No. 26

To

The Superintending Engineer
IV Circle
Coimbatore

Sir,

In the Statement of Surrenders and Demands just submitted it will be observed that I have included among the Provincial Civil Buildings, Major C. works a demand for Rs 10,000 for the Collector's Cutcherry in Calicut, which I have the honor now to explain.

The original estimate for the Cutcherry was submitted in No 567 dated 20 October 1885 and the Government in their Order No 3171W 21-12-86 remarked that it was probably possible to reduce the amount of the estimate to about 1 3/4 lakhs by following certain suggestions made, and that in that case it would receive their

their Sanction.

Considerable modification have now been suggested by the Collector and the estimate, by adopting these, can certainly be reduced to the stipulated sum.

By the time the new design can be made, drawn out and estimated for (my drawing establishment being very limited) and it has gone through all the usual channels up to Government for sanction, the Official year will be very near its close. Besides this, in the meantime the Collector represents that the value of land in Calicut is rapidly rising, almost daily, on account of the Railway Extension.

Under these circumstances I request that Government may be moved to Sanction the amount as a special case for the purchase of the site the cost of which will be enhanced by every week's delay.

I have the honor to be
Sir
Your most Obedient Servant.
