

to state that the debit to Prov^l
Tools and Plant up to the end
of October 1885 amounted to
Rs 4697, or less than the debit
for the same period in 1884-85,
by Rs 3123. As there is a con-
tinuous tendency to a decrease in the
current official year, it appears
desirable to ascertain what the
results will be at the close
of the year. I am therefore
to suggest that the present
rate of
Contribution of 1 per cent towards
Provincial from other funds be
given a further trial for a
year, and that the results
be reported after the accounts
for 1885-86 have been closed.

G. O. No. 108 W. dated 12th.
January 1886.

The debit to Provincial Tools
and Plant up to the end of October
1885 amounts to Rs. 4,697, and less
than the debit for the same period
in the past year by Rs. 3,123. As
there is a tendency to a decrease
in the current year, it appears
desirable to see what the results
may be at the close of the year. I
would therefore suggest a further
trial for one year of the present
percentage, and to report results
after the close of this official
year.
