GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper:—

Report on the working of the District Board, Trichinopoly, for the official year 1885-86.

Act V of 1884, which superseded Act IV of 1871, came into force on 1st April 1885 (*vide* G.O., No. 598, dated 19th March 1885). The present report has been drawn up in accordance with instructions contained in G.O., No. 741 L.F., dated 18th September 1885 (*vide* G.O., No. 452, dated 22nd April 1886).

2. *Receipts (vide Statement I-A).*—The year under review opened with an actual balance of Rs. 27,371 against Rs. 31,570 estimated for in the budget and against Rs. 64,853 in the previous year. The reason for the difference will be found fully explained in the comparative statement accompanying this report.

(1) *Rates and Taxes—(a) Cess on Land.*—The figures in statement No. VII will show that the collections (which include an interest of Rs. 167-3-0) amounted to 92 per cent. of the demand against 72 per cent. in the preceding year. The outstanding balance at the close of the year was Rs. 13,589, of which the old arrears, Rs. 515, relate to years 1882-83, 1883-84 and 1884-85, as shown below:—

	RS.
1882-83	1
1883-84	329
1884-85	185
1885-86	13,074
Total	13,589

STATEMENT showing the Demand, Collection and Balance under Land-cess.

	Demand.			Collection.			Arrears remitted.	Balance.			Percentage of collections to demand.
	Arrears.	Current.	Total.	Arrears.	Current.	Total.		Arrears.	Current.	Total.	
	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	
1884-85 ..	41,046	1,32,036	1,73,082	39,240	85,434	1,24,674	754	1,052	46,602	47,654	72
1885-86 ..	47,654	1,33,143	1,80,797	47,096	1,20,070	1,67,166	42	515	13,074	13,589	92

(b) *Tolls.*—The number of gates at the beginning of the year was eleven, of which gate No. 9 on road No. 11 from Trichinopoly to Karur was not leased out during the year, for the bridge which spanned the Kudumurutty river to the west of the gate collapsed during the floods of 1884 and it was not repaired in the year under report for want of funds. In lieu thereof, however, a toll-bar was established at the Pandamangalam bridge (*vide* G.O., No. 353, dated 22nd June 1885). This and the other gates were leased for an aggregate sum of Rs. 28,695. But gate No. 2 on the road from Trichinopoly to Kumbakonam had in the interim to be resold, because the grand anicut nine miles to the east of the gate has been under repairs by the Public Works Department from 1st October 1885. The original lessee, who did not expect this sudden obstruction to traffic, applied for the cancellation of his lease from that date. The District Board, in consideration of the unexpected loss to the lessee, ordered the resale to take effect from 1st November and remitted the kist due by the first contractor for October 1885. Thus the net demand of the year was Rs. 28,115 which, with the arrears at the beginning of the year (*viz.*, Rs. 2,664), amounted to Rs. 30,784. The tolls collected were half the maximum rates (*vide* Government orders quoted in column 2 of statement No. V).

The collection including arrears was Rs. 28,956-11-4, of which contributions of Rs. 1,000 and Rs. 12,479-5-0 were respectively made to the Srirangam and Trichinopoly Municipalities. The amount credited to Local funds, including the collection at the Iyar bridge (which is credited exclusively to Local funds), was Rs. 15,477-6-4 (*vide* statement No. V). At the close of the year there was an uncollected balance of Rs. 1,827-7-0 due by two defaulters—Rs. 1,550-7-0 by one and Rs. 277 by the other. The latter sum has been since collected. As to the former, there is no danger of the money due being lost as the contractor has already deposited, as security for the payment of the kists due by him, Government promissory notes for Rs. 1,200. Steps have already been taken for the realization of the balance due from him.

(2) *Education*—(a) *School-fees*.—Under this head there is an increase of Rs. 311 over the budget which is due to the item being a fluctuating one.

(c) *Sale-proceeds of Books*.—Fluctuating item.

(e) *Miscellaneous*.—This item represents the unexpended portion of the amount drawn for purchase of elementary books subsequently refunded into the treasury.

(3) *Medical*—(b) *Sale of Medicines*.—The receipts represent the amount realized by the sale of medicine for fever by the Revenue officers.

(e) *Miscellaneous*.—This was the amount of travelling allowance recovered from a hospital assistant for journeys performed by him within a distance of five miles from his head-quarters as per report by the Inspector of Local Fund Accounts, embodied in G.O., No. 831, dated 5th October 1885.

(5) *Miscellaneous*—(a) *Contributions for purposes other than Medical, Education or Works*—(3) *From Private Individuals*.—This was a contribution paid by certain ryots of Musiri taluk for improvement of water-supply in their villages.

(b) *Choultry rents* and (h) *Fish rents*.—There was an increase of Rs. 1,570 over the budget, in which the receipts were under-estimated (*vide* regular estimate for 1885-86 printed in G.O., No. 574 L.F., dated 26th May 1886).

(c) *Market rent*.—The increase was due to the introduction of the fee system in the Samayapuram and Ariyalur markets (*vide* Revenue Board's Proceedings, Nos. 9868, dated 20th October 1884, and 922, dated 19th March 1885).

(d) *Bungalow fees*.—There was a slight decrease under the budget which is due to the transfer of the Kannanur bungalow to the Public Works Department (*vide* G.O., No. 465, dated 13th July 1885).

(e) *Fees and fines*; (g) *Grass rents*.—Fluctuating item.

(j) *Avenues*.—The increase over the budget was due to the sale of a larger number of date-trees than in the previous year.

(k) *Sale of stores*.—The receipts represent the sale-proceeds of old doors, &c., of certain bungalows and chattrams.

