GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

9th August 1886, No. 4761.

Sanitary—Reports and Returns.

Read the following :—

No. 95. *Military Despatch from the Right Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George; dated India Office, London, 15th July* 1886, *No.* 9.

Para. 1. I forward, for your information, seventy * copies of a memorandum by the Army Sanitary Commission on the Health Returns of British Troops in the Madras Command for 1884.

* Twelve by mail ; fifty-eight by parcels post.

2. The unhealthy conditions prevailing at Secunderabad and Bangalore, as evidenced by the returns of sickness at those stations, call for earnest consideration at the hands of the proper authorities.

Memorandum of the Army Sanitary Commission on the following papers :—

1. Sanitary Report of Madras Army, 1884, by Surgeon-General J. Irvine, M.D.
2. Remarks on the above by the Commander-in-Chief, Madras.
3. Report on Enteric Fever in the Madras European Army, 1884, by Surgeon-General J. Irvine, M.D.

These papers are separate references, but we shall include our remarks on them in one memorandum. There is a separate paper by Surgeon-General Irvine, "Sanitary Report of British Troops in the Madras Command for 1884," which we shall also include, because all of them refer to the same subject.

1. The average strength of non-commissioned officers and men in the Madras European Army in 1884 was 10,812, as given by the Surgeon-General. But the average strength given by Dr. Stephen in his statistical tables differs slightly from the Surgeon-General's estimate; it is 10,785. The difference is so slight that we shall adopt that given in the Madras report. The year's facts will, therefore, stand as follows :—

		Ratio per 1,000.
Average strength	10,812	...
Admissions to hospital	11,960	1,106·18
Total deaths	93	8·60
Invalids sent home	350	32·37
Average daily sick	639·49	57·5

Dr. Stephen's returns differ from the Surgeon-General's in giving ninety-two deaths instead of ninety-three, and he states the average daily sick at 620. The two returns, therefore, differ from each other somewhat, but not to any material extent.

2. The really important points are given in this abstract, which shows satisfactory progress in army health.

—	1874—83.	1884.
Admissions per 1,000	1,173·87	1,106·18
Deaths ditto	13·98	8·60
Invalids ditto	40·10	32·37

As we shall presently see, there are disease and death causes still in existence which ought to be abolished, but the results of the 1884 statistics show a very substantial gain to army efficiency in all its elements.

3. As usually happens the admission rates vary considerably at different stations and in different years, but some of the stations have persistently high admission-rates.

Kamptee, for example, showed a ten years' average admission-rate of 1,460·27 per 1,000, and in 1884 the rate was 1,377·92 per 1,000. There must, of course, be some cause for this, and that it has something to do with locality appears to be shown by the fact of the high rate of 1884; there was due to fevers 587·2 per 1,000, to dysentery and diarrhœa 55·3 per 1,000. Bangalore had a ten years' admission-rate of 1,145·81 per 1,000, and in 1884 of 1,006·48 per 1,000. In the same way Secunderabad, with a ten years' admission-rate of 1,145·81 per 1,000, yielded a rate in 1884 of 1,077·53. These cases have an important bearing on the question of army efficiency, because of the number of troops stationed in the localities, although the admission-rates are not all due to local diseases.

4. The admission-rate for the whole Madras Army in 1884 was, as has been already stated 1,106·18 per 1,000; of this ratio 242·70 was due to venereal diseases, leaving for all other admissions a rate of 863·48 per 1,000. In the same way, of the Kamptee rate of 1,377·92, the venereal rate was 242 per 1,000; of the Bangalore rate 343·2 and of the Secunderabad rate 284·5 were due to syphilitic diseases.

5. Of mitigable or preventable fatal diseases, the most important were enteric fever, which yielded 129 admissions and eighteen deaths, and cholera, for which twelve were admitted, and ten of them died. The most fatal disease of the year was, however, hepatitis, to which twenty-two deaths were referred, and there were nine deaths from apoplexy. There were twelve deaths out of hospital, to be deducted from the ninety-three, which leaves eighty-one deaths, fifty-nine of which were due to these four diseases.

6. The death-causes of the year were as follow, including the above :—

Diseases.	Deaths.	Diseases.	Deaths.
Cholera	10	Hepatitis	22
Small-pox	1	Respiratory diseases ...	1
Enteric fever	18	Heart disease	1
Apoplexy	9	Phthisis pulmonalis ...	3
Delirium tremens ...	1	Wounds, &c.	1
Dysentery	4	All other causes ...	7
Diarrhœa	2	Deaths out of hospital ...	12

Taking the more important death-causes in order, we find that of the ten cholera deaths three took place at Madras, one at St. Thomas' Mount, one at Poonamallee Depôt, three at Bangalore, one at Secunderabad, and one at Kamptee. Out of twelve cases of cholera in the Madras Army ten died.

7. In connection with these cholera deaths, it should be remembered that there were 75,476 deaths from the disease among the civil population at the same time. There was a severe epidemic in the Presidency, during which the Native Army had a cholera death-rate of 1·46 per 1,000, while the rate in the European Army was 0·92 per 1,000, both of which may be favorably contrasted with the rate of 2·7 per 1,000 which ruled among the civil population.

8. *Enteric Fever.*—As already has been stated there were eighteen deaths entered under this head in 1884, which was the mortality in 129 cases of enteric fever, and we shall first show the relation which this fever has borne in time past to the general fever history of the Madras

Army. Assuming the strength, in round numbers, at 10,800, the admissions and deaths for eleven years have been as follow from all fevers :—

Fever Types.	1884.		Total in ten years 1874 to 1883.	
	Admitted.	Died.	Admitted.	Died.
Enteric fever	129	18	367	145
Simple continued fever ...	284	1	6,996	30
Febricula	626	...	4,607	...
Remittent fever	104	...	907	28
Ague	762	...	14,594	1
Total ...	1,905	19	27,471	204

The average admission rate from all fevers was for the ten years 253·33, and for 1884 it was 176·39 per 1,000. The corresponding death-rates were for ten years 1·88, and for 1884 1·76 per 1,000.

9. Of late years the nomenclature of this fever has been unsettled, on account of discussions on the subject of diagnosis of fever cases. This is well shown in the preceding table and in the following abstract prepared by the Surgeon-General :—

Years.	Ratios per 1,000.		
	Admissions.	Deaths.	Deaths to treated.
1880	2·43	1·07	440.
1881	·86	·48	416·66
1882	4·34	2·12	479·17
1883	8·86	2·73	298·97
1884	11·94	1·67	134·33

This table shows that the diagnosis was unsettled, and it seems doubtful if all the cases entered under the head in 1884 were due to developed enteric fever. But it is also known that the mortality due to this fever does vary in particular years, and the Surgeon-General accepts the diagnosis. Hence, if we agree with his view on this point, we must adopt the consequence which follows from it, that of late years enteric fever has become a more prevalent disease in the Madras European Army.

10. We shall next show where the disease occurred, and we shall place together in the same table the admissions and deaths from cholera :—

Stations.	Enteric Fever.		Cholera.	
	Admissions.	Deaths.	Admissions.	Deaths.
St. Thomas' Mount ...	1	1	1	1
Cannanore	4	1	...	...
Malapuram	1	1	...	...
Bangalore	60	1	4	3
Bellary	3	1	...	...
Wellington	1	...	...	...
Secunderabad	39	10	2	1
Kamptee	15	3	1	1
Thayetmyo	1	...	...	...
Port Blair	3	...	...	...
Madras	...	...	3	3
Poonamallee	...	...	1	1

There was a case of enteric fever among troops on march, which recovered. On looking at the data in this table, it seems very doubtful if the sixty enteric fever cases at Bangalore, of

which fifty-nine recovered, were really due to this fever. One thing, however, must be admitted and this is that there were sixty fever cases of so severe a character as to take rank with the most fatal of Indian fevers in the estimation of medical officers who treated them. But as the question is a very grave one, it may be suggested whether medical officers in their reports might not, with advantage, define what they mean by enteric fever, so as to avoid the confusion so far as it may be possible to do so. If we accept the data thus far as they stand, we shall have the conclusion forced upon us that, out of 168 station fever cases, of which eighteen died, 114 cases and fourteen deaths took place at three stations, Bangalore, Secunderabad, and Kamptee, while at the same three stations there occurred seven cases and five deaths from cholera out of a total of twelve cases and ten deaths in the Madras Army.

11. It is hence clear that in the present much improved sanitary state of the Madras Army there are nevertheless certain stations where there is preventable disease, and these are the stations where, in conformity with the sanitary economics, a further reduction in the sick and death-rates ought first to be sought.

12. The chief sanitary defects at these stations have been so long known that it seems almost unnecessary repetition to refer to them, but as they form part of the Surgeon-General's Report we may restate them. He says, "Enteric fever has increased steadily during the last four years, the increase being most marked in Bangalore, where the water-supply is always bad, and where it was scanty as well as bad in 1884. It seems probable, therefore, that the quality of the water has something to do with the spread of this disease. At Bangalore the barracks are all in good sanitary condition, but some of them are, as stated in last year's report, too close to densely-populated quarters which are under municipal authorities, and about the sanitation of which frequent complaints are made."

The remark made by the Adjutant-General on the water question is very much the same as has presented itself year after year, viz., that "the question of improving the water-supply for the troops at Bangalore, by abandoning the Ulsoor tank as a source of supply, is under consideration of Government."

This tank was condemned a quarter of a century ago, and even then it had been shown for years to have been a probable disease cause.

13. In last year's Report on the Madras Army one Medical Officer referred to the probable influence of malaria proceeding from the drying up of the edges of the tank in summer on the amount of fever among the troops, and in the present report the Surgeon-General tells us that the water-supply was "scanty as well as bad," and this fact implies concentration of all the water impurities under evaporation and absence of rain. We have thus to deal with a quite unsafe water-source which, as has been long known, receives its supply from a foul gathering surface, is liable to pollution from influx of foul drainage at Bangalore, its soluble impurities being liable to concentration by drying up, and the margins in all probability yielding unwholesome emanations at the same time. But, besides the dangers resulting from drying up of the tank, a fall of rain may increase the amount of filth in the water, for Surgeon-General Madden states that twenty-two cases of enteric fever, out of thirty, admitted to the north station hospital occurred in July and August, when much impurity was washed by the monsoon rains into the Ulsoor tank, while organic decomposition was rapid and offensive in all low-lying localities.

14. We are glad to learn that the whole subject of the water-supply of troops has been under consideration, and that several projects have been brought forward, but we should be glad to learn within what time the Ulsoor tank and its surroundings are to be finally abolished.

