Rent due by Mr Struggles.

Submits a letter from the Exe: Engineer Coimbatore Dn and requests orders to write off the — from the accounts.

2ND APRIL 1886, No. 895 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from D. C. GORDON, Esq., Examiner, Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 30th March 1886, No. 146 W. :—

I have the honor to submit, for information and orders of Government, notes by Mr. Rainier, Deputy Examiner, of his inspection of the office of the Coimbatore division.

2. The Executive Engineer's attention is necessary to the remarks in paragraphs 4 to 7, and he should further consider whether work abstracts could not be advantageously compiled in the divisional office, especially since so little departmental labour is employed (*vide* paragraph 12).

3. The adjustment of the amounts referred to in paragraphs 14 and 15 should be effected as soon as practicable.

4. The Superintending Engineer's inquiry into the points mentioned in paragraph 20 is desirable.

5. In the monthly return of buildings, the Executive Engineer can easily enter a note in the column for remarks that rent has been paid into treasury to such and such a date and awaits adjustment.

6. The office is in fair order.

ENCLOSURE.

NOTES of Inspection by H. RAINIER, Esq., Deputy Examiner, Public Works Accounts, Madras, of the Office of the Executive Engineer, Coimbatore Division, on the 16th, 17th and 18th March 1886.

The Executive Engineer, Captain O. V. Boddy, R.E., and the accountant, V. Raghavendrachari, were present. The office was last inspected by an accounts officer on the 26th and 27th March 1885 (see papers with G.O., No. 904 W., of 15th April 1885).

2. There are four sub-divisions, each with a drawing account :—

No. 1 under Mr. J. Kelly, Supervisor.
" 2 " " Subraychariar, Executive Engineer.
" 3 " " H. E. Clerk, Assistant Engineer.
" 4 " " C. H. D. Majoribanks, Assistant Engineer.

Under No. 2 sub-division there are two imprests, viz. :—

	RS.
With Supervisor A. Murugesa Moodeliar	25
" " N. Nadamoony Moodeliar	25

Under No. 3 sub-division two imprests, viz. :—

	RS.
With Overseer Raghava Aiyangar	20
" " V. Subharaya Pillai	50

Under No. 4 sub-division one imprest, viz. :—

	RS.
With Sergeant R. T. Healy, overseer	25

There is also money in the hands of the Jail Superintendent for building the close prison, Coimbatore, the balance on 28th February 1886 being Rs. 322-8-2.

3. The sub-divisional cash accounts come up frequently and are generally well supported by vouchers. The accountant's audit of these accounts as they come up is so important that it is necessary he should give the date of his initial to every voucher audited. In fact, every initial in token of audit should invariably bear date.

4. In No. 2 sub-divisional cash book a cheque drawn in favor of sub-divisional officer is entered under "payments" on the 25th February 1886 as "cash from treasury" and the proceeds of this cheque, Rs. 40, are entered on the other side as having been received on the same date, February 25th, but the treasury pass book shows the above cheque to have been cashed on the 11th March 1886, or a fortnight later than the cash is stated to have been received by the sub-divisional officer; the sub-divisional officer's count of his cash at the close of February 1886 could not, as stated in his cash balance statement, have agreed with the cash book balance, unless the above cheque had been cashed; in the meanwhile the Executive Engineer promised to take this matter up with the sub-divisional officer. The treasury is at Erode, the head-quarters of the sub-division. There is another similar case in the same sub-division, that of cheque Rs. 90 cashed (cash from treasury) and proceeds received on the 18th January 1886, as per cash book, but not presented at treasury as per pass book till 27th January 1886. These should have been noticed in the office in checking cash books with pass books.

5. The same as regards cheque Rs. 50, entered on both sides of the cash book, No. 4 sub-division, on the 27th February, but not cashed as per pass book, except that the treasury in this case was at some distance, and that the uncashed cheque was acknowledged in the cash balance statement.