(e) *Sundry Receipts*.—The receipts represent the sale-proceeds of sanitation, rubbish and rent of trees in certain bungalows.

(6) *Public Works*—(c) *Sale of old materials*.—The receipts are the amount realized by the sale of old materials belonging to Puduchavadi chattram and to a few other public buildings in charge of the Local Fund Engineer.

(d) *Contribution from (3) Private Individuals*.—This item represents the contribution paid by the villagers of Arumbavur for improving the road from road No. 15 to their village (*vide* G.O., No. 902, dated 20th October 1885).

(f) *Miscellaneous Receipts from the Public Works Department*.—The particulars of receipts from the Public Works Department are given below:—

	RS.	A.	P.
Fish rent	30	4	0
Sale of produce	17	0	0
Total	47	4	0

Receipts from Local Fund Engineer.—The Pachaimalai ghât sub-overseer having lost some tools and plant entrusted to him, the value thereof was recovered from him.

(7) *Contribution from Provincial*.—There is a decrease of Rs. 1,576 under the budget. This is chiefly due to the building grant, taken credit for in the budget, not

having been earned during the year owing to the non-completion of works by the Local Fund Engineer who submitted his estimates late in the year.

(8) *Contribution from Special fund*—(a) *Pound fund*; (b) *Canal and Ferry fund*.—These represent the amount credited from Provincial to Local funds after meeting necessary charges for works and establishment for the year. The receipts are in excess of the budget estimate by Rs. 672—

	RS.
Actuals	10,622
Budget	9,950
Difference	672

3. The total receipts were Rs. 2,16,903 against Rs. 1,79,830 in the budget and Rs. 1,68,141 in the previous year. The increase over the budget was Rs. 37,073 and it chiefly occurs under Land-cess owing to the prompt measures adopted for collection of both arrears and current. The collections under Tolls, School-fees, Markets, Choultries and Fish-rents exceed the estimated figures of the budget (*vide* comparative statement I-A).

4. The total receipts, including the opening balances, amounted to Rs. 2,44,274 against Rs. 2,11,400 in the budget and against Rs. 2,32,994 in the previous year.

5. The following are the purposes to which the funds were allotted (*vide* statement I-B):—

Grant I.—Public Works.

Do. II.—Education.

Do. III.—Medical Services, Vaccination, Sanitation and Public and Charitable Institutions.

Do. IV.—Miscellaneous (establishment, &c.).

6. *Grant I, Public Works* (*vide* Statement No. III)—(a) *New Works*—(1) *Communication*.—The amount expended under this head is Rs. 8,402, out of a total expenditure of Rs. 1,78,025 (excluding the expenditure under Endowment funds). This comes to very nearly 4 per cent. of the total outlay and about 8 per cent. of the outlay on Public Works. This small expenditure, as compared with the previous year, is due to want of funds (*vide* G.O., No. 917 L.F., dated 20th October 1885).

The only new road of importance which was in progress during the year was re-metalling the portion of road No. 4 from the Coleroon gate to Sirathiyur near Lalgudi. Under Village roads (*vide* statement No. IV) the road from Pandamangalam to Perur was extended so as to join road No. 11 at Jeeyapuram by which through traffic to Trichinopoly was opened (*vide* President's letter, No. 528, dated 16th May 1885, read in G.O., No. 353, dated 22nd June 1885). A branch road from road No. 15 to Kunnam in Perambalur taluk was also formed. Under "Petty Construction" some improvements were made in Ariyalur, Thottiam and Kilapalur. Under "Ferry Roads" the road from Kuttalay to Agundacauvery, which remained incomplete last year—*vide* G.O., No. 305, dated 12th June 1885—was completed during the year, and a new road from Mangamapuram to the Coleroon ferry bank was also constructed (*vide* G.O., No. 232, dated 1st June 1885). The construction of a ferry road from Varadarajapuram to Thirunarayanapuram, sanctioned in G.O., No. 307, dated 13th June 1885, was postponed under instructions from the Public Works Department who had to raise the river bank before a road is formed on it.

New Works—(2) *Civil Buildings*.—The dispensary at Lalgudi, which was incomplete last year—*vide* G.O., No. 305, dated 12th

* *Vide* G.O., dated 6th Aug. 1885, No. 572. June 1885—was completed during the
† " " 25th Feb. 1886, " 235. year. Two compound walls to the Lalgudi* and Musiri† dispensaries were erected. The chattram at Puduchavady, which was in ruins, was reconstructed (*vide* G.O., No. 307, dated 13th June 1885). Under Education, a compound-wall with gate, &c., to the school-house at Lalgudi was constructed (*vide* G.O., No. 229, dated 1st June 1885). Estimates were sanctioned for constructing school-houses at Iluppur, Ambil and Jayankondacholapuram provided for in the budget. As it was too late to

carry out the works within the year, no expenditure was incurred on the estimate for Jayankondacholapuram, while in the other two cases work to the value of Rs. 330-2-0

* M.R.Ry. Muthusubboraya Mudaliar Avargal Rao Sahib.

buting a sum of Rs. 125, being half of the estimate (*vide* G.O., No. 744, dated 18th September 1885).

(3) *Miscellaneous Public Improvements*.—A cook-room at Manapalai travellers' bungalow was built for the use of travellers. The other items of expenditure under this head were those of constructing sheds and making other improvements to the markets in charge of the District Board.

(b) *Repairs—Communication*.—The special repairs done were—

(1) Remetalling $4\frac{1}{2}$ miles of road No. 8 (*vide* G.O., No. 305, dated 12th June 1885).