15. But the Surgeon-General's brief remarks raise other very important questions. The civil population of Bangalore is that of a large city, and we are told in the present year's report that "frequent complaints" have been made about the manner in which the municipal authorities perform their sanitary duties in parts near the barracks.

16. In the present report it is also remarked that "the discharge of the filth from the main drain of Richmond Town and Shoolay, within 200 yards of the old Lancers' Riding School, had probably something to do with the prevalence of the disease amongst the men of the "12th Lancers." As there are executive authorities on the spot, it would, of course, be advisable that they should do their work. But what if they neglect to do it? Are the troops to suffer on this account? And would it not be better to make such changes in the law or practice as would ensure that the part of this town near the barracks should be kept clean and otherwise in good sanitary condition?

17. The following statement by the Surgeon-General regarding Secunderabad throws some light at least on febrile disease causes there. He says, "The main defects at Secunderabad are the want of trees to check the force of the monsoon winds, and of surface drains to carry off the rain-water. At present this water percolates into the soil and foundation of the buildings."

Where foundations are raised above the ground level with free perflation of air between the ground surface and the barrack floor, this defect of the subsoil is of less importance, but where the floors are laid without air spaces in malarial climates fever is a necessary result.

But wet cultivation, with night-soil as a manure, is still carried on at no great distance from the barracks. As regards surface drainage, the Adjutant-General states that the cost of a complete system is prohibitive. But, in the meantime, it may be suggested whether raising the floors of the barracks in the way suggested would not remove much of the evil.

18. We are glad to learn from the Adjutant-General's letter that a scheme for the drainage of Secunderabad town is now under consideration. No complaint appears to have been made about the water-supply of troops at this station, so that 'the local causes of fever appear to be those connected with damp malaria producing subsoil under and around barracks, and probably emanations from wet sewage culture.

19. In this and indeed in all cases probably the effect of foul unhealthy bazaars and houses visited by the troops must not be overlooked. The subject is dwelt on by Medical Officers at stations, and the remedy is a long known one, viz., keeping the outskirts of stations free from disease causes.

20. The fifteen cases and three deaths from enteric fever at Kamptee have led to the following expression of opinion as to the cause by the Surgeon-Major:—"In my opinion the *probable* cause of the disease is the *latrines*. The men will not carry out the dry-earth system properly. I have constantly noticed a fæcal smell in the neighbourhood of these buildings. All the cases of enteric fever were admitted to hospital during the rainy season, when there is a very damp and close condition of the atmosphere which produces rapid putrefaction and fermentation. The latrines are cleared out morning and evening, and I think it very probable that a man visiting the latrines early in the morning before the pans are cleared out would run the risk of contracting enteric fever." The large amount of enteric fever at Lucknow had previously been attributed to this state of the latrines as a probable cause by the Deputy Surgeon-General.

21. It is an old sanitary proverb that "all smell indicates disease and loss of money." Where badly managed latrines and filth are the causes of smell, the first part of the proverb will always hold good, and the second also if the profitable application of manure be neglected. We have here instances of two stations having latrines on what is called the dry-earth system, while it is not so. Sewage emanations are the result, and we may rest assured that these are active as disease causes beyond the limits of perceptible odour, and then we have enteric fever among the troops; and as to the remedy, the Adjutant-General states that additional sweepers are required to go round and put dry earth in the pans after use by the men. We have had the subject so often before us that it seems scarcely necessary to restate the principles involved in the dry-earth system, but the practical remedy suggested by the Adjutant-General is the only one unless a suitable mechanism be provided in each seat. We may, however, report what has been said year after year since the report of the Royal Commission, that in such climates as exist in India there is no safety where there is sewage odour. This, and not the occurrence of enteric fever cases, is the real mark of danger, and whoever is charged with sanitary inspecting work should report on it again and again until the evil is dealt with.

22. The only other disease requiring notice is hepatitis, the mortality from which is differently stated in the reports and in Dr. Stephen's statistics. We have adopted the number of twenty-two deaths given in the statistics as the finally corrected one. Of these twenty-two deaths it is important to remark that nine took place at Secunderabad; but we have no recent account of the causes.

23. The account given of the general sanitary condition of stations does not call for remark, as there seems every disposition to render the barracks and stations healthy, and indeed the low death and in efficiency rates of 1884 show how much good work has been done. There are, nevertheless, exceptional cases where sanitary improvement is needed, and we shall confine our recommendations to these.

1*st*. The proposed new water-supply for Bangalore should be pressed forwards as quickly as possible, and authority should be brought to bear on the municipality to make them keep all that part of the town nearest the barracks in the best practicable sanitary condition.

2*nd*. It cannot be said that Secunderabad is as healthy as it ought to be. What appears to be required is the town drainage, regulation of wet culture, and in some way protecting ground floors from subsoil damp. Probably partial subsoil drainage around the barracks would be of use, or raising the floors. We would further suggest that some account of the reasons why so many men die there of liver disease should be forthcoming. Tree planting, if carried out so as not to interfere with ventilation, would, no doubt, be an advantage.

3*rd*. As regards the latrine details at Kamptee, the remedy is obvious, but we must state that neither at Kamptee nor anywhere else ought such a state of latrine accommodation to be permitted.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From M. R. WELD, Esq., President, District Board, Kistna, to the Chief Secretary to Government, dated Masulipatam, 6th February 1886, No. 1568.

I have the honor to submit the consolidated budget of the Kistna district for the official year 1886-87, together with the statements prescribed under G.O., No. 728 L.F., dated the 14th September 1885.

2. The district board's resolution passing the budget is herein enclosed.

REVISED ESTIMATE FOR 1885-86.

3. *Receipts.*—The opening balances, as advised by the Accountant-General, Madras, in his result statement on the supplemental treasury account for March 1885, amount to Rs. 1,73,880 under the three funds as shown below:—

	Rs.
Road fund	1,10,500
General fund	60,410
Endowment fund	2,970
Total ..	1,73,880

4. The receipts, as budgeted under the several heads, are expected to be fully realized. An increase appears under (1) Land-cess, (2) Tolls, and (3) Miscellaneous receipts.

(1) *Land-cess.*—The increase under this head is very slight.

(2) *Tolls.*—The great increase over the budget estimate is chiefly owing to the sale of the Local Fund toll-gates on the Hyderabad road at Bezváda, Munneir (transferred from Nabobpett), Paleru, and Munagala for Rs. 28,125 against the budget estimate of Rs. 15,000; and also to the contribution from the Masulipatam Municipality for the last year being credited in the current year.

(3) *Miscellaneous Receipts.*—The increase being very small, does not require explanation.

The receipts of the year are taken to be Rs. 4,44,110, which together with the opening balances come up to Rs. 6,17,990.

5. *Expenditure.*—Grant I exhibits a saving of Rs. 35,370 owing to the stoppage of certain works not of an emergent nature, in obedience to G.O., No. 213 L.F., dated 26th May 1885, and also to the salary of the Local Fund Engineer, Masulipatam range, being less than that of his predecessor.

6. The variations under Grants II, III, and IV which are slight are explained in the revised estimate where necessary.

The total expenditure, as per revised estimate, is as follows :—

		RS.
Grant	I	2,74,390
Do.	II	58,450
Do.	III	79,900
Do.	IV	14,500
	Total	4,27,240

The opening balances for the year 1886-87 aggregate Rs. 1,90,750, including an endowment fund of Rs. 3,480.

BUDGET FOR 1886-87.

	RS.
Masulipatam taluk board	6,010
Guntúr taluk board	12,800
Répalle do.	10,330
Vinukonda do.	4,020
Total	33,160

7. A moiety of the opening balance is set apart for the district board, and the other moiety distributed over the five taluk boards in proportion to the land-cess collected in each Local Fund taluk. The distribution made to the taluk boards being found insufficient, contribution is made from the district fund, as per margin.

8. *Statement I-A, Revenue and Receipts*—(1) *Rates and Taxes*—(*a*) *Cess on Land.*—The settled demand of Rs. 3,70,000 for fasli 1294 is entered. The tabular statement given at the foot of statement I-A explains this figure.

(*b*) *Tolls.*—The Local Fund tolls, as per margin, have been jointly sold this year for Rs. 28,125. Rs. 25,000 is therefore estimated for 1886-87. The contributions from the municipalities will be Rs. 5,333 for Masulipatam and Rs. 6,333 for Guntúr respectively, being one-third of Rs. 16,000 and Rs. 19,000, the respective actual bids for the current year. But in the estimate round numbers, Rs. 5,000 and Rs. 6,000, are taken. The total estimate thus calculated under Tolls comes to Rs. 36,000.

Bezváda, Munneir (Nabobpett), Paleru, and Munagala.

(*c*) *House Tax.*—Rs. 3,500 is estimated in the three unions of Bezváda, Jaggayapet, and the Chirala-Perala in which house-tax is proposed to be levied. Until sufficient experience is gained of the working of the system, its extension to other unions is undesirable—*vide* this office No. 1479, dated 21st January 1886.

9. (2) *Education*—(*a*) *School Fees.*—The receipts under School-fees are estimated at Rs. 7,300 against Rs. 6,000 in the current year, the increase being due to the expected increase in the strength of existing schools, and also to the establishment of 16 new elementary schools.

(*b*) *Contributions*—(1) *From Municipalities.*—The Guntúr Municipality promises to contribute for six stipendiary students against four in the current year; and the Masulipatam Municipality, which have not hitherto contributed, promise to contribute for five students; Rs. 100 is also expected as results grant for the practising school attached to the Masulipatam normal school. The total amount under this head is Rs. 760 against Rs. 390 this year.

10. (3) *Medical*—(*a*) *Hospital Receipts.*—A sum of Rs. 500 is entered under this head on account of the contribution expected from the Department of Public Works for treating their coolies in the Local Fund hospital at Bezváda.

(*c*) *Contributions*—(3) *From Private Individuals.*—The contribution from the zemindar of Tsallapalli is raised from Rs. 820 to Rs. 870 owing to the employment of a midwife.

11. (4) *Interest*—(*a*) *On Government Securities.*—As usual Rs. 250 is put down being the interest accruing on a promissory note of Rs. 1,000, and the money endowment of Rs. 3,600 belonging to the Peddapatnam choultry.

(*b*) *On Arrears of Revenue.*—A sum of Rs. 500 is expected with reference to the actuals of the last year.

12. (5) *Miscellaneous*—(*d*) *Bungalow Fees.*—Under this head an amount of Rs. 1,000 is estimated with reference to the actuals of the previous year.

(*e*) *Fishery Rents.*—The current year's figures are repeated.

