GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

7th December 1882, No. 6575.

Prisoners.

Read the following paper :—

No. 52. *From Brigadier-General GODFREY CLERK, Adjutant-General, to Colonel E. L. HANKIN, Acting Secretary to Government, Military Department; dated Fort St. George, 28th November* 1882, *No.* 594.

With reference to Proceedings of Government, No. 4138 of the 5th August last, I am desired to submit the following suggestions with regard to the increase of military prison accommodation in this Presidency for the consideration of Government.

2. The arguments in support of soldiers undergoing sentences awarded by courts martial in military prisons, as also the reason for increasing the present military prison accommodation, are given in letter No. 2605-D., of the 1st July last, from the Adjutant-General in India to the Government of India, Military Department, recorded in the Proceedings of Government under reference, and need not, therefore, be repeated here, as they hold good equally for this Presidency as for Bengal.

3. In this Presidency the military prison accommodation is—

To Government of India, No. 6268, dated 20th November 1882.

	Cells.
Trimulgherry military prison...	62
Bangalore „ „	22
Fort St. George military prison	14
	98
This will be further increased when the sanction of the Governor-General has been received for the eight new cells in Fort St. George to form part of the military prison	8
Giving a total available in the Presidency of ...	106

4. Not including men undergoing short sentences (forty-two days' imprisonment hard labor and under) whose sentences might still be carried out in garrison or regimental cells, there were, on the 1st August last, 151* soldiers under sentence of courts martial confined, some in the military prisons, some in garrison cells, and some in the three "authorized prisons"—the Madras Penitentiary, the Rangoon Jail, and the Ootacamund Jail.

---

* About 1½ per cent. of strength.

5. The above shows that on the date mentioned there were 45 military prisoners under sentence of court martial for whom there was no accommodation in the military prisons, and to remedy this the Commander-in-Chief would recommend that—

(1) A military prison should be built at Rangoon for the accommodation of military prisoners belonging to the British force serving in Burmah.

(2) That the present accommodation in the Bangalore military prison should be increased.

6. With regard to (1) His Excellency considers that a military prison for Burmah is most essential for the due maintenance of discipline.

At present soldiers under sentence by court martial are imprisoned in the Rangoon Jail. And in regard to the system which obtains in this jail a commanding officer recently reported that he did not consider it sufficiently deterrent to judge by the number of re-committals which occurred among the men of the battalion under his command.

7. Sir Frederick Roberts would therefore recommend that a military prison, to accommodate forty prisoners, with requisite subsidiary buildings, should be at once built at Rangoon.

8. The returns show that, on the 1st August last, about 1½ per cent. of the British Army in this Presidency were in confinement undergoing court martial sentences.

Forty prisoners would be rather in excess of this percentage as regards the British Force in Burmah, but as that force is liable to be increased at any time, the Commander-in-Chief considers it would be not only desirable that the accommodation provided in the first instance should be rather above present probable requirements, but also that the site for the prison should be chosen, and the building itself planned, in view to an increase of accommodation, at a future time, being possible without any great cost.

9. The General Officer Commanding Burmah Division has already, I am to say, been directed by the Quartermaster-General to report on the best site available for a military prison at Rangoon.

10. With regard to (2) His Excellency would recommend that the Bangalore military prison be increased by ten cells.

It would, Sir Frederick Roberts considers, be preferable to add to the Bangalore military prison rather than to those at Fort St. George or Trimulgherry, as the former prison could then receive prisoners from Burmah or Madras, who, on medical grounds, had to be moved to cooler climates, and this would, it is hoped, in time, obviate the necessity of sending military prisoners to the Ootacamund Jail on account of health.

11. If the above recommendations are sanctioned, the military prison accommodation in the Presidency would be—

	Cells.
Trimulgherry	62
Bangalore	32
Fort St. George	22
Rangoon	40
	156

or five in excess of the number of soldiers who were undergoing court martial sentences on the 1st August last. And this number of cells distributed as above would, it is considered, meet the requirements of this Presidency and admit of all soldiers under sentence by court martial carrying out such sentences under the discipline and rules of a properly ordered military prison.

No. 53. ORDER THEREON, 7th December 1882, No. 6575.

The Right Honorable the Governor in Council accepts the recommendations of His Excellency the Commander-in-Chief contained in the foregoing letter for increasing the military prison accommodation in this Presidency, in view to effect being given to the proposed partial substitution, in the case of British soldiers, of imprisonment with hard labor in this country for sentences of penal servitude.