(2) Gravelling the village road from Kilapalur to Aramanakurichi do.

(3) Repairing the floor of the Cauvery and the Coleroon bridges (G.O., No. 406, dated 3rd July 1885).

(4) Repairing the village road from Pandamangalam to Perur.

The completed portions of the roads from Perambalur to Thuraiyur † and Vyamputti to Palaviduthy ‡ were maintained. Under "Petty Repairs," the streets in Jayankondacholapuram, Ariyalur and Udayarpalaiyam were gravelled and a road in Kurumbalur repaired.

† G.O., dated 3rd August 1885, No. 557.

‡ " " 10th July " " 441.

The savings on roads were expended on the repair of apron for the bridge over the Uppar river on road No. 2 and on the removal of the islands in front of it. Breaches in roads, &c., which occurred during the floods of 1884, were closed and paid for. Among others, the Panguny bridge on road No. 3 was repaired (*vide* G.O., No. 256, dated 4th June 1885). The other items of expenditure were the maintenance of existing roads. The total length of the roads maintained during the year was $616\frac{1}{4}$ miles, inclusive of ferry and railway feeder roads.

Condition of Roads.—The roads in Perambalur and Udayarpalaiyam taluks were in a very bad and unsatisfactory condition. The materials delivered on roadsides were not laid out in time owing to the neglect of the Supervisor in charge of the taluks who was not equal to his work and whose services were therefore dispensed with. The President was not apparently satisfied with the work of Mr. Atkinson, the Local Fund Engineer. In one of the Local Fund Engineer's journals of occupation the President has remarked as follows:—

"The more the President sees of the work of the Local Fund Engineering department, both on travelling along the roads and reading the records which came before him as District Magistrate in a recent case, the more he is convinced that closer and more frequent and personal check and supervision is required on the part of the Local Fund Engineer. By far too much seems to be left to subordinates."

The maintenance allotment for road No. 2 was found insufficient to keep it in good order. But the Board could not allot more money for the purpose for want of funds. The expenditure under "Repairs—Communication" was 47 per cent. of the total outlay.

(2) *Repairs—Civil Buildings*.—Thatched verandahs were added to the school-house at Lalgudi (*vide* G.O., No. 590, dated 10th August 1885).

(3) *Repairs—Miscellaneous Public Improvements*.—The number of avenue trees at the beginning of the year was 123,626. The number planted during the year was 4,056. The number that perished during the year was 880; total number of trees at the end of the year was 126,802 (*vide* statement enclosed as per G.O., No. 154, dated 5th February 1886). Rs. 1,481 were spent against an allotment of Rs. 1,500 for maintenance of avenues. The other details of expenditure were repairing market sheds, &c.

(c) *Establishment*.—There is a decrease of Rs. 283 under the budget estimate. This is due to savings effected by the dismissal of an overseer for misconduct. He was convicted by the Deputy Magistrate of Ariyalur of cheating. But the Sessions Judge on appeal quashed the conviction on grounds which did not seem to warrant his reinstatement.

(f) *Contributions to (3) Municipalities*.—Rs. 1,000 was paid to Srirangam Municipality for repairing the road lying between the Cauvery and the Coleroon bridges. For repairing the race-course road and for constructing bathing ghâts at Kudumurutty * bridge near Pandamangalam, Rs. 150 were paid to the Trichinopoly Municipality.

* G.O., dated 18th September 1885, No. 741.

Thus the total expenditure on Public Works, Grant I, amounted to Rs. 1,21,825 against an allotment of Rs. 1,27,335, the expenditure being 65 per cent. of the total outlay.

7. *Grant II, Education*—(a) *Inspection*.—The following statement gives the details of the working of the inspecting schoolmasters:—

Names.	Range.	Time spent in camp.	No. of villages visited.		No. of schools visited and prepared for examination.				Total number of visits paid to all the schools.	Average number of times each school was visited.
			Having schools under inspection.	Not having schools under inspection.	Local Fund schools.	Grant-in-aid schools.	Other schools.	Total.		
G. Rathnam Pillai	Trichinopoly taluk ..	226	242	70	16	89	5	110	362	3 $\frac{1}{2}$
C. Ayacanna Moodely ..	Do. do. ..	70	68	6						
T. S. Narsinga Rao	Kulitalai do. ..	292	210	29	14	48	3	65	210	3 $\frac{1}{2}$
M. Rama Rao	Musiri do. ..	284	100	10	11	68	29	108	260	2 $\frac{1}{2}$

A. Srinivasa Iyer	Udayarpalaiyam taluk.	267	84	23	14	50	19	83	281	3 $\frac{1}{2}$

(b) *Normal Schools*—(1) *Salaries of Masters*.—The only Normal school in the circle is that at Kulitalai. The second master

† District Board's Proceedings, dated 22nd April 1885, No. 123.

got his second † increment of pay with effect from 1st April 1885. As he is an untrained man, the Inspector of Schools

took exception to his retention in the Normal school. Steps have since been taken to transfer him elsewhere.

Stipends of Students.—Twenty-two scholarships, at 4 rupees each, were sanctioned. The students admitted were, with a few exceptions, young men. The Inspector of Schools noted it and instructed the Deputy Inspector of Schools to admit in future only such men who are indigenous masters of existing result schools of long standing.