(*i*) *Rents and Produce of Land.*—The endowed tanks at Mandadam, Guntúr taluk, and Dintenapad, Narasaraopet taluk, were transferred to the Local Fund board under G.Os., Nos. 589 and 948, dated 19th May 1885 and 6th August 1883, respectively. An income of Rs. 30 and Rs. 10 is respectively put down for them.

13. (7) *Contributions from Provincial Funds*—(*a*) *Education.*—A contribution of Rs. 7,140 is expected for the training schools at Masulipatam and Guntúr and for the secondary schools at Avinigadda, Répalle, Tenali, Gudiváda, Tiruvur, Nandigáma, Vinukonda, Bápatla, Dáchepalle, Krosur, and Narasaraopet, and for the elementary school at Jaggayapet.

14. (8) *Contributions from Special Funds*—(*a*) *Pound Fund*, (*b*) *Canal and Ferry fund.*—The current year's figures are repeated.

15. The other items do not call for remarks.

The total receipts expected under the different items together with balances are :—

	RS.
General fund	6,29,310
Endowment fund	4,560
Total	6,33,870

16. *B. Expenditure—Grant I, Public Works.*—In next year's statement of public works, particularly roads, the serial order of the current year's budget cannot be adhered to as the works have been divided between the district board and five taluk boards. The works have therefore been arranged with reference to the taluks to which they belong. The district board resolved that six of the main roads in the district being "principal lines of communication" will be retained under their charge, and they will therefore bear the cost of constructing and repairing them. Some of these roads have, in former budgets, been known by the names of their several portions which have been now put together, while, on the other hand, certain roads which are not important enough to be classed as district roads but which traverse the limits of two taluks, have been split up and the portions have been made over to the boards of the taluks in which they lie. Hence most of the roads in the current year's budget appear in the next year's budget with altered names, but references are given in the last column of statement No. III which enables them to be identified with the roads of former budgets.

17. (*a*) *New Works*—(1) *Communications.*—Allotments for the following new works have been made with reference to the expected assets.

The number prefixed refers to that borne by the road in statement No. III-A—New Works :—

	RS.
(1) For metalling the unmetalled portion of the Hyderabad road between Pamarru and Poranki, miles $20\frac{1}{4}$	38,750
(2) Forming a metalled road from Nidamole at the 9th mile of the Hyderabad road to Iyalur on the Kistna to meet the road from Guntúr to the Kistna	17,000
(3) Metalling unmetalled portion of great northern road	30,000
(4) Metalling portion of road from Guntúr to Bápatla between Chebrole and Bápatla	23,250
(5) Metalling portion of road from Guntúr to Nellore frontier between Narasaraopet and Vinukonda	10,000
(6) Metalling portion of trunk road No. 7 between Brahmanapally and Pondugal	8,500

These six are under the district board, the remainder are under taluk boards.

18. *Item No.* 1.—An estimate * for Rs. 81,300 for this work was sent to the Superintending Engineer, II Circle, and he transmitted it to Government on the 19th November 1885. In the letter which accompanied the estimate, the cancellation of the sanction notified in G.O., No. 2248 W., dated the 20th September 1885, for metalling the part of the road between Pamarru and Wuyyur was requested. Instructions have already been issued to the Local Fund Engineer to push on the work in anticipation of sanction and to spend the current year's allotment, and Rs. 25,000, the transfer † of which is requested in this office No. 1190, dated 24th December 1885, from the Gudiváda-Perikeed road. This has been done in order to have a complete metalled road from Masulipatam through Bezváda to the Hyderabad frontier as soon as possible; the residue of the estimated amount, Rs. 38,750, is now put down for this work, and sanction is solicited for the steps I have taken with regard to this road.

* Since sanction received—*vide* G.O., No. 2994 W., dated 14th December 1885.

† Sanction since received—*vide* G.O., Mis. No. 64 L.F., dated 14th January 1886.

Items Nos. 2, 4, 7, 9, 11, 12, 16 *and* 17.—The board consider that these works are very important, and provision has therefore been made for them. The engineers are directed to send in estimates, and they will be submitted as soon as received.

Items Nos. 3, 5, 6, *and* 10 appear in the current year's budget and are repeated for the next year.

Item No. 8.—This is a portion of the Gudiváda-Perikeed road—item No. 2 of the current year's budget. The first 4 miles of the road from Perikeed have been completed, and the metal has been spread for the rest of the distance as far as Puttagunta. The sanctioned estimate provides for first, second and third coats metal, the first of which has now been pronounced unnecessary even on the important Bandár-Bezváda road, and is doubly unnecessary on this road considering the small amount of traffic that passes along it. I have therefore directed the Engineer to finish off the partially-made portion of the road as far as Puttagunta before the end of this official year and to send in a fresh estimate for the remaining portion providing for 6 inches of broken stone only. Hence this work appears as a new work, whereas, in fact, it is a part of the work which has been in progress for the last two years.

Items Nos. 15 *and* 18.—Here the classification of roads into taluk and district roads has necessitated the division of an existing road between two taluks. The two items together constitute item No. 9 in the current year's budget, *plus* the portion between Chilakalurpett and Nakarikal. This road is not important enough to be classed under district roads, but it traverses the limits of two Local Fund taluks; hence arose the necessity of breaking it up at Jangampad, a village on the frontier. The amount of sanctioned estimate is also split up in proportion to the miles in each portion.

19. With reference to item No. 1 in the current year's budget—the road from Jaggayapet to Muktiala—this road was principally intended to facilitate traffic from Jaggayapet to the Kistna river by which produce is conveyed to Bezváda and the canals by boat. The zemindar of Muktiala has been levying unauthorized tolls on this traffic for some years back, and the Kontavari agraharamdars have been following suit. To stop this I suggested to the merchants to send their goods to Ravirala, a Government village on the Kistna. The road to this is 1 mile shorter than that to Muktiala and passes over harder ground, so it will cost less to construct. Unfortunately the zemindar has a village (Jayentipuram) which crosses the path and he has trenches dug across it and otherwise obstructs the bandies conveying produce, being loath to lose the fine income he derived from his illegal taxes and tolls. I am getting the road opened 16 feet wide through his village, scraps of land taken up where necessary and the track metalled, so that bandies may not be tempted to stray into the fields at the side to avoid ruts, and I propose to wait till next year to see if Ravirala suits as a port in the dry season, where the Kistna is low as well as Muktiala. If it does, I propose making the road to Ravirala; if it does not, land for a landing place must be taken up in Muktiala to prevent the zemindar imposing illegal landing charges.

20. (2) *Civil Buildings.*—A sum of Rs. 23,170 is provided for the construction of the following buildings:—

		RS.
1.	Building wards at Gudiváda dispensary	1,010
2.	School-house at Gudiváda	2,000
3.	Apothecary's quarters at Gudiváda	800
4.	Improving Bezváda dispensary	2,000
5.	Do. Jaggayapet do.	2,970
6.	Constructing school-house at Nandigáma	2,010
7.	Do. choultry at do.	2,010
8.	Rest-house at Gowravaram	500
9.	Choultry near Perikeed bridge	1,000

11.	Do. at Tiruvur	800
12.	Do. at Sattenapalle	800
13.	Constructing school-house at Tenali	1,500
14.	Improving school-house at Répalle	1,400
15.	Constructing a choultry at Chebrole on Commamur canal ..	2,000
16.	Do. do. at Tumuluru	1,000
17.	Do. apothecary's quarters at Dáchepalle	800
18.	Petty new works	780
	Total ..	23,170

21. *Items Nos.* 1, 4, 5, 6, 14, 15 *and* 16 are necessary, and provision has therefore been made for them.

Items Nos. 2 *and* 13.—These works have again been put down as estimates have not yet been received according to the standard design, according to which they must be constructed to fetch a grant from Provincial funds.

Items Nos. 3, 10, 11, 12 *and* 17.—The board consider it expedient to construct apothecaries' quarters at Tiruvur, Núzvíd, Sattenapalle, Dáchepalle and Gudiváda and to charge a rent of 6 per cent. on the outlay, and that it should be part of the conditions of an apothecary's appointment to pay the rent of the quarters provided. Quarters

have already been provided at Répalle. A sum of Rs. 4,000 is therefore provided for the execution of these works.

Items Nos. 7 *and* 8.—The district board have cancelled their resolution to construct a choultry at Gowravaram, and resolved that the chattram be built at Nandigáma and that a native rest-house be constructed at Gowravaram. Provision has been made accordingly.

Item No. 9.—One of the zemindars of Núzvíd having kindly offered a site on the bank of the Ellore canal for a chattram, the board resolved to accept the offer and have made provision to construct a chattram accordingly.

Item No. 18.—Under Petty New Works provision is made for store and tool sheds at Kaikalur, Pamarru, and Mudinepalli.

22. (*b*) *Repairs*—(1) *Communications.*—Increased maintenance grants are provided for the following roads:—

(1) Great Northern road.
(2) Guntúr-Amaravathy road.
(3) Guntúr-Hanumanulapalem road.
(4) Karempudi-Vinukonda road.
(5) Narasaraopet-Vinukonda road, and certain other minor roads.

Hence there is an increase of Rs. 5,380 notwithstanding that the maintenance grants of certain other roads are reduced and certain out-of-the-way donkas are omitted. In making these alterations I have availed myself of the help of the two Engineers and tried to remove the confusion of previous statements. The usual provision of Rs. 1,000 and Rs. 40 for the maintenance of the two marginally-noted works under the supervision of the Public Works Department is repeated. Petty works, costing Rs. 300 and less, are entered in a lump as petty repairs.

24. (3) *Miscellaneous Public Improvements.*—As usual Rs. 8,000 is entered for the maintenance of avenues.

25. (*c*) *Establishment*—(1) *Public Works Department Supervision.*—A provision of Rs. 110 is made with reference to the actuals of the last year.

26. (2) *Local Fund Engineering Establishment.*—The district board have resolved that the cost of the two Engineers' office establishments should be borne by the district board, and that the cost of the executive branch, *i.e.*, the overseers and their establishment, should be borne by the boards of the taluks in which they work. The former amounts to Rs. 13,570 and the latter to Rs. 11,364 as shown below:—

22 Peons on Rs. 6 each	132

27. Probably it would be best to have one Engineer for the whole district with two Assistant Engineers—one at Guntúr and the other at Vinukonda; but the Board think that it would be difficult for one Engineer to manage such a large area as this district and so do not wish to amalgamate the Engineering establishments of the two ranges, but would leave them for the present as they are.

Provision has been made for one more taluk overseer for the Núzvíd and the Tiruvúr divisions of the Masulipatam range, as the Board think that these divisions require a separate overseer as more roads are about to be made on them.

