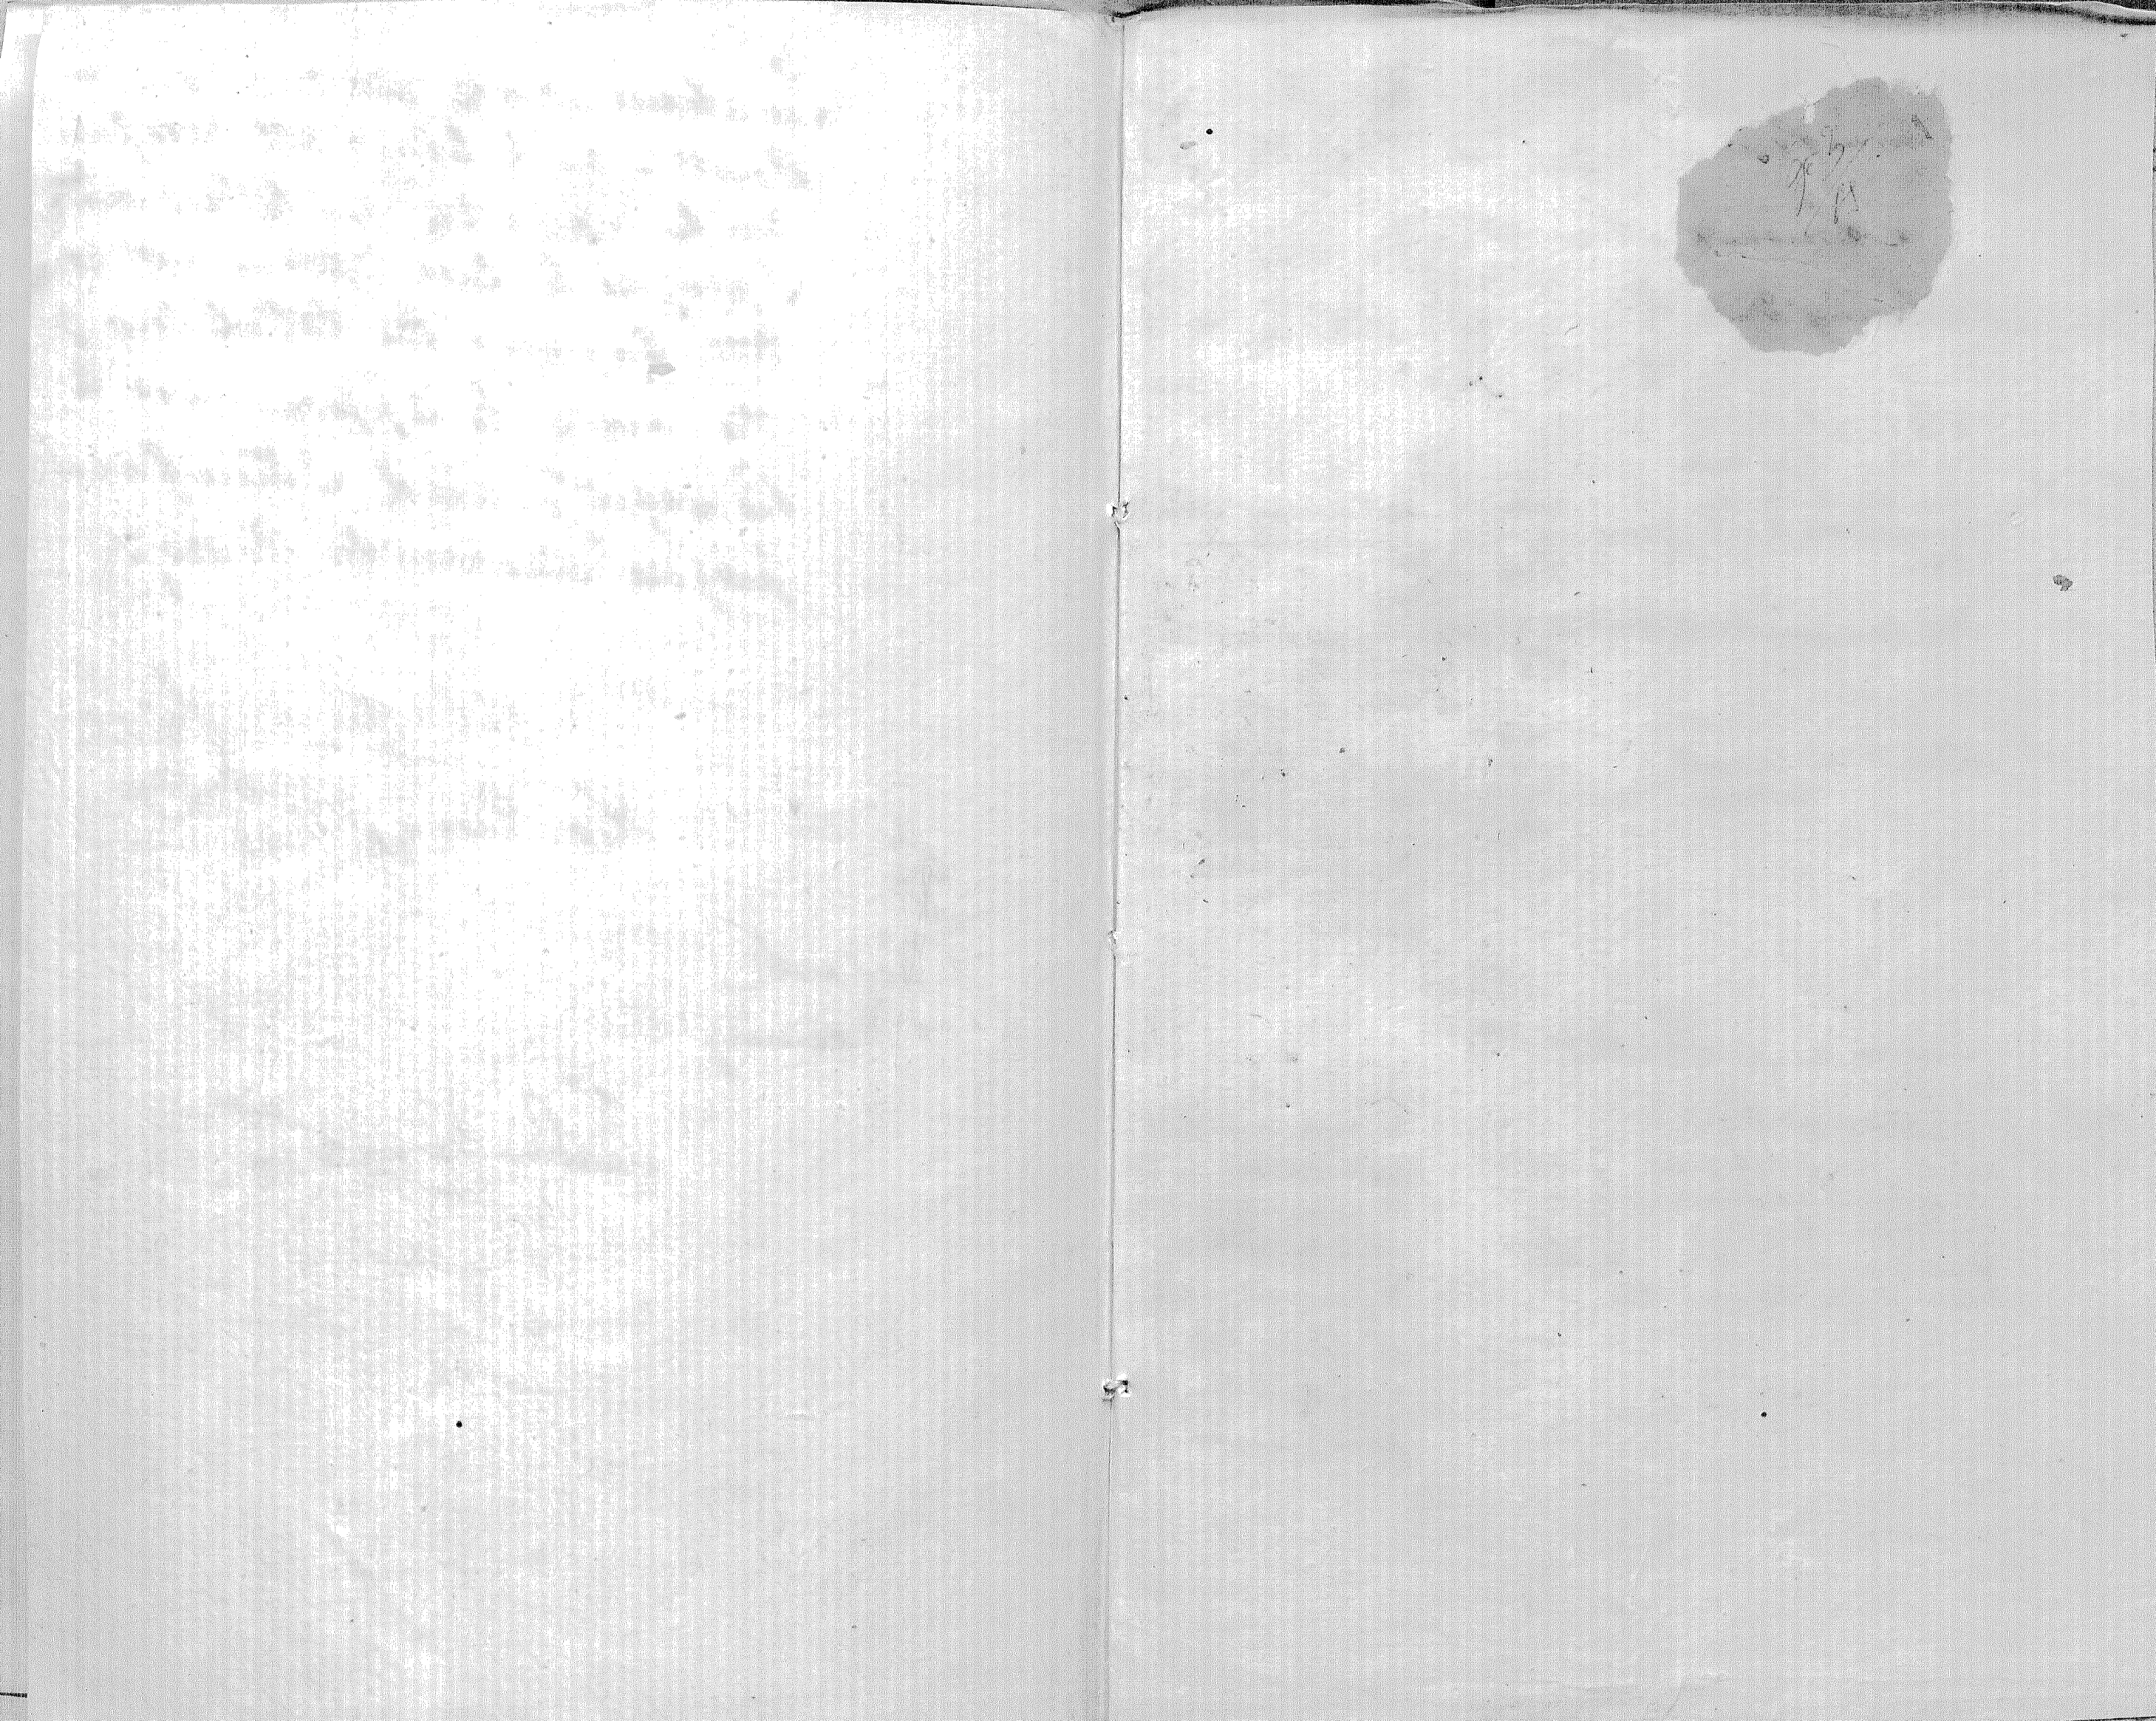

from being on the parade level,
at some considerable distance
from the guns ^{therefore} I propose to add
for each group of guns. 2 recesses
in a central position in the parapet
wall capable of containing
a few rounds of shell and
cartridges in order that guns
may be served with greater facility.
Letting all parts of the work
connected with the armament
is by G. O. No 2474 dated 1st Sept/84.
received since the estimate was
framed, now necessary - it is necessary
to depilate - 2 of the S. B. guns
from the sea at the N. E. Demi

Bastion is also necessary, it was
not in the original estimate.
The cranes, locks and derricks
for hoisting ammunition from
Parade to ~~the~~ Terreplicien
level have also to be paid for
and blocking up the Choultry
gate has been estimated to cost
Rs 130/- and ^{a separate} estimate has been
approved by the Military
Authorities

The above work will cost about
Rs 1180/- and being all necessary
and appertaining to this work
I propose to carry them out at once
thus causing the total cost of
the work to approximate to
Rs 40915/- and I therefore
propose to surrender Rs 1120/-