The following statement shows the strength of the Normal class and the result of its working during the year, as compared with the previous year:—

Years.	Strength.				Result of Special Upper Primary examination.			
	31st March 1885.	No. admitted since.	No. left.	Total remaining.	No. appeared.	No. passed.	No. failed.	Previous occupation of the students.
1884-85	26	37	41	(a) 22	23	* 18	5	(a) Teachers .. 17 Employed .. 4 Manager .. 1
1885-86	22	37	27	(b) 32	21	† 12	9	(b) Teachers .. 24 Pupil-teachers .. 5 Others .. 3
* 1st class			12		† 1st class		9	
2nd „			6		2nd „		3	

(c) *Secondary Schools, Salary System.*—The two middle-class schools are those at Lalgudi and Kulitalai. The following statement shows the working of these institutions as compared with the previous year:—

Schools.	Year.	Lower Primary examination.		Upper Primary examination.		Third-class Comparative.		Lower-fourth Comparative.		Upper-fourth or Middle School examination.	
		No. appeared.	No. passed.	No. appeared.	No. passed.	No. appeared.	No. passed.	No. appeared.	No. passed.	No. appeared.	No. passed.

	1885-86	23	17	23	19	*21	*16	15	10	17	12
Kulitalai	1884-85	..	..	15	14	24	11	17	10	17	10
	1885-86	..	..	24	19	*20	*15	13	12	11	10

* Terminal examination by the Deputy Inspector of Schools.

One set of gymnastic apparatus—*vide* G.O., No. 110, dated 4th May 1885—was supplied to the Lalgudi Middle school. The instructor has been sent up to Madras for training in the Field Games Association. This school was supplied with two tables and one almirah, besides prize and library books.

Prize and library books, a clock, and some furniture were also supplied for the use of the Middle school at Kulitalai as directed by the Director of Public Instruction in his Proceedings, No. 1233, dated 3rd March 1885. This school is held in an old taluk cutcherry building and it was repaired at a cost of Rs. 400 from Provincial funds (*vide* Director's Proceedings, No. 4840, dated 15th July 1885). A sum of Rs. 1,142-15-3, which was at the credit of the institution, was handed over to the Board by the late manager of the school under whose control it formerly was. The amount is deposited in the Savings Bank in favor of the President of the District Board, in view to utilizing the interest accruing thereon for the appointment of a Sanskrit teacher as desired by the manager and the inhabitants of the place. The matter will be noticed in the next report.

(d) *Elementary Schools, Combined System.*—During the year the five schools sanctioned in the budget for 1885-86 were opened and the schools at Angarai, Valadi, Mannachanallur, Suriyur, Manavasi, Kannanur and Aduturai were closed and in their places schools at Kukur, Thiruvallarai, Vengur, Pettaivathalai, Muthappudyanpatti, Siekathambur and Ogalar were newly opened (*vide* budget report, page 14, of G.O., No. 574 L.F., dated 26th May 1886). Thus the number of schools that existed at the close of the year under review was 67 with an attendance of 2,323 pupils against 62 with an attendance of 2,083 in the previous year.

Of these, there are four middle-class schools on the combined system, viz.:—

1. Kátuputúr.
2. Jayankondacholapuram.
3. Udayárpálaiyam.
4. Perambalúr.

No. 1.—The school is reported by the Deputy Inspector of Schools to have done better than last year.

No. 2.—The Deputy Inspector of Schools has reported that the progress made in this school during the year was not satisfactory. The head master has been warned. It may not be out of place here to mention that the strength of the school was falling off because the boys were mostly unable to pay the revised school-fees regularly. This accounts for the middle department not being strong. If the school does not show better results next year (1886-87), it will be converted into an upper primary school.

No. 3.—This school was not as bad as No. 2. The Deputy Inspector of Schools states that the head master did his work creditably. Gymnastic instruction was given to the boys and showed satisfactory results.

No. 4.—This school is reported to have done fairly. It is located in a portion of the old taluk cutcherry building which was handed over to the District Board in G.O., No. 1020, dated 11th September 1885. It is well supplied with furniture.

The following statement shows the total attendance and the result grants earned and drawn by Local Fund schools as compared with the previous year:—

Year.	Number of schools examined.	Number of boys on rolls on 31st March.	Number of boys presented for examination.	Amount of results grant earned.		Amount of results grant paid.		Remarks.
				RS.	A. P.	RS.	A. P.

1885-86	65	2,323	1,163	1,653	14 1	1,425	15 4	

The District Board in their Proceedings, No. 120, dated the 22nd April 1885, thanked the mirasidars, Annasawmi Iyer of Kulamani and Subba Naicker of Tirunelpatti, for the liberality and public spirit evinced by them in providing school accommodation and furniture in their villages.

At Nangapuram an estimate was sanctioned for constructing a school-house and funds were allotted (*vide* G.O., No. 442, dated 10th July 1885). But the work was not carried out during the year as the ryots failed to pay in their contribution.

Other Schools on Elementary System.—These were stated to work well, with the exception of the schools noted in the margin. During the year furniture was supplied to some of the Local Fund schools at a cost of Rs. 223. Statement No. IX shows the cost of each of the Local Fund salary grant and combined

Thuvakudi.

Figures in italics show the number of schools closed.

(e) *Grant-in-aid—(2) Results Grant.*—The following statement shows the number of schools that were examined during the year as compared with the previous year:—

Year.	Number of schools in existence.	Number of schools registered for grant.	Number of schools examined.	Number of boys presented for examination.	Amount earned.	Amount paid.	Remarks.
1884-85	425	298	275	3,242	7,563 14 1	7,756 5 9	{ Arrears Rs. 194-15-8 Current „ 7,561-6-1
1885-86	351	303	288	3,522	9,053 8 10	8,825 0 2	{ Arrears Rs. 43-4-0 Current „ 8,781-12-2

The total expenditure under Grant II was Rs. 29,706, or 16 per cent. of the outlay on general purposes.