The Board have dispensed with the services of the sub-overseers and hence no provision has been made for them. A statement of propositions for revision of establishment will be submitted.

(3) *Tolls and Ferries.*—Rs. 500 is entered under this head for making and repairing sangadies, ballacuts, &c., for which applications will be received from time to time.

28. (*d*) *Tools and Plant.*—The provision of Rs. 3,660 is estimated at 1 per cent. of the expenditure on works.

29. (*e*) *Contingencies.*—Under this head provision is made for the following charges for the Engineering establishment:—

A sum of Rs. 33, unnecessarily charged in the current year's budget under "Batta," is now struck off and Rs. 60 added to the contingencies.

32. (*b*) *Normal Schools.*—On the demise of the head master of the Masulipatam Training school, the increment of Rs. 2 granted to him has been transferred to the head master of the Guntúr Normal school. The pay of the second master of this school has been raised by one rupee.

As certificated gymnastic teachers are not procurable for anything less than Rs. 20, provision is accordingly made for both the schools. Of this, one-third salary grant will be claimed from Provincial funds. The provision of Rs. 60 under Miscellaneous is reduced to Rs. 48 and a sweeper on Re. 1 provided for each school. The house-rent at Guntúr is raised from Rs. 15 to 16 to secure accommodation for gymnastic purposes.

33. (*c*) *Secondary Schools, Salary System.*—The number of schools is the same as in the current year, but there is some increase in the salaries and the number of masters as below :—

	RS.
As per the current year's budget	9,936
Add the salary of the Head Master, Avinigadda school, at Rs. 30 per mensem, and that of the teachers on Rs. 10 for the Tenali and Tiruvúr Middle schools (*vide* G.Os., Mis. Nos. 587, 253 and 1145 L.F., dated 10th August, 3rd June and 2nd December 1885, respectively)	600

A gymnastic teacher on Rs. 10 per mensem for the Krósúr school ..	120
	10,776
	or 10,770

Sanction is now solicited for the last two items.

Under Servants, a provision of Rs. 636, against 612 in the current year's budget, is made, the increase being due to the entertainment of a sweeper for each of the Bápatla and Krósúr Local Fund schools. The decrease under Miscellaneous is due to less provision being made for furniture and to the location of Bápatla and Répalle schools in the Board's instead of in rented buildings.

34. (*d*) *Elementary Schools.*—The following transfers have been made of the elementary schools :—

From	To
1. Kuchipudi (Répalle taluk)	Duggirala (Répalle taluk).
1. Yazali do.	Nidumole (Bandar taluk).
1. Krósúr (Bandar taluk)	Pedapulivaru (Répalle taluk).
1. Kavulur (Bezváda taluk)	Sripuram (Nandigáma taluk).

On the recommendation of the Deputy Inspector of Schools the following provisions have been made :—

The increase in the attendance of pupils and the establishment of 15 new schools render necessary an allotment of Rs. 6,110 for results grant against Rs. 4,740 in the current year.

Under Servants Rs. 60 is provided for a peon to be engaged in the Jaggayapet school.

A sum of Rs. 2,820 is provided under "Miscellaneous," the increase being due to the establishment of 16 new schools.

35. (*e*) *Grants-in-aid*—(2) *Results Grants.*—The current year's figure, Rs. 20,000, is repeated.

36. (*g*) *Miscellaneous*—(1) *Purchase of books*, (2) *Commission on sale of books.*—The current year's figures are repeated.

38. *Grant III*—(*a*) *Hospitals and Dispensaries.*—Provision is made for a minor dispensary at Nandigáma on a scale similar to that of Karempudi or Tumercode at an annual cost of Rs. 940, as it has been strongly recommended by the District Surgeon and the Head Assistant Collector. This raises the number of dispensaries from 14 to 15.

(2) *Medical Subordinates.*—A sum of Rs. 9,780 provided under this head is calculated on the salaries of the medical staff at present employed by the Board and three-fourths pay of the hospital assistant to be employed in the dispensary at Nandigáma.

(3) *Clerks and Servants.*—An allowance of Rs. 2 to the compounder in the Bezváda dispensary as house-rent is provided. The compounder at Chirala has been transferred to Bezváda. In the current year's budget provision was made for his pay at Rs. 15 per mensem on account of his long service. But he was allowed only Rs. 7 on the ground of his ignorance of English. Now provision is made at the reduced rate.

(4) *Diet of Patients*—(6) *Supplies.*—The increased provision under these heads is due to the Nandigáma dispensary proposed to be opened.

(7) *Midwives and Midwifery Pupils.*—Under G.O., Mis. No. 1170 L.F., dated the 4th December 1885, a sum of Rs. 600 is allotted for the local midwifery class opened under the superintendence of the District Surgeon, Masulipatam. The usual provision for the midwives in general, including one for the proposed dispensary at Nandigáma, is also made. Hence increase.

(9) *Medical Practitioners.*—A provision of Rs. 1,200 is made against Rs. 800 under the head (*c*) "Distribution of Medicines" in the current year's budget. This is required for the services of temporary medicine distributors on the occurrence of fever, cholera and other epidemics.

(10) *Zillah Surgeon's Establishment including Travelling Allowance, &c.*—

Total	700

The District Surgeon having strongly recommended an increase of Re. 1 to the pay (Rs. 7) of his second peon, provision has accordingly been made.

(11) *Cholera Charges.*—Increased provision of Rs. 750 is made with reference to the actuals of the current year up to date.

39. (*b*) *Vaccination.*—The staff consists of—

(3) Batta to mothers for supplying lymph	450
(4) Rewards to vaccinators, &c.	200
(5) Contingencies	450
Total	10,270

The increase of Rs. 470 over the current year's grant is due to the entertainment of two 2nd-class additional vaccinators on Rs. 10 each for the Bandar taluk and Núzvíd division and to the increased provision for rewards to vaccinators, &c., with reference to the actuals of the current year.

40. (*c*) *Sanitation*—(1) *Improvement of Water-supply.*—Current year's figure is repeated.

(2) *Improvement of Village-site.*—A sum of Rs. 6,350 is provided against Rs. 7,000 in the current year's budget, the difference, *i.e.*, Rs. 650, being placed under "5, Other Sanitary Outlay," to meet unforeseen charges.

(3) *Scavengering Establishment.*—One scavenger at Gunnavaram and one cart and two scavengers at Núzvíd have been dispensed with, whilst two more carts at Rs. 10 each and eight more toties on Rs. 5 each per mensem are provided for Bezváda and one cart at Rs. 10 and two scavengers at Rs. 5 each with contingent charges of Rs. 10 each for each of the villages of Agiripalle and Wuyyur. Hence the increase of Rs. 1,010 over the current year's figure Rs. 15,940.

(*d*) *Markets.*—Nil.

41. *Choultries.*—Increased provision is necessary as Rajah Simhadri Apparow's choultry at Kankipad has been taken over by the board under G.O., Mis. No. 768 L.F., dated 21st September 1885.

Usual provision is made for the choultry servants at Pondugal, Seetanagaram and Vellutore who have been in the enjoyment of the endowments.

42. (*f*) *Public Bungalows.*—The decrease is due to the reduction effected in the number and salaries of the servants attached to the bungalows and contingencies, except at Guntúr and Bezváda.

43. (*g*) *Contributions to* (1) *Provincial Services.*—The provision for contribution to Medical College and Sanitary Inspection is calculated at ½ per cent. on the receipts (as per revised estimate), excluding the certified balance.

As per G.O., No. 1208 L.F., dated 12th December 1885, the provision of Rs. 4,900 for "Medicines and Surgical Instruments" has been put down under contribution to Provincial services.

(3) *Municipalities.*—The sum of Rs. 5,340 to be contributed to the municipalities of Masulipatam and Guntúr is put down with reference to the applications of the chairmen, the contribution to the Masulipatam Municipality being shown under the District Board and that to Guntúr under the Guntúr Taluk Board.

(4) *Private Individuals.*—With reference to G.O., No. 938 L.F., dated 24th October 1885, a sum of Rs. 300 has been provided as contribution to the hospital at Bápatla maintained by Rev. Bullard.

46. (*b*) *Establishment in the Collector's Office.*—The decreased provision of Rs. 1,720, inclusive of audit clerk's pay, is due to the reduction of the salaries of two accountants in the Collector's office under G.O., Mis. No. 1087 L.F., dated the 23rd November 1885.

ENCLOSURE.

PROCEEDINGS of the District Board, Kistna, passed at a special meeting held at Masulipatam on Saturday, the 19th December 1885.

* * * *

Read draft budget for 1886-87.—*Resolution.*—Passed as amended.

From Deputy Surgeon-General G. BIDIE, M.B., C.I.E., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Madras, 9th March 1886, No. 430.

I have the honor to report, for the information of Government, that the District Board of Kistna have set apart Rs. 33,140, or 26·8 per cent. of available income, for sanitation, exclusive of Rs. 2,490 for sanitary inspection and Rs. 10,270 for vaccination for the year 1886-87. Both allotments seem to be adequate; the former will be distributed as follows:—

	Rs.
Improvement of water-supply	8,000
Do. of village sites	6,350
Conservancy	16,950
Fairs and festivals	1,190
Other sanitary outlay	650
Total	33,140

The vaccination grant is in excess of that for the current year by Rs. 470. The Board propose to entertain two additional 2nd-class vaccinators, and provision has been made for rewards to vaccinators; hence the increase.

From M. C. FURNELL, Esq., M.D., F.R.C.S., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 12th March 1886, No. 116.

I have the honor to state that the provision made in Grant III of the budget estimate of the District Board of the Kistna district for the year 1886-87 for the maintenance of the fifteen dispensaries, including the institution proposed to be opened at Nandigáma, is adequate and calls for no remarks, save in the item of "Medical subordinates."

	Rs.	
Pay of 3rd-class Hospital Assistant	25	
Charge allowance	10	
Total	35 × 12 = 420	
	¾ of 420 = 315	

2. A sum of Rs. 315 (details as per margin) is provided for the three-fourths of the pay and charge allowance of the medical subordinate required for the new dispensary referred to. Sanction of Government is necessary for the other one-fourth, viz., Rs. 105 (one hundred and five.)

From D. DUNCAN, Esq., M.A., D.Sc., Acting Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 26th March 1886, No. 2018.

I have the honor to submit the following remarks on the educational portion of the budget estimate of the Kistna District Board for 1886-87.