2. The necessary action will be taken in the Public Works Department for providing ten additional cells, as early as practicable, in the Bangalore military prison.

3. The Government of India will be addressed on the subject of the proposed military prison at Rangoon.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works. & Military

ORDER—dated 21st February 1884, No. 483 W., Public Works.

In modification of the practice at present followed with regard to the submission of plans and estimates for buildings required by other departments, the Government direct that the following procedure be invariably adopted in future.

2. Plans and estimates for buildings required by the Revenue Department should be submitted by the Executive Engineer to the Superintending Engineer, who, after scrutiny, will forward them to the Collector of the district for approval and countersignature. If the Collector be satisfied as to the suitableness of the proposed accommodation, &c., he will transmit the papers through the Board of Revenue to Government in the Revenue Department, by whom, if approved, they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

3. In the case of plans and estimates for court-houses, the documents will be forwarded by the Superintending Engineer to the District Judge for transmission, through the High Court, to Government in the Judicial Department, and the same principle will be followed with regard to estimates for Registration, Police, Jail, and other Civil Departments. The Superintending Engineer will forward the documents to the Head of the Department concerned, who will submit them to Government in the Department of the Secretariat from which he receives his orders.

4. The course at present adopted with regard to estimates for Military buildings is laid down in G.O., No. 1381 W., dated 14th June 1880, but here also a modification of practice appears desirable. In future such plans and estimates will be forwarded by Superintending Engineers for approval to the General Officer Commanding the District or Division. The General Officer will transmit the papers to the Quartermaster-General, who,* after obtaining the approval of His Excellency the Commander-in-Chief, will submit them direct to Government in the Military Department. After approval in the Military Department they will be transferred to the Public Works Department for disposal, after final scrutiny by the Chief Engineer.

5. It must be understood that these orders apply only to works which are beyond the power of sanction of local authorities, and are not intended to alter the procedure laid down in G.O., No. 3211 W., dated 6th December 1882, with regard to the submission of Local Fund projects.

---

* NOTE.—In the case of Ordnance, Commissariat or other departmental buildings, the approval of the head of the department should be obtained before the plans and estimates are submitted to His Excellency the Commander-in-Chief.

6. The Secretary, Code Committee, will take the necessary steps for embodying these rules in the Public Works Code, in modification of paragraphs 1168 and 1335.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 28th March 1884, No. 4527.

In returning the enclosures of your memorandum, No. 754 C., dated 26th instant, I have the honor to explain that the estimate of Rs. 5,300, sanctioned in G.O., No. 3385 W., dated 27th November 1883, is for quarters for the apothecary of the north station hospital at Bangalore. The enclosed estimate of Rs 4,773 is for quarters for the assistant apothecary of the same hospital. The necessity of providing quarters for both an apothecary and an assistant apothecary is shown in paragraph 3 of the Quartermaster-General's letter in G.O., No. 3218 W., dated 13th November 1883.

1 Letter No. 1729, dated 15th March 1884, from Quartermaster-General to Secretary to Government, Military Department.
2 Detailed estimates.
4 Abstract estimates.
2 Plans.
2 Reports.

Note by the Chief Engineer, Public Works Department.

The plans and estimates are submitted for the sanction of Government.

2. With regard to the assistant apothecary's quarters, it is suggested that the window at A on the plan be moved to centre of the main room, and that the kitchen be placed in front, and the servants' rooms in rear, in the small block of out-houses.

Letter No. 1314

Dated the 17th March/84

From the Mil. Secy. to Govt.

NOTE OF REMARKS.

1. This estimate, with plan, provides for certain "Additions to the Military Prison at Bangalore". The estimated cost is Rs. 8,325.

2. The proposed work is to construct 10 additional cells, to increase the accommodation for the warder, and to convert the workshed into a cook house, store room, and latrine. The 10 new cells are to accord in all respects with those already built, and their cost is set down at Rs. 6,187. The warder's accommodation is to be increased by a small room (19'x8') with an end verandah, at a cost of Rs. 737. The

work-shed is to be so altered as to serve for cook room, store room and latrine. This arrangement is, no doubt, the best circumstances will permit. The cost of the alteration is Rs. 822. The amount allotted to each section of work above does not include contingencies &c.

3. The plan and estimate have been countersigned by the Dy. Qr. Mr. Genl.

From the S.E. V Circle

938W

NOTE OF REMARKS.