6. No cheque should be entered in the cash book as a payment until it has actually been paid away and the cash book is nothing if not exact (see Code, paragraphs 2088 and 2092), but there is a disposition to enter a cheque as paid immediately it is drawn, though the payment may not take place for some days, thus:—

(a) *Constructing additional room and bathroom to Deputy Tahsildar's house at Yercaud.*—Rs. 437 paid to contractor at Salem appears in the sub-divisional (No. 3) cash book as paid on the 31st March 1885, but the contractor's receipt shows payment to him on the 4th April 1885.

(b) *Repairing the press and treasury buildings attached to the Collector's office at Salem.*—Rs. 23 are stated in the cash book as paid on 31st March 1885, but the payment was actually made on the 4th April.

(c) *Constructing Sub-Registrar's office, Rajapur.*—Rs. 392-4-8, stated in cash book as paid on 31st March 1885, were received by the payee on the 10th April 1885.

7. There may not have been any of the undue haste to charge the current year's grant prohibited in Code, paragraph 1913, and in paragraph 5 of the directions at back of form M. 3, but the above items show the irregularity of the practice and the effect produced on the grant.

8. Miscellaneous receipts in form No. 217 should show the voucher number of both the luff and the fly, and every page of the book should be numbered.

9. The Executive Engineer's cash balance was counted and found to agree with the cash book balance. The cheque books were found in order. The balance of the Executive Engineer's drawing account on the 28th February was proved correct.

10. Work abstracts since December 1885 have been prepared in the sub-divisional offices. The result of this cannot be satisfactory. In almost every division in the presidency time and experience has taught the Executive Engineer to prefer to compile these documents in his own office, under his own eye *during* the month, instead of receiving them after the month is over, and so compiled that they then cause much correspondence and correction ere they can be accepted. Moreover, the intimacy of the Executive Engineer with the contents of these documents, which is essential to his signature of the monthly accounts certificate, form A, will be much more easily obtained by having them compiled at head-quarters and by the leisurely study of their contents which that will involve.

11. Daily reports of labour have been rendered late. The report should be sent from the work *immediately* after the period concerned.

Maintaining Mettupálaiyam and Kullar road.—The entire labour liability of the month (September 1885) was found lumped in one sum in part I of the work abstract, and the result of the analysis of this labour was that it did not agree with the ten-day reports, which gave—

September 1885—

	RS.	A.	P.
1st to 10th	47	6	0
11th to 20th	21	12	0
21st to 30th	45	4	0
Total ...	114	6	0

whereas the work abstract showed Rs. 78-12-0 only, the difference being due to errors in previous months.

12. It is the exception, rather than the rule, to do work in this division by departmental agency. There is a great deal of piecework agency and there are a few contractors. The work accounts were as usual examined for more than two months, and subject to the above and following remarks were found in order.

13. The account from the Jail Superintendent for outlay on the close prison, Coimbatore (paragraph 2), was last received in January 1886. It has been generally rendered quarterly. It is merely a statement up to date of total quantity and cost of work in columns, thus:—

1. Sub-head of estimate.
2. Quantity.
3. Rate.
4. Amount.

vouchers being attached in support of outlay since the last return, with a list of materials at site. The originals of the vouchers had gone to Examiner's office. The office copies were examined and, as far as possible, checked. It is understood that a revised estimate is under preparation to cover everything not contemplated in the original estimate. This outlay will have to be cleared from the miscellaneous advance account at the close of the financial year, all outlay up to the end of March being charged off to the work in the books of the Public Works Department.

14. Twelve rupees have been due to Veerappa Moodeliar, a contractor, since May 1884. It is stated that the man is entirely lost sight of and his discovery hopeless, and this item, together with another of Rs. 10-5-0 due to Koomerany Moodeliar for the same period, may be, with the sanction of Government, credited to Revenue.