8. *Grant III, Medical Service, Vaccination, Sanitation, Public and Charitable Institutions—(a) Hospitals and Dispensaries.*—First-class Hospital Assistants Parthasarathy Mudali and Cooposawmy Naick, who were in charge of the dispensaries at Musiri and Ariyalūr, respectively, were transferred elsewhere by the Surgeon-General on the representation of the late President that they were unpopular. Their places were taken by second-class hospital assistants* (*vide* Surgeon-General's orders, Nos. 92, 104 and 62, of 1885).

* Maduranayagam Pillay for Musiri and Appavu Pillay for Ariyalūr.

Vadabodagam Pillai, a Native Christian, hospital assistant in charge of Lālgudi dispensary, was not in favor with the people. He was, in consequence, transferred at the suggestion of the District Medical and Sanitary officer to Ariyalūr, and the hospital assistant in charge of the latter station was transferred to Lālgudi. Vadabodagam Pillai seems to get on with the people of Ariyalūr and has been since confirmed there. The three hospitals in charge of the Local Fund Board did well under the management of the hospital assistants above referred to. The three dispensaries proved useful and acceptable to the native community. In view of these facts, the late Zemindar of Udayārpālaiyam in a liberal spirit came forward with a subscription of Rs. 3,000 as donation for opening a new dispensary at Udayārpālaiyam which the Government have since sanctioned (*vide* G.O., No. 300, dated the 11th March 1886). Proposals were made to open a dispensary at Thoraiyur, but the Government did not sanction it for want of funds (*vide* G.O., No. 300, dated 11th March 1886). On this the zemindar of that place generously offered to help the Board with a donation of Rs. 2,000. The fact will be noticed in the next report. The want of a dispensary at Perambalūr, where medical aid cannot be had within 20 miles, is much felt. Steps are being taken to open one there in course of time, raising local subscriptions if possible. The dispensary at Ariyalūr is in a rented house. The Rajah Sakaram Rao Sahib of Tanjore expressed his readiness to build one at his expense if the cost would not exceed Rs. 2,000. The result will be noticed in the next report. There is a S.P.G. Mission dispensary at Irungalūr, about ten miles to the north of Trichinopoly. The Local Fund Board paid an annual contribution of Rs. 480 for its maintenance and supplied medicines gratis at a cost of Rs. 190-1-7.

Out-patients are treated in the four dispensaries of the circle, as follows:—

Dispensary.	1884-85.	1885-86.
	RS.	RS.
Musiri	6,277	8,006
Ariyalūr	4,210	6,316
Lālgudi	4,894	5,678
Irungalūr	5,037	5,030
Total	20,418	25,030

The midwife attached to the Musiri dispensary treated 12 cases of delivery during 1885-86 against 17 in the previous year. Statement No. 12 shows the working of the Local Fund hospitals in the circle for 1885-86. The result, as compared with the previous year, shows that the dispensaries are gaining the confidence of the public. The cost of the dispensaries, including the "establishment," "contingencies" and supply of medicines, amounted to Rs. 3,288 against Rs. 3,882 in the budget, leaving a saving of Rs. 594, which chiefly occurred under cost of establishment and value of medicines supplied—

	Actuals.	Budget.
	RS.	RS.
Hospital Assistants	1,292	1,440
Clerks	534	542
Medicines	640	1,000
Contingencies	822	900
Total	3,288	3,882

RS.	RS.
7	3,288
142	8,129
6,000	
1,500	11,417
480	
8,129	

Under (g) Contribution to Medical College, &c., the amount paid was Rs. 8,129 (*vide* entries in the margin). Thus the expenditure under "Medical Services" amounted to 6 per cent. of the outlay on general purposes. The District Medical and Sanitary officer's report prescribed in Revenue Board's Proceedings, No. 3186, dated 23rd October 1883, is enclosed.

(b) *Vaccination.*—Statement No. XIII shows the strength and cost of the vaccine establishment and the number of operations performed in the district during 1885-86. The following result, as compared with the previous year, shows marked improvement in the working of the vaccine staff:—

Years.	Number vaccinated.	Number successful.	Cost per case.	Increase.		Decrease.	
				Vaccinated.	Successful.	Vaccinated.	Successful.
884-85	20,769	19,757	RS. A. P.				
885-86	22,738	22,002	0 2 0	1,969	2,245	..	..
			0 2 6				

The Sanitary Commissioner, Madras, suggested the introduction of animal vaccination in the district, but the measure was not carried out for want of funds (*vide* District Board's Proceedings, No. 21, dated 6th January 1886).

Two vaccinators who operated on more than the minimum number of subjects received a reward of Rs. 19-10-0 (*vide* District Board's Proceedings, No. 42, dated 10th February 1886).

The cost on account of vaccine establishment was 2 per cent. of the outlay on general purposes. The cost of each successful operation was Annas 2-6.

(c) *Sanitation—(1) Improvement of Water-supply.*—The amount spent under this item was Rs. 1,670 against Rs. 2,250 in the budget. Owing to a heavy rainfall the works sanctioned in a few cases had to be postponed.

TRICHINOPOLY TALUK.

A well near the Police station at Manikandam was widened and deepened. The amount of the estimate for the work was Rs. 120, of which the amount paid from Local funds was Rs. 90, the balance having been contributed by the ryots in the form of labor. Around the drinking-water well in Gúdālūr a rough-stone revetment was built at a cost of Rs. 360 from Local funds. At Thachangurichi a drinking-water well for the use of Parayers was sunk. The cost was Rs. 150, of which the ryots contributed Rs. 75. At Lālgudi a drinking-water well was repaired, and a platform was constructed for another well, both of which cost Rs. 100.

