18TH NOVEMBER 1884, No. 2876 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ – the following letter from Surgeon-Major H. D. COOK, M.B., Superintendent, Lunatic Asylum, to the Secretary to the Surgeon-General with the Government of Madras, dated Calicut, 21st October 1884, No. 136 :—

I have the honor to forward a true copy of letter from the Superintending Engineer, IV Circle, forwarding plans and estimates for providing additional accommodation for this asylum.

2. I trust the work may be carried out without delay as patients are gradually increasing.

ENCLOSURE.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Superintendent, Lunatic Asylum, Calicut, dated Coimbatore, 9th October 1884, No. 332 M.

With reference to G.O., No. 3361, of 23rd November 1883, I have the honor to forward, for transmission to Government for sanction, if approved by the Surgeon-General with the Government of Madras, two plans and an estimate, amounting to Rs. 10,346, for providing additional accommodation in the Lunatic Asylum at Calicut.

1 Site plan.
1 Plan.
1 Report.
1 Specification.

1 Estimate, detailed.
2 Abstract estimates.
1 Estimate.
1 Plan.

2. A site plan, report and specification are herewith enclosed.

No. 251.

Forwarded to the Chief Secretary for the favorable consideration of Government.

FORT ST. GEORGE,
3rd November 1884.

(Signed) W. R. CORNISH,
Surgeon-General with the Govt. of Madras.

No. 2506, Judicial.

Approved and transferred to the Public Works Department, in continuation of endorsement, dated 21st November 1883, No. 2248.

(By Order.)

11th November 1884.

(Signed) M. HAMMICK,
Acting Assistant Secretary.

Order—dated 18th November 1884, No. 2876 W., Public Works.

The estimate, amounting to Rs. 10,346, for providing additional accommodation at the Lunatic Asylum at Calicut, is sanctioned for entry in the Provincial Budget for 1885-86.

2. This sanction has been registered as Provincial No. 198 W. of 1884-85, and classified as Civil Buildings, Original Works.

(True Extract.)

(Signed) J. SHAW-STEWART, Colonel, R.E.,
Secretary to Govt., P.W.D.

To the Superintending Engineer, IV Circle, with eight enclosures.
" Examiner, Public Works Accounts, with duplicate abstract estimate.

Order—dated 29th May 1885, No. 1253 W., Public Works.

In the resolution embodied in the proceedings above quoted, the Government of India point out the necessity for curtailing expenditure from Provincial funds, and a report is called for showing what reductions of grants are possible.

2. The statement annexed to these proceedings, compiled from reports received from Superintending Engineers, shows that, out of the allotments provided in the budget for new works, a sum of Rs. 2,91,053 is available for surrender. This statement will be communicated to the Financial Department, and, until receipt of further orders, Superintending Engineers will see that no expenditure is incurred on the works detailed therein.

3. The reserve with Government for incomplete and minor works, and for unforeseen contingencies, amounts to the comparatively small sum of Rs. 1,18,930; and the amount reserved for repairs is Rs. 2,24,175. It is not probable that any surrender will be feasible under the above heads; but should any reduction be found possible, a further report will be made to the Financial Department.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

Read—the following paper:—

From the Surgeon-General with the Government of Madras, dated Coonoor, 21st August 1885, No. O.-349.

Order—dated 5th September 1885, No. 2371, Judicial.

With the above letter the Surgeon-General with the Government of Madras submits the annual report on the Lunatic Asylums of this Presidency for the year 1884-85.

2. In the following table the results in these institutions for the year under report are compared with those of the two preceding years:—

—	1882-83.			1883-84.			1884-85.		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
Remaining at end of previous year.	291	106	397	317	117	434	369	124	493
Admitted	168	52	220	170	48	218	161	53	214
Deduct—									
Died	35	8	43	19	5	24	21	14	35
Cured	43	23	66	75	23	98	75	15	91
Transferred to friends	43	9	52	20	9	29	26	7	33
Otherwise	21	1	22	4	4	8	5	0	5
Remaining at end of year	317	117	434	369	124	493	403	140	543
Daily average strength	314·17	109·35	424·02	353·22	121·95	475·17	383·32	137·71	521·03
Do. do. sick	14·05	6·83	20·58	12·89	6·12	19·01	13·07	5·09	18·16

These figures show plainly that the lunatic population to be accommodated in the three asylums of the presidency increases every year. The number of admissions has indeed hardly varied during the three years, but the number of patients who are discharged or who die does not keep pace with the number admitted. The figures in the margin show the percentage which the increase during each of the last four years bore to the annual admissions, so that taking an average, every 100 admissions raise the population at the end of the year by 21. With an admission rate of over 200 per annum, it is clear that the existing accommodation will soon be fully occupied. A temporary relief has recently been afforded in the case of the Madras Asylum by a slight curtailment of the space allowed per inmate. The Public Works department will be requested to construct the additional buildings already sanctioned for the Calicut Asylum, as soon as funds can be made available.

1881-82	19
1882-83	16
1883-84	23
1884-85	27

L6. 2896 W
18-11-84

3. The average daily number of lunatics in the asylums during the year was 521 against 475 in 1883-84. Of these, 105 were criminal lunatics.

