Conservancy of and im-
provement of margin of
the Lake at Obacamund

When this project was first
proposed by General Sackey
the intention was to make
over the land to the care
of Mr Lawson in view
of the preparation of a
scheme for planting it
ornamentally. I was under
the impression that Col
Shaw Stewart was of the
same opinion but from
the estimate submitted
it would seem that the
work has been under-
taken by Mr P.W.D.

This I think is a mistake
The grubbing up of wattle and
sloping of the bank has ap-
parently been carried out
in anticipation of sanction
& this there is no objection
but all other arrangements
including the formation
of paths, fencing & planting
should be submitted to Mr
Lawson who will submit
his own proposals with the
estimated cost. In con-
-nection with this Mr L's

attention may be
invited to the neglected
condition of the island
near the Willow Bend.

H.R. The Viceroys is re-
ported at Botucumund
towards the end of the
year & should not
like him to go away
with an unfavorable
impression.

The estimate sub-
mitted will require
to be modified in
the light of the foregoing
remarks.

H.R.

9/3

It has been explained to the H.R.
that Mr. Lawson will not take charge
of the land until it is fenced & that
an estimate for fencing has been
sanctioned & funds allotted & and that
the Cl: Insp: ordered preparation of
the present Rpt. None of the items
of which will in any way hamper
Mr. Lawson's free action when he is

prepared to take charge of the land
after it has been fenced.
also that no part of the work has
been yet carried out. Under these
circumstances the H.R. has approved
the draft order.
