Sir

I have the honor to forward for your orders an application from the Workshop Establishment to have their services treated as permanent.

2. The Workshop Establishment has always been treated as Temporary, and personally I see no reason why this should now be altered; they say however that Colonel Hasted held out some hope that the alteration would be carried out, and they quote the Dowlaiswaram Workshop in support of their claim.

3. No doubt it would be to the advantage of the Establishment to have pensions to look forward to, but I can adduce no argument in favor of abolishing an arrangement that is of long standing and was doubtless adopted after full consideration of the circumstances.

4. The utmost I feel disposed to

recommend, is that the men who have done meri-
-torious service in the Workshops may have their
individual claims considered and at present this
applies only to G. Sitaramiah, the accountant who
has for 17 years been in the Workshops Office and
has always done well.

5. He, I think, deserves, if it could be
arranged to get some permanent post, but the
others have very little service and draw very
good pay in consideration of their not being
entitled to pension, I cannot support their appli-
-cation.

Sir

I have the honor to forward for the consider-
ation of Government a petition submitted to the Execu-
-tive Engineer from the Workshop Establishment at
Bezwada soliciting the Government to consider the
services of the permanently employed clerks &c as
deserving of pension &c.

2. The Executive Engineer Eastern Division
(a copy of his letter is enclosed) does not support the
petitioners' application. Personally I am doubtful as
to how far it is necessary to confer pensions on work-
-men such as Carpenter Maistries &c; but am
inclined to think that the Office Establishment might
have the same benefits conferred upon them as they
would enjoy had they been appointed to an ordinary
Divisional Office.

3. As however the Workshops of Madras
and Dowlaiswaram have had extended to them

the benefits of the Uncovenanted Civil Service Pension Rules, it seems somewhat invidious that the employés of the Bezvada Workshop should not enjoy the same rules.