2. *Receipts.*—The educational assets, including one-sixth land-cess, are estimated at Rs. 77,340:—

	Rs.
One-sixth land-cess	61,670
School-fees	7,300
Municipal contributions	760
Sale of books	400
Endowments	70
Provincial grant	7,140
Total	77,340

The contributions from municipal funds should be reduced by Rs. 100, as under the new Grant-in-aid Code, practising departments of training schools will receive aid from Provincial funds. I would also recommend that the estimate under "Grant from Provincial funds" be reduced to Rs. 6,840, owing to the Board having overestimated the amount of grant they will be entitled to on account of the normal schools. The other items of receipts call for no remark.

3. *Charges.*—The proposed outlay under Grant II aggregates Rs. 64,220, against Rs. 60,800 in the current year's budget:—

	1885-86. Rs.	1886-87. Rs.
Inspection	5,080	5,100
Training schools	6,110	6,320
Local Fund Schools {Secondary	12,200	12,630
Local Fund Schools {Primary	16,650	19,410
Results grants	20,000	20,000
Miscellaneous	760	760
Total	60,800	64,220

4. *Inspection.*—The slight increase has been explained by the President.

5. *Training Schools.*—Mr. Bickle recommends that provision be made for thirty stipendiaryships in the Guntúr Normal School in addition to the six municipal stipendiaryships. The allotment should be raised by Rs. 360.

6. *Local Fund Schools.*—The grant for secondary schools is adequate, but that for combined elementary schools is considered insufficient. The allotment for results grants in combined schools should be raised from Rs. 6,110 to Rs. 7,000, as recommended by the Deputy Inspector and supported by the Inspector.

7. *Results Grants.*—The current year's assignment is repeated, and will probably suffice.

8. *Miscellaneous.*—The item calls for no remark.

9. The total expenditure, if my proposal be approved, will be Rs. 65,470, against receipts amounting to Rs. 76,940, excluding opening balance.

ORDER—dated 17th July 1886, No. 821 L.F., Financial.

2. *Revised Estimate for* 1885-86.—The closing balance of 1884-85, as reported to Government by the Accountant-General, was Rs. 1,72,380. This figure, which will be adopted as the opening balance for 1885-86, in lieu of that given by the President, exceeds the budget estimate by Rs. 53,190, the increase being the result of the short expenditure incurred on public works in 1884-85. Current receipts were estimated at Rs. 4,44,110 as against Rs. 4,26,060 in the budget, the increase occurring chiefly under Tolls, and being due to unusual competition at the sale of the farms and to the payment in arrear of the contribution due from the Masulipatam municipality for 1884-85. The expenditure was estimated at Rs. 4,27,240, against budget allotments aggregating Rs. 5,07,920. The decrease occurs almost entirely under Grant I, where it is due to the postponement of works with reference to G.O., 26th May 1885, No. 213 L.F., and to a reduction in the pay of the Local Fund Engineer of the Masulipatam range. The receipts and charges of endowed institutions should have been shown by a footnote to the revised estimate, as required by No. 11 of the budget rules. The revised estimate closes with a balance of Rs. 1,89,250, which will be carried forward in the budget for 1886-87. Of this amount, Rs. 3,480 appertain to endowed institutions.

3. *Budget Estimate for* 1886-87.—In addition to the opening balance of Rs. 3,480 in favor of endowments, which is credited to taluk funds, the District Board propose to transfer to these funds a moiety of the remaining balance and to allot a further

sum to Taluk Boards of Rs. 33,160; but the proper course under section 54 (1) of the Act is to credit to the District fund the whole of the balance available for general purposes, and to show the whole amount required to meet the deficiency under Taluk funds as an allotment from the District fund. This will now be done. Excluding balances, the receipts are estimated at Rs. 4,43,120 against Rs. 4,26,060 in 1885-86. Under Land-cess, last year's budget estimate of Rs. 3,70,000 is repeated; but the estimate is only 75 per cent. of the demand, and a balance of Rs. 1,19,225 is expected to remain outstanding at the close of the year. This is very unsatisfactory, and the estimate will accordingly be raised to Rs. 3,92,000, which is still only 80 per cent. of the total demand. An income of Rs. 25,000 is expected from Local Fund toll-gates against Rs. 15,000 in last year's budget, the estimate having been fixed with reference to the amount for which the tolls were leased in 1885-86. The municipal contribution under this head will also be raised from Rs. 11,000 to Rs. 12,000, with reference to the provision made in the budgets of the Masulipatam and Guntúr municipalities. Credit is taken for a sum of Rs. 3,500 under House-tax, to be levied in the unions of Bezváda, Jaggayapet and Chirala. The increase of Rs. 1,300 in the estimate under School-fees is explained by the expected increase in the strength of existing schools and by the establishment of fifteen new elementary schools. On the recommendation of the Director of Public Instruction, the estimates under Municipal contributions and Provincial grants for education will be reduced to Rs. 660 and Rs. 6,840 respectively. The miscellaneous receipts noted in the margin should, in the absence of special reason to the contrary, be transferred to Taluk funds, and the whole of the interest on arrears of revenue credited to the District fund.

	RS.
Fishery rents	4,400
Avenues	100
Sundry items	250

4. The provision under Grant I for new communications is Rs. 2,11,330 against Rs. 1,38,010 last year. The works proposed are enumerated in paragraph 17 of the President's letter. No expenditure should be incurred on Nos. 2, 4, 7, 9, 11, 12, 16 and 17 until estimates have been duly sanctioned. For the construction and improvement of 3 dispensaries, 5 apothecary's quarters, 4 school-houses, 4 choultries, 1 rest-house and 3 store sheds, Rs. 23,170 are provided. The grant for road repairs is Rs. 1,15,890 against Rs. 1,10,510 last year. The whole of the provision of Rs. 8,000 for the maintenance of avenues will be debited to Taluk funds. For the Local Fund Engineering establishment, including contingencies, Rs. 34,680 are allotted against Rs. 40,380 in 1885-86. The decrease is due to the proposal of the District Board to employ two engineers on Rs. 400 and Rs. 250, in lieu of two on Rs. 500 and Rs. 400, respectively, and to dispense with the services of sub-overseers. The amount must now, however, be raised by Rs. 7,620 with reference to G.O., 17th May 1886, No. 526, and G.O., 10th June 1886, No. 645 L.F., sanctioning the appointment of an Engineer on Rs. 600 for the whole district, and two Assistant Engineers on Rs. 300 and Rs. 250, respectively. It is observed that the District Board propose to debit the cost of the supervising establishment to the District fund, and that of overseers and their establishments to Taluk funds. The provision made for an additional taluk overseer will be allowed to stand pending the submission of the proposition statement called for in official memorandum, dated 7th June 1886, No. 349.

5. The educational allotment is Rs. 64,220 against Rs. 60,800 in last year's budget, owing to the establishment of fifteen new elementary schools. As recommended by the Director of Public Instruction, the provision for normal schools will be raised from Rs. 6,320 to Rs. 6,680, and that for result grants to combined system schools from Rs. 6,110 to Rs. 7,000. The entertainment of the additional establishments and the increase of salaries proposed in paragraphs 32—34 of the President's letter are sanctioned.

6. Under Grant III, Rs. 23,520 are provided for "Hospitals and dispensaries" against Rs. 21,510 in last year's budget—an increase chiefly due to the proposal to establish a new dispensary at Nandigáma, sanctioned in G.O., dated 12th July 1886, Mis. No. 798 L.F., and to the opening of a midwifery class under G.O., dated 4th

December 1885, Mis. No. 1170 L.F. The contributions to Provincial funds for the Medical College and Sanitary Inspection should be Rs. 2,220 in each case. The provision of Rs. 300 as a contribution towards the maintenance of the Baptist Mission dispensary at Bápatla will be struck out, with reference to G.O., dated 28th April 1886, Mis. No. 463 L.F., and the President requested to submit an application for an allotment of the funds required for the Local Fund dispensary now to be opened at Bápatla.

7. Under Grant IV, the contribution for controlling establishments at the Presidency will be altered to Rs. 3,110—the amount paid in 1884-85. The entertainment of a clerk on Rs. 30 and a peon on Rs. 7 for each taluk board, two tax collectors on Rs. 8 each for the Bezváda and Jaggayapet unions, and one on Rs. 6 for the Chirala union, is sanctioned.

8. The reserve, calculated at 10 per cent. of the receipts, is Rs. 46,570. It is proposed to allot Rs. 1,26,800 from District to Taluk funds, so as to enable them to meet the expenditure devolving on them and to provide an adequate reserve and closing balance. The proposal is sanctioned, but the amount should be shown as a charge on the District fund instead of being deducted from its receipts. The budget, as revised by Government, closes with a balance of Rs. 15,720, or 6·4 per cent. of the receipts under the District fund, and a balance of Rs. 14,080, or 6·4 per cent. of the receipts under Taluk funds, besides Rs. 3,350 appertaining to endowed institutions.

Local Fund Budget.

Reviewing the — of the Kistna district for 1886-87.

With order

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From M. R. WELD, Esq., President, District Board, Kistna, to the Chief Secretary to Government, dated Masulipatam, 6th February 1886, No. 1568.

I have the honor to submit the consolidated budget of the Kistna district for the official year 1886-87, together with the statements prescribed under G.O., No. 728 L.F., dated the 14th September 1885.

2. The district board's resolution passing the budget is herein enclosed.

REVISED ESTIMATE FOR 1885-86.

3. *Receipts.*—The opening balances, as advised by the Accountant-General, Madras, in his result statement on the supplemental treasury account for March 1885, amount to Rs. 1,73,880 under the three funds as shown below:—

	Rs.
Road fund	1,10,500
General fund	60,410
Endowment fund	2,970
Total ..	1,73,880

4. The receipts, as budgeted under the several heads, are expected to be fully realized. An increase appears under (1) Land-cess, (2) Tolls, and (3) Miscellaneous receipts.

(1) *Land-cess.*—The increase under this head is very slight.

(2) *Tolls.*—The great increase over the budget estimate is chiefly owing to the sale of the Local Fund toll-gates on the Hyderabad road at Bezvada, Munneir (transferred from Nabobpett), Paleru, and Munagala for Rs. 28,125 against the budget estimate of Rs. 15,000; and also to the contribution from the Masulipatam Municipality for the last year being credited in the current year.

(3) *Miscellaneous Receipts.*—The increase being very small, does not require explanation.

The receipts of the year are taken to be Rs. 4,44,110, which together with the opening balances come up to Rs. 6,17,990.

5. *Expenditure.*—Grant I exhibits a saving of Rs. 35,370 owing to the stoppage of certain works not of an emergent nature, in obedience to G.O., No. 213 L.F., dated 26th May 1885, and also to the salary of the Local Fund Engineer, Masulipatam range, being less than that of his predecessor.

