FROM

CAPTAIN H. D. LOVE, R.E.,

PRINCIPAL, CIVIL ENGINEERING COLLEGE,

TO

The Chief Engineer,
Public Works Department.

SIR,

I have the honor to inform you that five Soldier Students are expected to pass out of this College at the end of the current month. Employment in the Public Works Department is guaranteed to three of this number; and I shall be much obliged if arrangements can be made which will permit of their being posted early in June.

2. I have also to enquire whether employment can be found for the remaining two, supposing them to be successful in their examination.

I have the honor to be,

Sir

Your Most Obedient Servant,

H. D. Love. Capt. R.E.

I believe there is more work (in a small area) going on in Presy Division than elsewhere

In other Divisions, works are scattered and the apprentice Overseers get no Travelling Allowance. Colonel Bunton particularly asked me to post these men to the Presidency, as he says they can be most usefully employed.

They could not have a better instructor than Condt. Milne, and I believe Supt. Temple is also well suited for the purpose.

Before confirming these postings, it might be well to ask the Chief Engineer for Irrigation as there may be some

On receipt of C. I's note of 1st June 1886, telegrams were sent to S. C. I and II Cincels asking if they could accommodate a military Apprentice Overseer.

The Supg. Engineer I Cincel has answered that he does not recommend an Overseer being sent.

The Supg. Engineer II Cincel is on tour out Buckingham Canal and his answer will probably not be received for some time - last year the Supg. Engr. II Cincel reported that he could not accommodate an Apprentice Overseer and as it is advisable that these men should be posted at once, I think it unnecessary to await the

SIR,

Enclosures.

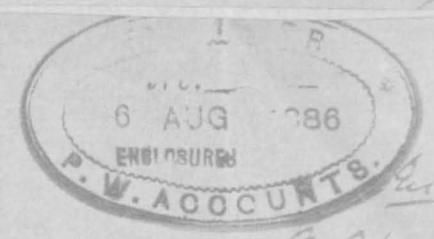

With reference to your Memo-
 randum No. 431 dated
 21st Instant, I have the honor
 to explain that the Appren-
 tice Overseers have just joined
 from the Civil Engineering
 College where they had a re-
 gular Mess. free quarters
 and rations none of which
 they now have as Apprenti-
 ces: they must get money
 to meet such necessary char-
 ges - they probably have no
 personal friends in a position
 to

to give them a loan to meet
such daily present wants.
it is true eventually, some
early day in August they will
get their allowance in lieu
of Rations and allowance for
quarters - but that is not the
same thing as having the money
to pay strangers for such things
at the moment when wanted.
It was under these circumstan-
ces that sanction to the advance-
ment was applied for viz:
as a special case. Such a
one as would be covered by
