GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Palár Anicut, 6th August 1886, No. 2141 :—

I have the honor to submit, for sanction, an estimate of Rs. 4,290 for improving and extending the verandah of the main record-room of the Government office in Fort St. George.

2. The estimate has been countersigned by the Chief Secretary to Government, Public Department, in token of approval.

ORDER—dated 18th August 1886, No. 2074 W., Public Works.

The estimate, amounting to Rs. 4,290, for improving and extending the verandah of the main record-room of the Government office in Fort St. George, is sanctioned for immediate execution, and the amount is allotted from the Provincial reserve with the Government.

2. This sanction has been registered as Provincial, No. 89 W. of 1886-87, and classified as Civil Buildings, Original Works.

From the

NOTE OF REMARKS.

1. The accompanying plan and estimate provides for improving and extending the verandahs of the main record room of the government offices in Fort St. George. The estimate amounts to Rs. 4290.
2. Owing to the accumulation of 'records' that has taken place and the upper floors of the building being unequal to the task of bearing further weight, it is necessary to provide additional accommodation to that at present available in the government offices by improving and extending the north and south verandahs of the main record room on the ground floor. To effect this it is proposed to remove the existing verandahs and to

C. 13.8.86 R. 18.8.86

replace them by two large
rooms - each measuring
21 feet $\times$ 8 $\frac{1}{2}$ feet, each being
on the outer three sides by
new wall 13 $\frac{1}{2}$ feet long, $\frac{1}{2}$ feet
wide 12 feet high. The proposed
new roofing is to be of ordinary
terracing or teak joists, the
cantlings of these joists are
slightly in excess of those allowed
in the standard specifications
but subject to approval, may
be accepted. The flooring is
to be of concrete 9 inches thick
with an over-coating of asphalt
1 inch thick.

The rates fairly accord with
those of the schedule of rates.
The estimate has been counter-
signed by the Chief Secretary
to Government in the Public
Department.

(6)
The estimate is
recommended for sanction.
The cantling of timber
to be accepted.
 $\frac{3}{4}$ " is appearing thick for
the asphalt, and the
cantling to come out
according.

10/8/86.

note by E.W.

The scantling of the
teak joists allowed in
the estimate is 3" $\times$ 6 $\frac{1}{2}$ ",
but the standard
specifications allows
only 3" $\times$ 5 $\frac{1}{4}$ ". It is consid-
ered, however, that
the scantling entered in
the estimate may be
accepted. The thickness
of asphalt allowed for
the flooring is 1 inch, but

514
10/8/86

replace them by two large
rooms - each measuring
21 feet x 8 1/2 feet; each being
on the outer three sides by
new wall 13 1/2 feet long, 1 1/2 feet
and 12 feet high. The proposed
new roofing is to be of ordinary
terracing on teak joints. The
scantlings of these joints are
slightly in excess of those allowed
in the standard specifications
but subject to approval, they
be accepted. The flooring
to be of concrete 9 inches thick
with an over-coating of asphalt
1 inch thick.

The rates fairly accord
with those of the schedule of rates.
The estimate has been con-
sidered and approved by the Chief Engineer
of the Government in the Public
Department.

10/11/86

3/4" of an inch
would be sufficient

With these
remarks the estimate
is submitted for
sanction.

E.W.

10.13.86

10.13.86

D.W.

The estimate is for enclosing
the existing verandah on N & S of
the Board room, ~~verandah~~ of Govt Office
at Chupah. & for roofing with ordinary
terracing.

The windows now fixed in the main wall
are to be moved into the outer wall
& presumably the spaces now occupied
by the windows will be left open
& used as means of communication
with the verandah.

The scantling of teak joints allowed
in the Estimate are 3" x 6 1/2" whereas
the Standard Specification allow 3" x 5 1/4".
There seems no reason for the increase in
the dimension allowed in the Standard Specifi-
cation. It is believed amply strong enough.

The thickness of Asphalt allowed is 1 inch
seems excessive. 1/2 inch or 3/4" at most
would be I think amply.

The rates are fair & the Estimate has
been approved in the Public Depart^t.

M.

Note by the Chief Engr. P. W. Deane

This note may I think
be omitted, as the
circumstances are
special.

W

85-86

The scantling of the teak
joists allowed in the estimate is 5" x 6",
but the standard specification allows
only 3" x 5 1/4". It is considered, however,
that the scantling entered in the
estimate may be accepted. The thick-
ness of asphalt allowed for the flooring
is 1 inch, but 3/4 of an inch would be
sufficient.

2. With these remarks the
estimate is submitted for sanction.