MUSIRI TALUK.

A drinking-water well at Nagayanallur was repaired. It was an incomplete work of 1884-85. A drinking-water well at Perakambi was repaired at a cost of Rs. 60.

A similar well intended for the use of Parayers at Nattaramangalam was repaired at a cost of Rs. 53-2-4. Towards this work the ryots paid in cash Rs. 45-0-3.

A drinking-water well at Udayapatty, a hamlet of Kattukulam, was repaired at a cost of Rs. 100, the ryots paying Rs. 50. A drinking-water well at Nakkasalem was sunk. The amount of the estimate was Rs. 85, of which the ryots contributed Rs. 21-4-0 in money and Rs. 23-12-0 in labor.

KULITALAI TALUK.

The silt in the Morekulam drinking-water tank at Manaparai was removed at a cost of Rs. 6 and a well in Pannankombu was repaired, the expenditure being Rs. 152.

PERAMBALUR TALUK.

A drinking-water well at Naduvasal was repaired. The amount of the estimate was Rs. 510. The ryots contributed in labor to the value of Rs. 295.

UDAYARPALAIYAM TALUK.

Two wells on the road No. 15 from Tirumanur to Keelapalur were sunk for the use of the public. Each cost Rs. 100 to the board. At Mettukuppam a tank was repaired. The amount of the estimate was Rs. 126, of which the ryots' contribution in labor was to the value of Rs. 63.

TRICHINOPOLY TALUK.

(2) *Improving Village-site*.—Prickly-pear in four villages—Thuvakudi, Vandalai, Kannakudi, and Thuvankurichi—was removed. The cost to Local Funds was Rs. 188-11-3.

KULITALAI TALUK.

In two villages—Vangacurichi and Sovalur—prickly-pear was removed. The amount of the estimate was Rs. 220. The ryots contributed in labor Rs. 110.

PERAMBALUR TALUK.

Prickly-pear was removed in Perumathur. The Local Fund board paid Rs. 20-11-2, the ryots contributing an equal amount in labor. The unexpended balance, Rs. 179-4-10, was transferred to Udayarpalaiyam taluk as it was not required for expenditure in Perambalur taluk—*vide* District Board's Proceedings, No. 59, dated 11th March 1886.

UDAYARPALAIYAM TALUK.

Prickly-pear in the villages of Karuppur, Madanakurichi, Kovilthampettai, Therkuthampettai, Sholamadevi, Kodali, and Arealur was removed. The amount of the estimate was Rs. 541-5-10. The amount contributed in labor was Rs. 218-15-10. The balance, Rs. 322-6-0, was debited to Local Funds.

(3) *Scavenging Establishment*.—This establishment was maintained in twelve villages. The details are given in statement No. XIV. The expenditure under this item nearly exhausted the allotment.

(5) *Other Sanitary Outlay*.—The particulars of expenditure incurred are given in statement No. XIV.

Under (g), Contribution to municipality, a sum of Rs. 216 and Rs. 164 was paid to the Srirangam Municipality for lighting the Cauvery bridge and for the festival respectively. Thus the total cost under sanitation amounted to 6 per cent. of the outlay on general purposes.

(6) *Cholera*.—This epidemic did not affect the people this time much. It prevailed chiefly in Perambalur and Udayarpalaiyam taluks about the close of the year, and then disappeared. Necessary and timely precautions were adopted. Hospital assistants were sent on cholera duty. Cholera medicines were made available in the tahsildars' and deputy tahsildars' offices and police stations. The revenue inspectors and village munsifs were also supplied with medicines for free distribution. The sanitation of the villages was attended to as carefully as possible. The number of deaths by cholera was 805 against 5,208 in the previous year. There were fewer deaths from small-pox than in the preceding year, viz., 314 against 713.

The health of the people was, on the whole, better than in the year preceding.

(d) *Markets*.—(1) *Establishment*.—The establishments of the Musiri and Manapparai markets were dispensed with temporarily from 1st October 1885 in view to giving the renting system a trial. A gumastah on Rs. 6 per mensem was appointed with effect from the above date for the markets at Puthanatham and Thuvankurichi—*vide* G.O., No. 790, dated 24th September 1885.

A gumastah on Rs. 7 and a sweeper on Rs. 3 per mensem were appointed during the year for the Samayapuram market with effect from 1st April 1885—*vide* G.O., No. 85, dated 29th April 1885.

For the Ariyalur market two gumastahs, one on Rs. 7 and another on Rs. 10, and two sweepers on Rs. 3 each were sanctioned in G.O., No. 258, dated the 5th June 1885. Of these, a gumastah on Rs. 10 and a sweeper on Rs. 3 were entertained from 1st July 1885.

(2) *Contingencies*.—In printing tickets of different kinds required for the use of the markets, it was at first arranged to get them consecutively numbered. The printing establishment charged separately for this additional labor which cost the board a good deal, and in consequence the allotment had to be raised from Rs. 400 to Rs. 1,360; yet the expenditure was in excess of the allotment by Rs. 138.

(e) *Choultries*.—The number of choultries under the control of the Local Fund board was 19. In the choultry at Kalpatty, travellers are being fed. Their number during the year was 1,444. Statement No. 11 shows the receipts and charges of each choultry in the circle.

(f) *Bungalows*.—The bungalow at Kannanur having been transferred to the Public Works Department on 1st August 1885, the services of the sweeper attached to it were dispensed with from that date.