6. The variations under Grants II, III, and IV which are slight are explained in the revised estimate where necessary.

The total expenditure, as per revised estimate, is as follows:—

	RS.
Grant I	2,74,390
Do. II	58,450
Do. III	79,900
Do. IV	14,500
Total	4,27,240

The opening balances for the year 1886-87 aggregate Rs. 1,90,750, including an endowment fund of Rs. 3,480.

BUDGET FOR 1886-87.

	RS.
Masulipatam taluk board	6,010
Guntúr taluk board	12,800
Répalle do.	10,330
Vinukonda do.	4,020
Total	33,160

7. A moiety of the opening balance is set apart for the district board, and the other moiety distributed over the five taluk boards in proportion to the land-cess collected in each Local Fund taluk. The distribution made to the taluk boards being found insufficient, contribution is made from the district fund, as per margin.

8. *Statement I-A, Revenue and Receipts*—(1) *Rates and Taxes*—(*a*) *Cess on Land.*—The settled demand of Rs. 3,70,000 for fasli 1294 is entered. The tabular statement given at the foot of statement I-A explains this figure.

(*b*) *Tolls.*—The Local Fund tolls, as per margin, have been jointly sold this year for Rs. 28,125. Rs. 25,000 is therefore estimated for 1886-87. The contributions from the municipalities will be Rs. 5,333 for Masulipatam and Rs. 6,333 for Guntúr respectively, being one-third of Rs. 16,000 and Rs. 19,000, the respective actual bids for the current year. But in the estimate round numbers, Rs. 5,000 and Rs. 6,000, are taken. The total estimate thus calculated under Tolls comes to Rs. 36,000.

Bezváda, Munneir (Nabobpett), Paleru, and Munagala.

(*c*) *House Tax.*—Rs. 3,500 is estimated in the three unions of Bezváda, Jaggayapet, and the Chirala-Perala in which house-tax is proposed to be levied. Until sufficient experience is gained of the working of the system, its extension to other unions is undesirable—*vide* this office No. 1479, dated 21st January 1886.

9. (2) *Education*—(*a*) *School Fees.*—The receipts under School-fees are estimated at Rs. 7,300 against Rs. 6,000 in the current year, the increase being due to the expected increase in the strength of existing schools, and also to the establishment of 16 new elementary schools.

(*b*) *Contributions*—(1) *From Municipalities.*—The Guntúr Municipality promises to contribute for six stipendiary students against four in the current year; and the Masulipatam Municipality, which have not hitherto contributed, promise to contribute for five students; Rs. 100 is also expected as results grant for the practising school attached to the Masulipatam normal school. The total amount under this head is Rs. 760 against Rs. 390 this year.

10. (3) *Medical*—(*a*) *Hospital Receipts.*—A sum of Rs. 500 is entered under this head on account of the contribution expected from the Department of Public Works for treating their coolies in the Local Fund hospital at Bezváda.

(*c*) *Contributions*—(3) *From Private Individuals.*—The contribution from the zemindar of Tsallapalli is raised from Rs. 820 to Rs. 870 owing to the employment of a midwife.

11. (4) *Interest*—(*a*) *On Government Securities.*—As usual Rs. 250 is put down being the interest accruing on a promissory note of Rs. 1,000, and the money endowment of Rs. 3,600 belonging to the Peddapatnam choultry.

(*b*) *On Arrears of Revenue.*—A sum of Rs 500 is expected with reference to the actuals of the last year.

12. (5) *Miscellaneous*—(*d*) *Bungalow Fees.*—Under this head an amount of Rs. 1,000 is estimated with reference to the actuals of the previous year.

(*e*) *Fishery Rents.*—The current year's figures are repeated.

(*i*) *Rents and Produce of Land.*—The endowed tanks at Mandadam, Guntúr taluk, and Dintenapad, Narasaraopet taluk, were transferred to the Local Fund board under G.Os., Nos. 589 and 948, dated 19th May 1885 and 6th August 1883, respectively. An income of Rs. 30 and Rs. 10 is respectively put down for them.

13. (7) *Contributions from Provincial Funds*—(*a*) *Education.*—A contribution of Rs. 7,140 is expected for the training schools at Masulipatam and Guntúr and for the secondary schools at Avinigadda, Répalle, Tenali, Gudiváda, Tiruvur, Nandigáma, Vinukonda, Bápatla, Dáchepalle, Krosur, and Narasaraopet, and for the elementary school at Jaggayapet.

14. (8) *Contributions from Special Funds*—(*a*) *Pound Fund*, (*b*) *Canal and Ferry fund.*—The current year's figures are repeated.

15. The other items do not call for remarks.

The total receipts expected under the different items together with balances are:—

	RS.
General fund	6,29,310
Endowment fund	4,560
Total	6,33,870

16. *B. Expenditure—Grant I, Public Works.*—In next year's statement of public works, particularly roads, the serial order of the current year's budget cannot be adhered to as the works have been divided between the district board and five taluk boards. The works have therefore been arranged with reference to the taluks to which they belong. The district board resolved that six of the main roads in the district being "principal lines of communication" will be retained under their charge, and they will therefore bear the cost of constructing and repairing them. Some of these roads have, in former budgets, been known by the names of their several portions which have been now put together, while, on the other hand, certain roads which are not important enough to be classed as district roads but which traverse the limits of two taluks, have been split up and the portions have been made over to the boards of the taluks in which they lie. Hence most of the roads in the current year's budget appear in the next year's budget with altered names, but references are given in the last column of statement No. III which enables them to be identified with the roads of former budgets.

17. (*a*) *New Works*—(1) *Communications.*—Allotments for the following new works have been made with reference to the expected assets.

The number prefixed refers to that borne by the road in statement No. III-A—New Works:—

	RS.
(1) For metalling the unmetalled portion of the Hyderabad road between Pamarru and Poranki, miles 20¼	38,750
(2) Forming a metalled road from Nidamole at the 9th mile of the Hyderabad road to Iyalur on the Kistna to meet the road from Guntúr to the Kistna	17,000

These six are under the district board, the remainder are under taluk boards.

(17)	Forming a road from Gurazala to Tummarcode	5,000
(18)	Do. from Jangampad *viâ* Chilakalurpett to Nakarical	5,000
	Total ..	2,11,330

18. *Item No.* 1.—An estimate* for Rs. 81,300 for this work was sent to the Superintending Engineer, II Circle, and he transmitted it to Government on the 19th November 1885. In the letter which accompanied the estimate, the cancellation of the sanction notified in G.O., No. 2248 W., dated the 20th September 1885, for metalling the part of the road between Pamarru and Wuyyur was requested. Instructions have already been issued to the Local Fund Engineer to push on the work in anticipation of sanction and to spend the current year's allotment, and Rs. 25,000, the transfer† of which is requested in this office No. 1190, dated 24th December 1885, from the Gudiváda-Perikeed road. This has been done in order to have a complete metalled road from Masulipatam through Bezváda to the Hyderabad frontier as soon as possible; the residue of the estimated amount, Rs. 38,750, is now put down for this work, and sanction is solicited for the steps I have taken with regard to this road.

* Since sanction received—*vide* G.O., No. 2994 W., dated 14th December 1885.

† Sanction since received—*vide* G.O., Mis. No. 64 L.F., dated 14th January 1886.

Items Nos. 2, 4, 7, 9, 11, 12, 16 *and* 17.—The board consider that these works are very important, and provision has therefore been made for them. The engineers are directed to send in estimates, and they will be submitted as soon as received.

Items Nos. 3, 5, 6, *and* 10 appear in the current year's budget and are repeated for the next year.

Item No. 8.—This is a portion of the Gudiváda-Perikeed road—item No. 2 of the current year's budget. The first 4 miles of the road from Perikeed have been completed, and the metal has been spread for the rest of the distance as far as Puttagunta. The sanctioned estimate provides for first, second and third coats metal, the first of which has now been pronounced unnecessary even on the important Bandár-Bezváda road, and is doubly unnecessary on this road considering the small amount of traffic that passes along it. I have therefore directed the Engineer to finish off the partially-made portion of the road as far as Puttagunta before the end of this official year and to

send in a fresh estimate for the remaining portion providing for 6 inches of broken stone only. Hence this work appears as a new work, whereas, in fact, it is a part of the work which has been in progress for the last two years.

Items Nos. 15 *and* 18.—Here the classification of roads into taluk and district roads has necessitated the division of an existing road between two taluks. The two items together constitute item No. 9 in the current year's budget, *plus* the portion between Chilakalurpett and Nakarikal. This road is not important enough to be classed under district roads, but it traverses the limits of two Local Fund taluks; hence arose the necessity of breaking it up at Jangampad, a village on the frontier. The amount of sanctioned estimate is also split up in proportion to the miles in each portion.

19. With reference to item No. 1 in the current year's budget—the road from Jaggayapet to Muktiala—this road was principally intended to facilitate traffic from Jaggayapet to the Kistna river by which produce is conveyed to Bezváda and the canals by boat. The zemindar of Muktiala has been levying unauthorized tolls on this traffic for some years back, and the Kontavari agraharamdars have been following suit. To stop this I suggested to the merchants to send their goods to Ravirala, a Government village on the Kistna. The road to this is 1 mile shorter than that to Muktiala and passes over harder ground, so it will cost less to construct. Unfortunately the zemindar has a village (Jayentipuram) which crosses the path and he has trenches dug across it and otherwise obstructs the bandies conveying produce, being loath to lose the fine income he derived from his illegal taxes and tolls. I am getting the road opened 16 feet wide through his village, scraps of land taken up where necessary and the track metalled, so that bandies may not be tempted to stray into the fields at the side to avoid ruts, and I propose to wait till next year to see if Ravirala suits as a port in the dry season, where the Kistna is low as well as Muktiala. If it does, I propose making the road to Ravirala; if it does not, land for a landing place must be taken up in Muktiala to prevent the zemindar imposing illegal landing charges.

20. (2) *Civil Buildings.*—A sum of Rs. 23,170 is provided for the construction of the following buildings:—

		RS.
1.	Building wards at Gudiváda dispensary	1,010
2.	School-house at Gudiváda	2,000
3.	Apothecary's quarters at Gudiváda	800

16.	Do. do. at Tumuluru	1,000
17.	Do. apothecary's quarters at Dáchepalle	800
18.	Petty new works	780
	Total ..	23,170

21. *Items Nos.* 1, 4, 5, 6, 14, 15 *and* 16 are necessary, and provision has therefore been made for them.