15. Rs. 2,869-15-11 due to a contractor, Venkatasawmy Naidu, in March 1885, was attached by the District Munsif's Court, Coimbatore, and have been about a year in hand awaiting the orders of the court. Unless orders are soon forthcoming the amount should be paid into court, and the deposit account cleared. The Executive Engineer promised attention to this.

16. The only deposit in the Savings Bank is that of the storekeeper, Rs. 100-2-6 out of Rs 200 his security: the balance is being deducted at Rs. 10 per month from his pay. The deposit is in the District savings bank at present and should be removed to the Post office savings bank. The pass book is in order.

17. The Tools and Plant accounts were examined. On checking the (M. 13) returns from sub-divisions, with the same form respecting the division, there was a difference of 140 mamooties said to be due to that number having been lent to contractors. But this should not occasion any difference. Mamooties still the property of Government should be on the returns of sub-division concerned, a remark being made that they are with contractor so and so.

18. *The travellers' bungalow at Pódanúr* is stated in form M. 95 to be valued at Rs. 20,195, but it is let to the Madras Railway at Rs. 25 per month, or at about 1½ per cent. of the value of the building (*vide* G.O., No. 104 W., dated 15th January 1881).

19. In form 41 Mr. B. is stated to be in arrears of rent from November 1885 till February 1886, Rs. 400, but we know that he is not at all in arrears from the treasury receipts for his rent from time to time received by the Executive Engineer showing regular and punctual payment to the treasury by this officer. Similarly Mr. G. is stated to owe Rs. 180 since November 1885, but he owes nothing, having regularly paid into the treasury as above. The same applies to Mr. G.M.W. said to owe Rs. 380 for four months' rent. This is because the return of rents recoverable, form M. 41, is not cleared until the advice of exchange account items from the Examiner is received, which advice of course has to await the exchange account from the Accountant-General, Madras, which account has to await the accounts from the treasury officer, who has received the rent.

If or whenever the treasury officer's receipt for any particular rent is communicated to the Executive Engineer concerned, the rent account in form M. 41 might be relieved, the treasury receipt being quoted. This would make the rent account accurate as regards arrears of rent.

20. There is an item of Rs. 17-5-4 due from Mr. Spencer, Sub-Collector, now on furlough, for rent. This officer was billed in due course, but he left the country ill, and the rent was left to stand over. Rs. 12-9-3 is due from Mr. Struggles, a railway employé, for occupation of the overseer's shed at Erode for 2½ months. Mr. Struggles has been pressed frequently for payment, but he is now out of employment, and the recovery of the amount is considered doubtful. Parties who are not known to the Executive Engineer should be required to pay rent in advance. Meanwhile if the above item is irrecoverable, the Superintending Engineer will be addressed.

21. Appropriation registers are in order, but corrections advised from Examiner's office should be straightway applied to the registers, and not merely to form M. 78.

22. Service books are in order.

23. There is a schedule of rates.

24. The accountant is well assisted and the office is in good order.

ORDER—dated 2nd April 1886, No. 895 W., Public Works.

Communicated to the Superintending Engineer, IV Circle, for the information of the Executive Engineer, Coimbatore division.

2. The Executive Engineer's attention will be directed to the remarks in paragraphs 4 to 7 of the notes, and he will arrange, if practicable, to have work abstracts prepared in the divisional office in future.

3. The adjustment of the items referred to in paragraphs 14 and 15 will receive early attention, and the Superintending Engineer will inquire into the matters brought to notice in paragraph 20.

4. The Superintending Engineer will report, with reference to paragraph 18, whether the rent charged for the bungalow should now be raised, in accordance with recent orders on the subject of rents.

Notes of Inspection
Orders on the — of the office of the Coimbatore division by the Deputy Examiner, Public Works Accounts.