In Manavasi a sweeper was appointed by the board so far back as 1880. But he did not receive any remuneration. He petitioned on the subject, and on the late President's recommendation, Government sanctioned, with retrospective effect, the payment at Rs. 2 a month from 22nd August 1880, and reduced his monthly pay from 2 to 1 rupee from 1st April 1885—*vide* G.O., No. 465, dated 13th July 1885.

With the exception of the bungalows noted below, the others (*vide* statement No. XI) were stated to be in good order. Steps will be taken to put in order those that are out of repairs:—

Samayapuram in Trichinopoly taluk.
Thuvankurichi and Kovilpatti in Kulitalai taluk.

(g) *Contribution to—*

(1) *Provincial Services*.

(1) *Medical College*.

(2) *Sanitary Inspection*.

(3) *Medical Reserve Staff*.

The allotments sanctioned in the budget were not credited to Provincial funds, as necessary intimation from the Accountant-General for adjustment was not received within the year.

(5) *Lunatics*.—The amount paid was on account of two lunatics, inhabitants of this district and under treatment in the Madras Lunatic Asylum.

The total expenditure under Grant III was Rs. 29,567, or 16 per cent. of the total outlay.

9. *Grant IV—(b) Establishment in the Collector's Office*.—This includes the pay of an accountant on Rs. 35 and an auditor on Rs. 58-5-4 per mensem. Prior to April 1885, the auditor performed his duties in Local Fund Board's office under the control of the President, but under orders of Government, No. 514, Financial Department, dated 10th March 1885, he was transferred to the treasury department from 1st April 1885.

(c) *Local Fund Board's Office Establishment*.—The establishment was revised in G.O., No. 4, dated 9th April 1885—*vide* regular estimate, 1885-86.

(e) *Pensions*.—There is a decrease of Rs. 51 under the estimate. A sub-overseer on a salary of Rs. 60 in the Public Works Department was, on the abolition of his appointment, pensioned and re-employed by the district board as overseer. His present pay and pension being in excess of what he drew before being pensioned, he was requested to refund the amount overdrawn by him as per instructions from the Accountant-General. But, as the matter is under consideration by the board, the payment of pension was withheld by the Accountant-General.

(f) *Refunds*.—The increase over the estimate is due to the refund to the zemindar of Udayarpalaiyam of the excess amount of road cess Rs. 467 collected from him. The expenditure under Grant IV was Rs. 4,837 or 3 per cent. of the total outlay.

10. *Members of the District Board*.—The number of the members of the district board at the beginning of the year was 20. Of these, 10 were officials and an equal number of non-officials. Under Act V of 1884 the number of officials excluding the President must not exceed one-fourth of the whole number. Hence the following officers were asked to resign their seats on the board.

- (1) Colonel H. R. Mead, R.E., Superintending Engineer, VI Circle.
- (2) Colonel H. S. Court, Superintendent of Police.
- (3) Inspector of Schools, Sixth Division.
- (4) Deputy Inspector of Schools, North Range.

The number of non-officials was raised to 22—*vide* G.O., No. 452 L.F., dated 13th July 1885. Statement No. XVI shows the names of members, the number of meetings held, and the attendance of each member.

Out of 25 meetings held during the year, the members noted below attended not more than 3 meetings. Nos. 1 and 5 have since resigned:—

Names.	No. of meetings attended.
(1) M.R.Ry. Chedambara Reddiar Avargal	3
(2) „ Veeraraghava Iyengar Avargal	3
(3) „ Varada Iyengar Avargal	2
(4) „ Virudachella Reddiar Avargal	2
(5) „ Sivarama Iyer Avargal	1

11. In August 1885 Mr. H. R. Farmer took charge of the district from Mr. H. Sewell who had been President for ten years. The district board have, in their Proceedings, No. 257, dated 12th August 1885, recorded their appreciation of his services—*vide* this office No. 977, dated 18th August 1885, to Government.

The following is the abstract of receipts and charges of Local Funds during the year 1885-86, as compared with the budget for that year:—

Particulars.	Budget grant, 1885-86.			Actuals, 1885-86.			Difference.

President.

ENCLOSURES.

PROCEEDINGS of the District Board, Trichinopoly, at a meeting held on Friday, the 16th July 1886.

Proceedings, No. 198 of 1886.

Read draft annual report on the working of the District Board, Trichinopoly, for 1885-86.

Resolution.—Passed.

(Signed) P. RAJAGOPALA CHARI,
Presiding Member.

16th July 1886.

CONCISE REPORT of Local Fund Dispensaries in the District of Trichinopoly for the Official Year 1885-86.

MUSIRI.

Season and Weather.—It is a 2nd-class Local Fund dispensary. The town is situated on high ground on the left bank of the river Cauvery, some 30 feet above the bed of the river.

The amount of rainfall during the year was 34 inches and the average temperature was 93°. The water-supply is obtained from the river Cauvery and the quality is good.

Cholera.—There has not been a single case reported under this head since last report.

Sanitation.—The arrangements under this head work satisfactorily.

Hospital Building.—There has been no alteration made since last report. It consists of three rooms—one for dispensing, one for stores, and the third for consulting.

Principal Diseases.—The most common diseases treated during the year were ague, rheumatic and syphilitic affections, ophthalmia, nervous affections, inflammation of the external ear, respiratory affections, bowel-complaints, abscess, boil, ulcer, skin-diseases, and general debility. Eight thousand and six out-door patients were treated during the year against 6,277 in the previous year.

Operation.—Four hundred and forty minor operations were performed during the year against 361 in the previous year.