4. The following statement shows the forms of lunacy prevailing :—

Acute mania	161
Chronic mania	296
Melancholia	90
Acute dementia	42
Chronic dementia	65
Paralysis of the insane	1
Congenital idiotcy	19
Do. imbecility	6
Puerperal mania	2
Others	25

The increases occur almost entirely under Acute mania and Melancholia, the figures under the other heads showing little alteration. It is observed that in the table of "Moral causes," next after "Religion," appears a heading "Infidelity," to which two cases are ascribed. The heading is very vague, for it appears from former reports that the supposed cause of insanity thus referred to is infidelity *of a wife*. A similarly incorrect heading is noticed to statement IV in the appendix, which at present runs : "Table showing the occupation of several patients during 1884-85." It is evident that what the table is intended to show is the *previous* occupations of the patients *admitted* during 1884-85. A little additional care would prevent the occurrence of such inaccuracies.

1882-83	30·00
1883-84	44·95
1884-85	42·52

5. The percentage of recoveries to admissions during the last three years is given in the margin. Although lower than in 1883-84, the number of recoveries during the year under report was still satisfactory. As usual, the highest ratio of recoveries was to be found among patients suffering from acute mania, while chronic dementia appears to be the least hopeful form of disease. The report does not mention the ages of those who recovered, but the great bulk of the recoveries is found among patients who have been less than two years in the asylums. The highest percentage of recovery occurred in the asylum at Calicut.

6. The death and sick rates continued to be satisfactory, though the former was a little higher (6·71 per cent.) than in 1883-84, when the rate was as low as 5·05 per cent. of average daily strength. The sick rate remained unaltered at 5 per cent. of the daily strength. The heaviest death rate is shown by the Waltair returns, but the population of the asylum is very small, and the percentage of mortality is easily raised by the reception of a few patients in bad health. In the Waltair Asylum, every patient who was discharged as cured during the year had gained in weight since entering the asylum, while at Calicut of the total number of inmates, 79 had gained in weight, 7 remained *in statu quo*, and 28 had lost weight. The figures of weighment are not given in the report of the Madras Asylum. This omission should be supplied in future.

7. The report states that the total outlay on the three asylums during the year amounted to Rs. 1,06,566 against Rs. 1,09,289 in 1883-84, but the cash accounts of the asylum (statement IX) shows that, notwithstanding the remarks of the Government on the report for 1883-84, the figures in columns 25 and 26 are still shown as part of the actual expenditure in the asylums. The attention of the Surgeon-General is directed to this matter in view to a correct form of account being furnished next year.

The actual outlay on the three institutions was as follows :—

	RS.	A.	P.
Madras	59,784	2	1
Vizagapatam	9,572	13	4
Calicut	13,377	3	10
Total	82,734	3	3

The corresponding expenditure in 1883-84 amounted to Rs. 85,576-14-3. The decrease is explained to be mainly due to a smaller outlay by the Public Works department. There was a falling off in the receipts from local bodies. The average annual cost of an insane in the several asylums was as follows :—

	1883-84.			1884-85.		
	RS.	A.	P.	RS.	A.	P.
Madras	178	12	8	165	15	0
Vizagapatam	144	13	8	150	8	3
Calicut	132	8	7	124	6	7

The decrease in Madras and Calicut is found almost entirely under the head of diet, and may be ascribed to the fact that a larger number of patients can be fed at a lower rate per head than a smaller number. The expenditure on contingencies in the Calicut Asylum appears to be very high.

8. On the whole the working of the asylums was satisfactory. No changes were made in the mode of treatment, but fresh industries were added to the employment of the patients. One escape occurred from the Madras Asylum, and the attempts to recapture the lunatic failed. The Superintendents' reports of the working of their subordinate staffs are satisfactory.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

Read—the following paper :—

From G. BIDIE, Esq., M.B., C.I.E., Acting Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Ootacamund, 20th August 1886, No. O-405.

With reference to G.O., Judicial Department, Mis. No. 20, of 5th January 1886, I have the honor to submit to the Right Honorable the Governor in Council the annual report on the Lunatic Asylums of this Presidency, for the nine months ending 31st December 1885.

Order—dated 18th October 1886, No. 2816, Judicial.

The annual report on the Lunatic Asylums of the Madras Presidency, which the Surgeon-General with Government submits with the foregoing letter, only covers the period of nine months ending 31st December 1885, in consequence of the report having, for the first time, been drawn up for the calendar, instead of, as heretofore, for the official year. This change, which was adopted in compliance with the wish of the Government of India expressed in their letter, dated 11th December 1885, No. 654, that the practice in Madras might be assimilated to that in use in other presidencies, prevents the institution of any close comparison between the figures of the present report and those of previous years.

G.O., dated 5th January 1886, No. 20.