No: 302 / W

Supg: Engineer's office IV Circle
Coimbatore, 11th August 1886

From,
The Superintending Engineer
IV Circle

To,
The Chief Engineer
P. W. Depart.
Thro' the Examiner of P.W. accounts

Sir,

Adverting to G.O. No. 1630 W. of 28th June bearing Examiner's Endorsement No. 568 W of 8th ultimo, I have the honor to report as follows:-

Item No. 3 - Improvements to Road within Municipal limits Ootacamund. — A bill of cost in the form of completion Report has been submitted to you with my No. 281 of 29th July 1886:

Item No. 5 Maintenance of Kullar Gudalur road — The circumstances under which the excess expenditure was incurred are reported by the Executive Engineer as follow:-

"A considerable quantity of metal

Collected

collected for the early repair of the road this year. The road was getting into a bad state owing to rains, heavy and late in the season, and coolies agreed to wait for their pay. The traffic on the Coty Kullar side has increased very considerably of late and the grant for this portion at least has been found to be insufficient. The estimate for the current year provision is made for increased expenditure but was not sanctioned.

"The sum of Rs 8515 sanctioned for x remettaling will enable us to maintain the road at a some what reduced cost this year, as the parts remettalled will not require so much in the way of Repair, I am told on all sides that the road is in better order than it ever has been before".

x G.O. No 2660 W of 9th November 1885

Item No 8 - Excess over appropriation West Coast Division Civil Buildings Repairs.

The excess of Rs. 800 is due to the improvements to the Government Church at Cochin having been shewn under repairs. The Government in their order No 1594 W of 23d June /86, statement B Item No 79, have remarked that provision of funds will be considered when the estimate now under revision is submitted for sanction.

Item 7 Excess in C.B. Minor Wks not explained by EE

Item No 9 - Constructing Law Courts at Calicut.

A revised estimate for the Law Courts is still awaited from the Executive Engineer.

A Revised Estt. has [illegible]

Item No 10 - Residence for the Head assistant Collector Kundapur.

Revised estimate has been received and will be submitted to Government on receipt of further explanation from the Executive Engineer, which has been called for.

Sanctn to Revd Estt awaited

Item No 11 - Improving the line of road from Calicut to Vayitri

The Executive Engineer reports that the Revised estimate for the work is under preparation.

Awaited

Item No 27 - Delay in recovering rent from Mr Spencer on account of sub Collectors bungalow at Hosur.

The recovery will have to stand over until 8th October 1886 when Mr Spencer returns from furlough.

Item No 28 - Do from struggle for Overseer's shed at Erode.

This and the above case have already been reported to you in my No 151 of 15th May 1886

The title deeds will be executed on receipt of the grant of Rs 500 applied for in this Office No. 293 of 7th Instant for payment of land compensation. + Ch. 6137 in Current Section	Item No. 29 - Purchase of the school house from the Local Fund Board at Taliparamba.
The Executive Engineer has been requested to submit an application for the local purchase of articles of European manufacture in the form which accompanied G.O. No. 1679 W of 2nd July/86.	Item No. 30 - Purchase of Portland cement at Rs 100 per ton for the use of Improvements to Calicut Vayitri Road

Imperial

The Executive Engineer has been requested to send in a bill of cost in the form of completion Report including all charges in connection with the work after closing the accounts of the Contractor.	Item No. 2 and 4 - Putting the Cannanore Fort into a state of defence.
Vide remarks against item No. 30 - Provincial.	Item No. 5 - Purchase of 3" piping 1,126 Rft at Rs 1-8-0 for the use of the Improvements to the Calicut Vayitri road.
Vide remarks against item No. 30 - Provincial.	Item No. 6. Purchase of 3 tons of cement for the use of Gudalur Vayitri road.

W.	D.E.I.		

The Examiner of P.W. Accounts has disallowed the pay for last month of Mr C Lawrence a Surveyor in the late "C" project division who has been specially selected to act for the Statistical clerk in this Office during the absence of the permanent incumbent on other duty, on the ground that Mr Lawrence has not passed the P.W. code examination. Mr Lawrence who passed in 1876 the taluq overseer's test from the Civil Engineering College has been directed to appear for the next code examination. It