Lying-in Wards.—There is no accommodation for in-patients, but twelve cases of labor were attended by the midwife outside the hospital.

General Remarks.—The hospital is under the control of the District Board, Trichinopoly, and all matters connected with the institution are discussed and passed at meetings held in Trichinopoly once in 15 days.

Vaccination.—Fifty cases were vaccinated by the medical subordinate attached against 88 in the previous year.

IRUNGALUR.

A 2nd-class dispensary, belonging to S.P.G. Mission, aided by the District Board, Trichinopoly. It is under the supervision of the District Surgeon.

Sanitation.—The sanitary condition of the place during the year was satisfactory.

Water-supply.—Well water is used for drinking purposes.

Cholera.—There was no cholera in the town during the year under report.

Diseases.—The most common diseases treated during the year were febricula, ague, rheumatism, ophthalmia, diarrhoea, general debility, injuries and ulcers. The total number of patients treated during the year was 5,030 against 5,037 in the previous year.

Operations.—One major and 361 minor operations were performed during the year against 1 major and 177 minor operations in the previous year.

Vaccination.—Seventy-seven cases were vaccinated by the medical subordinate attached during the year against 68 in the previous year.

LALGUDI.

Is a 2nd-class dispensary maintained by the District Board, Trichinopoly.

Cholera.—Seven cases were reported during the year, all of them recovered under treatment by the medical subordinate.

Sanitation.—The sanitation is well attended to, and the establishment seems to work satisfactorily.

Hospital Building.—The dispensary has been removed from the police cutcherry to the building erected for the purpose. It has no accommodation for in-patients. Due attention has been paid towards every recommendation made by me at my inspections.

Diseases.—The principal diseases treated during the year were ulcers, itch, ophthalmia, rheumatic affections and injuries. Five thousand six hundred and seventy-eight out-patients were treated during the year against 4,933 in the previous year.

Operations.—Two hundred and thirty-seven minor operations were performed during the year against 2 major and 124 minor operations in the previous year.

Lying-in Wards.—There is no accommodation for lying-in cases.

Vaccination.—Twenty-three cases were vaccinated by the medical subordinate attached during the year against 57 in the previous year.

ARIYALUR.

This is a 2nd-class dispensary. The dispensary is still in a hired building as reported in last year's report. It is intended for out-door patients only.

Diseases.—The most common diseases treated during the year were fever, rheumatism, conjunctivitis, ulcer, boil, scabies, otitis, bowel-complaints, injuries and anaemia. The number of out-door patients treated during the year was 6,316 against 4,210 in the previous year.

Operations.—Two major and 380 minor operations were performed during the year against 1 major and 153 minor operations in the previous year.

Cholera.—Twenty-seven cases of cholera were reported from the neighbouring villages.

The weather was very fair. Water-supply from a rain-fed tank sufficient, except during the hot weather. The sanitary condition of the town is fair.

STATEMENT showing the number of Patients treated in the District Board Dispensaries, Trichinopoly, during the Official Year 1885-86.

TRICHINOPOLY,
30th April 1886.

(Signed) H. HYDE, Surgeon-Major,
Ag. District Medical and Sanitary Officer.

No. 952.

Submitted to the Chief Secretary to Government with the report of the sub-committee accompanied by necessary statements, of which No. XV will follow.

TRICHINOPOLY,
24th July 1886.

(Signed) H. R. FARMER,
President.

ORDER—dated 10th September 1886, No. 1113 L.F., Financial.

The receipts and charges of the District Board of Trichinopoly for 1885-86 are compared below with the estimate of the year and the actuals of 1884-85:—

RECEIPTS.

	Actuals, 1884-85.	Estimate, 1885-86.	Actuals, 1885-86.

-------------------	----------	----------	----------

2. The closing balance of 1884-85, exclusive of debt heads, as shown in the statement furnished by the Accountant-General for that year, should have been adopted as the opening balance for 1885-86. In Statement I-A, the receipts from tolls levied by the district board should have been shown against the head "Under Act V of 1884," and not against "Contributions from municipalities." The receipts from choultry and fishery rents are shown in Statement I-A as Rs. 3,046 and Rs. 3,704, but the amounts given in Statement VIII are Rs. 3,047 and Rs. 3,706, respectively. Contributions from Provincial funds on account of education are also shown as Rs. 2,214, whereas, according to Statement IX, the amount is Rs. 2,244. These discrepancies should be explained. In Statement VIII, the balance remaining uncollected under Tolls at the end of the year is erroneously given as Rs. 13,650-12-6, instead of Rs. 1,047-0-10.

3. In Statement I-B, the outlay on "New Works—Miscellaneous Public Improvements" is shown as Rs. 1,075, but the amount given in Statement III is Rs. 1,200. The difference, Rs. 125, being the contribution paid from Local funds to the Trichinopoly Municipality for the construction of bathing ghats in the Kodamuritty river, should not have been included in Statement III. The cost of medicines and surgical instruments should have been shown under Contributions to Provincial Funds, with reference to G.O., dated 12th December 1885, No. 1208 L.F., and not under Hospitals and Dispensaries. In Statement IV, the number of miles of road in the district at the

beginning of the year is given as 578½, but according to the statement submitted with the President's letter, dated 4th November 1885, No. 1275, it was 594¼. The difference should be explained.

4. The attention of the Accountant-General is drawn to paragraph 8 (g) of the report, and he is requested to cause the necessary adjustments to be made without delay.

(True Extract.)

John R. R. R.
for Chief Secretary.

To the President, District Board, of the
 " Accountant-General.