Items Nos. 2 *and* 13.—These works have again been put down as estimates have not yet been received according to the standard design, according to which they must be constructed to fetch a grant from Provincial funds.

Items Nos. 3, 10, 11, 12 *and* 17.—The board consider it expedient to construct apothecaries' quarters at Tiruvur, Núzvíd, Sattenapalle, Dáchepalle and Gudiváda and to charge a rent of 6 per cent. on the outlay, and that it should be part of the conditions of an apothecary's appointment to pay the rent of the quarters provided. Quarters

have already been provided at Répalle. A sum of Rs. 4,000 is therefore provided for the execution of these works.

Items Nos. 7 and 8.—The district board have cancelled their resolution to construct a choultry at Gowravaram, and resolved that the chattram be built at Nandigáma and that a native rest-house be constructed at Gowravaram. Provision has been made accordingly.

Item No. 9.—One of the zemindars of Núzvíd having kindly offered a site on the bank of the Ellore canal for a chattram, the board resolved to accept the offer and have made provision to construct a chattram accordingly.

Item No. 18.—Under Petty New Works provision is made for store and tool sheds at Kaikalur, Pamarru, and Mudinepalli.

22. (*b*) *Repairs*—(1) *Communications.*—Increased maintenance grants are provided for the following roads:—

(1) Great Northern road.
(2) Guntúr-Amaravathy road.
(3) Guntúr-Hanumanulapalem road.
(4) Karempudi-Vinukonda road.
(5) Narasaraopet-Vinukonda road, and certain other minor roads.

Hence there is an increase of Rs. 5,380 notwithstanding that the maintenance grants of certain other roads are reduced and certain out-of-the-way donkas are omitted. In making these alterations I have availed myself of the help of the two Engineers and tried to remove the confusion of previous statements. The usual provision of Rs. 1,000 and Rs. 40 for the maintenance of the two marginally-noted works under the supervision of the Public Works Department is repeated. Petty works, costing Rs. 300 and less, are entered in a lump as petty repairs.

24. (3) *Miscellaneous Public Improvements.*—As usual Rs. 8,000 is entered for the maintenance of avenues.

25. (*c*) *Establishment*—(1) *Public Works Department Supervision.*—A provision of Rs. 110 is made with reference to the actuals of the last year.

26. (2) *Local Fund Engineering Establishment.*—The district board have resolved that the cost of the two Engineers' office establishments should be borne by the district board, and that the cost of the executive branch, *i.e.*, the overseers and their establishment, should be borne by the boards of the taluks in which they work. The former amounts to Rs. 13,570 and the latter to Rs. 11,364 as shown below:—

27. Probably it would be best to have one Engineer for the whole district with two Assistant Engineers—one at Guntúr and the other at Vinukonda; but the Board think that it would be difficult for one Engineer to manage such a large area as this district and so do not wish to amalgamate the Engineering establishments of the two ranges, but would leave them for the present as they are.

Provision has been made for one more taluk overseer for the Núzvíd and the Tiruvúr divisions of the Masulipatam range, as the Board think that these divisions require a separate overseer as more roads are about to be made on them.

The Board have dispensed with the services of the sub-overseers and hence no provision has been made for them. A statement of propositions for revision of establishment will be submitted.

(3) *Tolls and Ferries.*—Rs. 500 is entered under this head for making and repairing sangadies, ballacuts, &c., for which applications will be received from time to time.

28. (*d*) *Tools and Plant.*—The provision of Rs. 3,660 is estimated at 1 per cent. of the expenditure on works.

29. (*e*) *Contingencies.*—Under this head provision is made for the following charges for the Engineering establishment:—

A sum of Rs. 33, unnecessarily charged in the current year's budget under "Batta," is now struck off and Rs. 60 added to the contingencies.

32. (*b*) *Normal Schools.*—On the demise of the head master of the Masulipatam Training school, the increment of Rs. 2 granted to him has been transferred to the head master of the Guntúr Normal school. The pay of the second master of this school has been raised by one rupee.

As certificated gymnastic teachers are not procurable for anything less than Rs. 20, provision is accordingly made for both the schools. Of this, one-third salary grant will be claimed from Provincial funds. The provision of Rs. 60 under Miscellaneous is reduced to Rs. 48 and a sweeper on Re. 1 provided for each school. The house-rent at Guntúr is raised from Rs. 15 to 16 to secure accommodation for gymnastic purposes.

33. (*c*) *Secondary Schools, Salary System.*—The number of schools is the same as in the current year, but there is some increase in the salaries and the number of masters as below :—

	or 10,770

Sanction is now solicited for the last two items.

Under Servants, a provision of Rs. 636, against 612 in the current year's budget, is made, the increase being due to the entertainment of a sweeper for each of the Bápatla and Krósúr Local Fund schools. The decrease under Miscellaneous is due to less provision being made for furniture and to the location of Bápatla and Répalle schools in the Board's instead of in rented buildings.

34. (*d*) *Elementary Schools.*—The following transfers have been made of the elementary schools :—

From	To
1. Kuchipudi (Répalle taluk)	Duggirala (Répalle taluk).

Under Servants Rs. 60 is provided for a peon to be engaged in the Jaggayapet school.

A sum of Rs. 2,820 is provided under "Miscellaneous," the increase being due to the establishment of 16 new schools.

35. (*e*) *Grants-in-aid*—(2) *Results Grants.*—The current year's figure, Rs. 20,000, is repeated.

36. (*g*) *Miscellaneous*—(1) *Purchase of books*, (2) *Commission on sale of books.*—The current year's figures are repeated.

38. *Grant III*—(*a*) *Hospitals and Dispensaries.*—Provision is made for a minor dispensary at Nandigáma on a scale similar to that of Karempudi or Tumercode at an annual cost of Rs. 940, as it has been strongly recommended by the District Surgeon and the Head Assistant Collector. This raises the number of dispensaries from 14 to 15.

(2) *Medical Subordinates.*—A sum of Rs. 9,780 provided under this head is calculated on the salaries of the medical staff at present employed by the Board and three-fourths pay of the hospital assistant to be employed in the dispensary at Nandigáma.

(3) *Clerks and Servants.*—An allowance of Rs. 2 to the compounder in the Bezváda dispensary as house-rent is provided. The compounder at Chirala has been transferred to Bezváda. In the current year's budget provision was made for his pay at Rs. 15 per mensem on account of his long service. But he was allowed only Rs. 7 on the ground of his ignorance of English. Now provision is made at the reduced rate.

(4) *Diet of Patients*—(6) *Supplies.*—The increased provision under these heads is due to the Nandigáma dispensary proposed to be opened.

(7) *Midwives and Midwifery Pupils.*—Under G.O., Mis. No. 1170 L.F., dated the 4th December 1885, a sum of Rs. 600 is allotted for the local midwifery class opened under the superintendence of the District Surgeon, Masulipatam. The usual provision for the midwives in general, including one for the proposed dispensary at Nandigáma, is also made. Hence increase.

(9) *Medical Practitioners.*—A provision of Rs. 1,200 is made against Rs. 800 under the head (*c*) "Distribution of Medicines" in the current year's budget. This is required for the services of temporary medicine distributors on the occurrence of fever, cholera and other epidemics.

(3) Batta to mothers for supplying lymph	450
(4) Rewards to vaccinators, &c.	260
(5) Contingencies	450
Total ..	10,270

The increase of Rs. 470 over the current year's grant is due to the entertainment of two 2nd-class additional vaccinators on Rs. 10 each for the Bandar taluk and Núzvíd division and to the increased provision for rewards to vaccinators, &c., with reference to the actuals of the current year.

40. (*c*) *Sanitation*—(1) *Improvement of Water-supply.*—Current year's figure is repeated.

(2) *Improvement of Village-site.*—A sum of Rs. 6,350 is provided against Rs. 7,000 in the current year's budget, the difference, *i.e.*, Rs. 650, being placed under "5, Other Sanitary Outlay," to meet unforeseen charges.

(3) *Scavengering Establishment.*—One scavenger at Gunnavaram and one cart and two scavengers at Núzvíd have been dispensed with, whilst two more carts at Rs. 10 each and eight more toties on Rs. 5 each per mensem are provided for Bezváda and one cart at Rs. 10 and two scavengers at Rs. 5 each with contingent charges of Rs. 10 each for each of the villages of Agiripalle and Wuyyur. Hence the increase of Rs. 1,010 over the current year's figure Rs. 15,940.

(*d*) *Markets.*—Nil.

41. *Choultries.*—Increased provision is necessary as Rajah Simhadri Apparow's choultry at Kankipad has been taken over by the board under G.O., Mis. No. 768 L.F., dated 21st September 1885.

Usual provision is made for the choultry servants at Pondugal, Seetanagaram and Vellutore who have been in the enjoyment of the endowments.

42. (*f*) *Public Bungalows.*—The decrease is due to the reduction effected in the number and salaries of the servants attached to the bungalows and contingencies, except at Guntúr and Bezváda.

43. (*g*) *Contributions to* (1) *Provincial Services.*—The provision for contribution to Medical College and Sanitary Inspection is calculated at ½ per cent. on the receipts (as per revised estimate), excluding the certified balance.

As per G.O., No. 1208 L.F., dated 12th December 1885, the provision of Rs. 4,900 for "Medicines and Surgical Instruments" has been put down under contribution to Provincial services.

(3) *Municipalities.*—The sum of Rs. 5,340 to be contributed to the municipalities of Masulipatam and Guntúr is put down with reference to the applications of the chairmen, the contribution to the Masulipatam Municipality being shown under the District Board and that to Guntúr under the Guntúr Taluk Board.

(4) *Private Individuals.*—With reference to G.O., No. 938 L.F., dated 24th October 1885, a sum of Rs. 300 has been provided as contribution to the hospital at Bápatla maintained by Rev. Bullard.

45. *Grant IV, Miscellaneous*—(*a*) *Controlling Establishment at the Presidency.*—Last year's figure is repeated.

46. (*b*) *Establishment in the Collector's Office.*—The decreased provision of Rs. 1,720, inclusive of audit clerk's pay, is due to the reduction of the salaries of two accountants in the Collector's office under G.O., Mis. No. 1087 L.F., dated the 23rd November 1885.

47. (*c*) *Local Board's Office establishment*—

ENCLOSURE.

PROCEEDINGS of the District Board, Kistna, passed at a special meeting held at Masulipatam on Saturday, the 19th December 1885.

* * * *

Read draft budget for 1886-87.—*Resolution.*—Passed as amended.

From Deputy Surgeon-General G. BIDIE, M.B., C.I.E., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Madras, 9th March 1886, No. 430.