1. In answer to W's memo. No. 754 C of the 26th March/84 S.E. explains that the estimate, Rs. 5,300, sanctioned in G.O. No 3385W of the 27th Nov. 1883 is for the Apothecary's quarters, North Station Hospital, Bangalore, while the estimate under reference, Rs. 4,773, is for Quarters for the Asst. Apothecary attached to the same hospital. The error arose from the Dy. Qr. Mr. Genl's letter No. 1729 of the 15th March/84, which stated that the latter was submitted in supersession of the former estimate.

2. Subject to approval,

DW 1/4/84

the design for the dwelling house both as to convenience inside and outward appearance is very faulty. The 'front elevation' shows the façade — one third being dead wall. The gables run with the length of the building, and this must detract much from its general appearance — more especially on the side to the right, where the blank space of dead wall is unbroken by door or window. It may be seen from the plan the arrangement of outoffices is defective — the privy and cookroom are in awkward proximity. The details of masonry and the scantlings of timbers are correct.

3. Would not a building based on the standard plan No. — of the 29th Oct./58 better meet the requirements of the present case? — The plan being modified if necessary. The outoffices of the plan submitted may be accepted by altering the relative position of latrine and cookroom.

4. The plan and estimate have been countersigned by the Dy. Qr. Mr. Genl.

Budget Clerk.

W.

In according sanction to the accompanying Estimate of Rs. 4.773 for an Assist. Apothecary's Quarters at Bangalore would it not be well to advise the S.E. to put in a window in side wall of main room, which otherwise will have insufficient light & air, & to shift window I have marked A from its entirely useless position to B?

Also to place the cook-room in front & servants rooms back, in small block of godowns. This for obvious reasons.

I am aware S.E.s have the power of dealing finally with these works, so far as designs, rates, &c go, and therefore this Office is not supposed to interfere with such details as above — but, when there are palpable improvements evident, I presume they may be adverted to.

C.S.
2.4.84

I think it will be sufficient to suggest that the window at A be moved to centre of the main room.

Also that the kitchen be moved, as suggested.

Entd in Recpt Regtr

9th April 1885, No. 861 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following letter from D. C. GORDON, Esq., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 31st March 1885, No. 141 W.:—

With reference to G.O. No. 736 W., dated 24th March 1885, I have the honor to request that I may be favored with the views of Government in regard to the procedure to be adopted when buildings are hired for the use of the Military Department.

2. It has been the practice hitherto to communicate sanction for the hire of private buildings to this office, in the form herewith enclosed (which please return), but I doubt whether this need be done in future, or whether any sanction of Government to the hiring of private buildings is necessary except in extraordinary or ultra-routine cases.

3. Under code paragraph 1221, Executive Engineers are prohibited from paying for hired premises unless under sanction of Government except in cases of buildings required for military purposes. Under code paragraph 1396 A. *et seq.*, the department is not only authorised, but required, to hire accommodation when necessary, and though the paragraph states that this is to be done "under the orders of Government" and with "previous sanction," I doubt whether such order or sanction is intended to be given in all ordinary and routine cases. Outside of the buildings which come under paragraphs 1419 and 1420, accommodation required from this department is laid down in paragraph 1463, and inasmuch as it is so laid down, it seems to me superfluous to require any further order or sanction for its provision, even by hire of private buildings.

4. If accommodation *must* be furnished, this department cannot well be limited as to the rent payable for private buildings, though it would obviously endeavour to pay no more than the compensation scale.

5. Under the orders communicated with G.O. No. 736 in question, no accommodation can now be engaged by the Military Department. Forms of notice, such as that enclosed, may perhaps be necessary for the Executive Engineers concerned, as a warrant for the rank of person for whom accommodation is required, but not for this office, which would audit the rent or the compensation with reference to the eligibility of the person to quarters, the Executive Engineer being responsible for the provision of quarters.

6. The points on which I request information are—

(1) Whether any special order of Government is necessary to the hiring of accommodation, when a general order is laid down stating the accommodation that this department is required to provide, and the ranks to be accommodated.

(2) Whether in cases in which the rent to be paid by the department exceeds the amount of rent (or compensation) fixed for rank sanction of Government is to be obtained previous to the quarters being hired.

(3) If sanction is necessary in either or both of the above, whether such sanction is to be given in the Military Department or in the Public Works Department.

ORDER—dated 9th April 1885, No. 861 W., Public Works.

The Examiner is informed that no special orders of Government are necessary for hiring accommodation admissible under code rules.

2. The rent to be paid will be settled by the Executive Engineer in each case; but the prior sanction of Government should be obtained when the rent proposed exceeds the authorised scale. Such sanctions will issue from the Public Works Department.
