GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT

Buildings and Roads.
Civil Works.

READ—the following papers :—

From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepak, 21st January 1886, No. 1502.

I have the honor to inform you that I had an interview with the deputy collector of Madras on the subject of the intended purchase of the fishing village adjoining the presidency college.

2. The deputy collector gave me to understand that there would be no objection to the land in question being purchased by this office by private negotiation, but inasmuch as the dharmakartas to the temple are merely trustees, it would be safer to acquire it under the Land Acquisition Act through the Revenue officer of the district. This, he assured me, could be done without any additional expense to the State.

3. In regard to the compensation to the fishermen, the deputy collector is of opinion that the fishermen should not be given any compensation in cash but that the Government should have the huts or houses, as the case may be, constructed and made over to them. This may cost the State a little more as the compensation estimated for in this office letter, No. 1841, dated 20th March 1885, does not allow that margin of liberality contemplated in G.O., No. 959 W., dated 23rd April 1885.

4. The measurement of the village according to the survey made by this office does not agree with the measurements of the temple authorities. This office estimated for 80 grounds, the dharmakartas claim 85 grounds. The differences will be reconciled by further measurements and the matter reported to Government.

5. I shall feel obliged if you will authorise me officially to proceed with the work and to obtain the rails for the tramway on loan.

From the Consulting Architect to Government, dated 23rd January 1886, No. 1524.

ORDER—dated 27th January 1886, No. 231 W., Public Works.

With advertence to G.O., No. 211 W., dated 25th January 1886, the Consulting Architect is authorised to commence at once, with the consent of the Madras Municipality, the work of raising with sand the site to which it is proposed to remove the fishing village south of the presidency college. With that object, the portable railway now available in the Public Works Stores should be laid without delay, and early application should be made for funds required during the current official year.

2. The Consulting Architect's proposals to acquire under the Land Acquisition Act the land on which the fishing village now stands, and to construct by Government agency the huts or houses for the fishermen on the new site, are approved.

Book

G.O., 27th Jan. 1896, No. 231 W.

JANUARY.

Authorising the Consulting Architect to commence at once the work of raising with sand the new site to which it is proposed to remove the —, and approving the proposal for acquiring the land on which the village now stands under the Land Acquisition Act.

Funds for removing the
fishing village will
not be available
till April & it then
seems hardly advisable
to commence laying
the tramway out, as
it should not take
more than a few days
to do so.

C. & W. Co. & Co. of
Lancaster, Pa. & have
been there & laying them
on the 400 & if it is
found advisable to
carry on the work
on one, then it is
probable the money
can be found.
It is the much more

Satisfactory to take
on the land under
the Act as suggested
by C. & in para 2.

The Deputy Collector
proposed to finish him
instead of paying cash
is good.

In para 5 C. & asks
permission to go over into
the unit: but as there
are no guards he cannot
do so: but he can have
all the land measures
as a compensation in return
as that unit can be bought
in 100 Acres.

It seems the Municipality
have the lease of the land
to be raised till June 30.

Then permission will
have to be obtained if
the Municipality begin before
then.

Yours
O. H. M.

The Govt are anxious that
this improvement should
be put in hand without
delay, and I think it would
be desirable to have the
tramway laid at once.
Funds for this, & for raising
the new site, can probably be
found without difficulty.
The Municipality have the lease
of the land until June, but
they have stopped cultivation
with a view to assist us.

A S.O. on the subject is
now in the press.

With respect to the other
points, I am of opinion,

(1). that the land on which
the village now stands should
be acquired by Act.

(2). that the houses should
be built ~~on~~ on the new site
as suggested.