I have the honor to report, for the information of Government, that the District Board of Kistna have set apart Rs. 33,140, or 26·8 per cent. of available income, for sanitation, exclusive of Rs. 2,490 for sanitary inspection and Rs. 10,270 for vaccination for the year 1886-87. Both allotments seem to be adequate; the former will be distributed as follows:—

	Rs.
Improvement of water-supply	8,000
Do. of village sites	6,350
Conservancy	16,950
Fairs and festivals	1,190
Other sanitary outlay	650
Total	33,140

The vaccination grant is in excess of that for the current year by Rs. 470. The Board propose to entertain two additional 2nd-class vaccinators, and provision has been made for rewards to vaccinators; hence the increase.

From M. C. FURNELL, Esq., M.D., F.R.C.S., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 12th March 1886, No. 116.

I have the honor to state that the provision made in Grant III of the budget estimate of the District Board of the Kistna district for the year 1886-87 for the maintenance of the fifteen dispensaries, including the institution proposed to be opened at Nandigáma, is adequate and calls for no remarks, save in the item of "Medical subordinates."

	Rs.	
Pay of 3rd-class Hospital Assistant	25	
Charge allowance	10	
Total	35 × 12 = 420	
	¾ of 420 = 315	

2. A sum of Rs. 315 (details as per margin) is provided for the three-fourths of the pay and charge allowance of the medical subordinate required for the new dispensary referred to. Sanction of Government is necessary for the other one-fourth, viz., Rs. 105 (one hundred and five.)

From D. DUNCAN, Esq., M. A., D.Sc., Acting Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 26th March 1886, No. 2018.

I have the honor to submit the following remarks on the educational portion of the budget estimate of the Kistna District Board for 1886-87.

2. *Receipts.*—The educational assets, including one-sixth land-cess, are estimated at Rs. 77,340:—

	Rs.
One-sixth land-cess	61,670
School-fees	7,300
Municipal contributions	760
Sale of books	400
Endowments	70
Provincial grant	7,140
Total	77,340

The contributions from municipal funds should be reduced by Rs. 100, as under the new Grant-in-aid Code, practising departments of training schools will receive aid from Provincial funds. I would also recommend that the estimate under "Grant from Provincial funds" be reduced to Rs. 6,840, owing to the Board having overestimated the amount of grant they will be entitled to on account of the normal schools. The other items of receipts call for no remark.

3. *Charges.*—The proposed outlay under Grant II aggregates Rs. 64,220, against Rs. 60,800 in the current year's budget:—

	1885-86. Rs.	1886-87. Rs.
Inspection	5,080	5,100
Training schools	6,110	6,320
Local Fund Schools {Secondary	12,200	12,630
Local Fund Schools {Primary	16,650	19,410
Results grants	20,000	20,000
Miscellaneous	760	760
Total	60,800	64,220

4. *Inspection.*—The slight increase has been explained by the President.

5. *Training Schools.*—Mr. Bickle recommends that provision be made for thirty stipendiaryships in the Guntúr Normal School in addition to the six municipal stipendiaryships. The allotment should be raised by Rs. 360.

6. *Local Fund Schools.*—The grant for secondary schools is adequate, but that for combined elementary schools is considered insufficient. The allotment for results grants in combined schools should be raised from Rs. 6,110 to Rs. 7,000, as recommended by the Deputy Inspector and supported by the Inspector.

7. *Results Grants.*—The current year's assignment is repeated, and will probably suffice.

8. *Miscellaneous.*—The item calls for no remark.

9. The total expenditure, if my proposal be approved, will be Rs. 65,470, against receipts amounting to Rs. 76,940, excluding opening balance.

ORDER—dated 17th July 1886, No. 821 L.F., Financial.

2. *Revised Estimate for* 1885-86.—The closing balance of 1884-85, as reported to Government by the Accountant-General, was Rs. 1,72,380. This figure, which will be adopted as the opening balance for 1885-86, in lieu of that given by the President, exceeds the budget estimate by Rs. 53,190, the increase being the result of the short expenditure incurred on public works in 1884-85. Current receipts were estimated at Rs. 4,44,110 as against Rs. 4,26,060 in the budget, the increase occurring chiefly under Tolls, and being due to unusual competition at the sale of the farms and to the payment in arrear of the contribution due from the Masulipatam municipality for 1884-85. The expenditure was estimated at Rs. 4,27,240, against budget allotments aggregating Rs. 5,07,920. The decrease occurs almost entirely under Grant I, where it is due to the postponement of works with reference to G.O., 26th May 1885, No. 213 L.F., and to a reduction in the pay of the Local Fund Engineer of the Masulipatam range. The receipts and charges of endowed institutions should have been shown by a footnote to the revised estimate, as required by No. 11 of the budget rules. The revised estimate closes with a balance of Rs. 1,89,250, which will be carried forward in the budget for 1886-87. Of this amount, Rs. 3,480 appertain to endowed institutions.

3. *Budget Estimate for* 1886-87.—In addition to the opening balance of Rs. 3,480 in favor of endowments, which is credited to taluk funds, the District Board propose to transfer to these funds a moiety of the remaining balance and to allot a further

sum to Taluk Boards of Rs. 33,160; but the proper course under section 54 (1) of the Act is to credit to the District fund the whole of the balance available for general purposes, and to show the whole amount required to meet the deficiency under Taluk funds as an allotment from the District fund. This will now be done. Excluding balances, the receipts are estimated at Rs. 4,43,120 against Rs. 4,26,060 in 1885-86. Under Land-cess, last year's budget estimate of Rs. 3,70,000 is repeated; but the estimate is only 75 per cent. of the demand, and a balance of Rs. 1,19,225 is expected to remain outstanding at the close of the year. This is very unsatisfactory, and the estimate will accordingly be raised to Rs. 3,92,000, which is still only 80 per cent. of the total demand. An income of Rs. 25,000 is expected from Local Fund toll-gates against Rs. 15,000 in last year's budget, the estimate having been fixed with reference to the amount for which the tolls were leased in 1885-86. The municipal contribution under this head will also be raised from Rs. 11,000 to Rs. 12,000, with reference to the provision made in the budgets of the Masulipatam and Guntúr municipalities. Credit is taken for a sum of Rs. 3,500 under House-tax, to be levied in the unions of Bezváda, Jaggayapet and Chirala. The increase of Rs. 1,300 in the estimate under School-fees is explained by the expected increase in the strength of existing schools and by the establishment of fifteen new elementary schools. On the recommendation of the Director of Public Instruction, the estimates under Municipal contributions and Provincial grants for education will be reduced to Rs. 660 and Rs. 6,840 respectively. The miscellaneous receipts noted in the margin should, in the absence of special reason to the contrary, be transferred to Taluk funds, and the whole of the interest on arrears of revenue credited to the District fund.

	RS.
Fishery rents	4,400
Avenues	100
Sundry items	250

4. The provision under Grant I for new communications is Rs. 2,11,330 against Rs. 1,38,010 last year. The works proposed are enumerated in paragraph 17 of the President's letter. No expenditure should be incurred on Nos. 2, 4, 7, 9, 11, 12, 16 and 17 until estimates have been duly sanctioned. For the construction and improvement of 3 dispensaries, 5 apothecary's quarters, 4 school-houses, 4 choultries, 1 rest-house and 3 store sheds, Rs. 23,170 are provided. The grant for road repairs is Rs. 1,15,890 against Rs. 1,10,510 last year. The whole of the provision of Rs. 8,000 for the maintenance of avenues will be debited to Taluk funds. For the Local Fund Engineering establishment, including contingencies, Rs. 34,680 are allotted against Rs. 40,380 in 1885-86. The decrease is due to the proposal of the District Board to employ two engineers on Rs. 400 and Rs. 250, in lieu of two on Rs. 500 and Rs. 400, respectively, and to dispense with the services of sub-overseers. The amount must now, however, be raised by Rs. 7,620 with reference to G.O., 17th May 1886, No. 526, and G.O., 10th June 1886, No. 645 L.F., sanctioning the appointment of an Engineer on Rs. 600 for the whole district, and two Assistant Engineers on Rs. 300 and Rs. 250, respectively. It is observed that the District Board propose to debit the cost of the supervising establishment to the District fund, and that of overseers and their establishments to Taluk funds. The provision made for an additional taluk overseer will be allowed to stand pending the submission of the proposition statement called for in official memorandum, dated 7th June 1886, No. 349.

5. The educational allotment is Rs. 64,220 against Rs. 60,800 in last year's budget, owing to the establishment of fifteen new elementary schools. As recommended by the Director of Public Instruction, the provision for normal schools will be raised from Rs. 6,320 to Rs. 6,680, and that for result grants to combined system schools from Rs. 6,110 to Rs. 7,000. The entertainment of the additional establishments and the increase of salaries proposed in paragraphs 32—34 of the President's letter are sanctioned.

6. Under Grant III, Rs. 23,520 are provided for "Hospitals and dispensaries" against Rs. 21,510 in last year's budget—an increase chiefly due to the proposal to establish a new dispensary at Nandigáma, sanctioned in G.O., dated 12th July 1886, Mis. No. 798 L.F., and to the opening of a midwifery class under G.O., dated 4th

December 1885, Mis. No. 1170 L.F. The contributions to Provincial funds for the Medical College and Sanitary Inspection should be Rs. 2,220 in each case. The provision of Rs. 300 as a contribution towards the maintenance of the Baptist Mission dispensary at Bápatla will be struck out, with reference to G.O., dated 28th April 1886, Mis. No. 463 L.F., and the President requested to submit an application for an allotment of the funds required for the Local Fund dispensary now to be opened at Bápatla.

7. Under Grant IV, the contribution for controlling establishments at the Presidency will be altered to Rs. 3,110—the amount paid in 1884-85. The entertainment of a clerk on Rs. 30 and a peon on Rs. 7 for each taluk board, two tax collectors on Rs. 8 each for the Bezváda and Jaggayapet unions, and one on Rs. 6 for the Chirala union, is sanctioned.

8. The reserve, calculated at 10 per cent. of the receipts, is Rs. 46,570. It is proposed to allot Rs. 1,26,800 from District to Taluk funds, so as to enable them to meet the expenditure devolving on them and to provide an adequate reserve and closing balance. The proposal is sanctioned, but the amount should be shown as a charge on the District fund instead of being deducted from its receipts. The budget, as revised by Government, closes with a balance of Rs. 15,720, or 6·4 per cent. of the receipts under the District fund, and a balance of Rs. 14,080, or 6·4 per cent. of the receipts under Taluk funds, besides Rs. 3,350 appertaining to endowed institutions.