2. The following statement exhibits the results in the asylums of the presidency for the two preceding years and for the nine months of 1885 :—

—	1883-84.			1884-85.			1885.		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
Remaining at end of previous year.	317	117	434	369	124	493	407	141	548
Admitted	170	48	218	161	53	214	135	44	179
Deduct—									
Died	19	5	24	21	14	35	22	5	27
Cured	75	23	98	75	15	91	45	13	58
Transferred to friends	20	9	29	26	7	33	23	11	34
Otherwise	4	4	8	5	..	5	8	..	8
Remaining at end of year	369	124	493	403	140	543	444	156	600
Daily average strength	353·22	121·95	475·17	383·32	137·71	521·03	434·66	46·73	581·39
Do. do. sick	12·89	6·12	19·01	13·07	5·09	18·16	12·32	7·84	20·16

3. Commenting on these figures, the Surgeon-General remarks that the admissions for the nine months of 1885 were proportionately in excess of the figures of the preceding twelve months—a result which shows, he says, that, as in past years, the number of insanes sent for treatment is steadily increasing, though this may be due, not to lunacy becoming more common, but to the fact that the benefits of treatment in asylums are becoming more generally known and better appreciated. With reference to this remark, the Government observe that both the facts of the Surgeon-General and his deduction from them are incorrect. Past years have not shown an increasing

number of insanes sent for treatment. On the contrary, the admissions since 1882-83 have been almost stationary as shown in the margin, and the proportional increase in the nine months under review is very slight. The steady increase which has appeared in the asylums' population is due, not to larger admissions, but to the fact, pointed out last year, that the number discharged and removed does not keep pace with that admitted. There is a constant tendency to accumulate. The calculation made in last year's review that every hundred admissions raised the population at the end of the year by 21 has been shown to be below, rather than above, the mark. The population of the asylums at the end of the year was 600 against 548 at the commencement—an increase of 52, the admissions having meanwhile numbered 179. The daily average strength rose from 521 in 1884-85 to 581 in the period under review.

Admissions—	
1882-83	220
1883-84	218
1884-85	214
1885-86 (9 months)	179

4. The figures relating to the age of the patients admitted show, as usual, over 70 per cent. of the cases to be those of persons in the prime of life between 20 and 40 years of age, when, as remarked by the Surgeon-General, the strain on the mental organization is heaviest. As regards the causes of insanity, little definite information is afforded. Out of 727 cases, 507 are returned as of causes unknown. The most frequent physical causes are the use of narcotic drugs, child-birth, and epilepsy, and these may be regarded as really being important factors in the causation of lunacy. The moral causes are much less reliable—two cases are ascribed to "false belief;" this would appear to be more probably a symptom, than a cause, of insanity.

5. The percentage of recoveries to admissions was 32·40 during the nine months —a result which was decidedly unfavorable in comparison with those of past years, as shown in paragraph 3 of the report.

6. The Surgeon-General does not make any comment on the fluctuations in the statistics of recoveries from year to year, nor on the differences between the several asylums. The subject seems to merit attention.

7. The ages of the patients who recovered have been supplied in accordance with the remarks made in paragraph 5 of the last review. The results are the same in each of the three asylums. With two exceptions, every recovered patient discharged during the year showed an increase in weight, which was in a majority of cases very considerable. The Superintendent of the Calicut Asylum notices one remarkable case in which improvement in health was followed by mental recovery. Almost all the cures occur in patients under two years' residence, and recoveries are rarest in cases of chronic dementia. As regards age, the results are not very decisive; most cures are found in patients between 20 and 35.

8. The health of the inmates of the asylums was, on the whole, satisfactory. No epidemic occurred. The death-rate in relation to daily average strength was 4·64 per cent. against 6·71 of the previous official year, and in relation to total admissions was 15·08 per cent. From the figures for a series of years commencing from 1877-78, the percentage of the nine months under review was very much the lowest in the last nine years, and was considerably less than half the average (9½ per cent.) death-rate of that period.

9. The number of criminal lunatics admitted during the nine months of 1885 was 14, but there are others in jails awaiting admission so soon as accommodation can be found for them. The total number treated was 109 males and 15 females, of whom 11 males were discharged and 3 died. The number remaining at the end of the year was 110, viz., 73 in the Madras Asylum, 16 at Waltair, and 21 at Calicut. The need for additional accommodation for this class of insanes has been recognized by Government, and the necessary sanction accorded to the several proposals submitted for its provision.

10. The total net cost of the three asylums amounted to Rs. 67,099-1-5 for the period of nine months, against Rs. 82,734-3-3 for the year 1884-85. The result is a slight proportional increase in expenditure.

11. The average monthly cost of a patient in each of the asylums was as follows. In the Madras Asylum, excluding the Superintendent's pay, in the case of Europeans and East Indians, Rs. 14-2-5 against Rs. 15-12-8 in 1884, and that of Natives, Rs. 10-1-5 against Rs. 10-2-5. In Waltair and Calicut, including the Superintendent's pay, the cost of each patient is given at Rs. 13-0-6 and Rs. 10-5-5, respectively, against Rs. 12-8-8 and Rs. 10-5-5 in the preceding year. The only increase thus appeared in the Waltair institution. On the whole, His Excellency in Council considers the report under review to be fairly satisfactory.
