

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From W. DONALD, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 31st October 1884, No. 3296.

Book department.

I have the honor to forward, with reference to Government of India resolutions No. 1267, dated 21st July 1871, paragraph 10. „ 185, „ 10th Jan. 1883, paragraphs 22 and 23. noted in the margin, four consolidated returns showing the receipts, issues and balances of stores in the Civil department for the year 1883-84 compared with those of previous years, and showing also to what extent the system of local purchase in lieu of that of obtaining stores through the India office was resorted to in 1883-84.

2. *Description of Returns.*—The returns embody the transactions of the departments marginally noted. The Inspector-General of Jails reports in his letter, No. 4578, dated 17th October 1884, that the returns received from his subordinates require correction, and that his consolidated returns cannot be ready before the 15th proximo. The classification of stores under the headings given in the Government of India resolution of the 10th January 1883 has been adhered to as far as possible. The Board of Revenue have shown the articles specified in the margin under separate headings.

Stationery department.

Police department.

Government Press.

Madras Survey.

Departments under the control of the Board of Revenue.

Educational department.

Chemical department.

Government Agency, Godáviri.

Boats.

Indelible ink.

Watermarked paper.

Tools and plant.

3. *Defects in the Returns.*—In statement No. I showing receipts, the column “By purchase in India” apparently includes European stores in some cases, but it will be more convenient if that column be restricted to Indian stores, and all Europe stores, however obtained, be included in the column headed “From Europe.” In statement No. III exhibiting receipts, issues and balances, the figures of past years differ in most cases from those entered last year, but those now given are reported to be correct, and have accordingly been adopted by this office.* The financial statement No. IV, the Board of Revenue remark, could not be made as complete as it should be for want of information in some cases of the quantity or number of such articles as building and engineering materials, tools and plant and of the estimated cost of obtaining certain articles through the India office.

* Taking the differences, if any, under the head IV, manufactured and on other accounts, &c., in paragraphs 5 and 9.

4. *Receipts, Issues and Balances.*—The total value of stores received and issued during the last five years stand as follow:—

Receipts.						Imperial and Provincial.	Incorporated Local.
						RS.	RS.
1879-80	..	..	..	..	..	9,33,252	22,184
1880-81	..	..	..	..	..	8,66,518	18,321
1881-82	..	..	..	..	..	7,21,873	23,137
1882-83	..	..	..	..	..	4,90,923	19,254
1883-84	..	..	..	..	..	7,71,575	20,334
Issues.							
1879-80	..	..	..	..	..	7,60,305	21,627
1880-81	..	..	..	..	..	7,15,477	17,303
1881-82	..	..	..	..	..	6,10,365	21,971
1882-83	..	..	..	..	..	7,03,054	18,023
1883-84	..	..	..	..	..	8,53,415	19,705

The total receipts which were very low in 1882-83 owing to the non-receipt within that year of certain stores by the Stationery department from the India office rose in the year under report to average value. The issues, however, rose higher than the average, owing solely to the above department having distributed the supplies required by several offices for the current year and having written off a larger amount as value of obsolete and damaged articles. Thus, the total balance of stores at the end of 1883-84 is much less than in previous years.

5. *Nature of Receipts.*—The receipts considered with reference to the different sources from which they were obtained are compared below for the last five years:—

	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.
Europe Stores—					
I. Received through the Secretary of State	5,13,397	3,98,676	68,068	47,861	3,51,995
II. Received otherwise	1,05,367	1,37,670	3,77,891	99,637	1,00,099
Indian Stores—					
III. Newly purchased	71,383	78,375	67,859	56,897	93,114
Departmental Stores—					
IV. Manufactured, &c.	11,444	481	157	5,940	28,608
V. Returned into store	37,201	45,655	96,689	13,118	16,527
VI. Obtained from other departments	1,94,460	1,81,301	1,94,767	1,70,781	1,81,232
Total	9,33,252	8,66,518	7,21,873	4,90,923	7,71,575

6. *Europe Stores.*—Under head I, besides the Superintendent of Stationery, the Police department obtained stores from the Secretary of State for India in the year 1883-84, such as cotton, linen, and woollen goods. The receipts under head II comprise chiefly French foolscap paper and printing materials as stated in last year's review. These are purchased locally, the former under G.O., Financial, No. 1523, dated 20th August 1881, and the latter under G.O., Financial, No. 1884, dated 7th December 1882 (to expedite the printing of census tables, &c.). This head includes also supplies from the specially authorized agents, Messrs Baker and Co. and King and Co. The former firm sends to the Superintendent of Stationery stores required for Army schools, Lithographic department of the Gun Carriage Factory, Veterinary Surgeons, and Sappers and Miners, while the latter firm exports Mackintosh's tarpaulin sheets to the Revenue Survey department.

7. *Stores of Indian manufacture.*—There is a considerable increase in 1883-84 under this division owing to certain stationery supplies required for 1884-85 having been purchased and issued last year, to printing materials supplied to the newly created district of Anantapur, and to iron safes newly supplied to sub-treasuries not provided with strong rooms.

8. *Departmental Stores.*—The amount under the head "Manufactured, &c.," represents the amount credited in the store accounts of the Stationery and Police departments on account of variation in the prices of articles and the discrepencies

between the actual and the estimated balances, while under the heading "Returned into store" in statement No. I are shown the value of paper and stationery returned into the Stationery department, and of instruments returned by the District Survey parties as no longer required. The Police department also has entered under the head this year articles, chiefly arms, &c., worth Rs. 8,360, but has not explained the cause of the return.

Out of the amount under "Obtained from other departments," the bulk consists of jail supplies to the Police department to the extent of Rs. 1,46,116. Articles to the value of Rs. 8,012 (and 4,705) have been supplied by the Military and Public Works departments, respectively, and the Superintendent of Stationery, Calcutta, has sent in paper for Rs. 6,300.

9. *Nature of Issues.*—The figures under this head, as compared with those of previous years, are given hereunder:—

	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.
I. To the department	..	..	3,05,807	2,38,853	2,97,680
II. To other departments	..	..	2,67,921	4,10,977	4,95,974
III. To sales	..	..	..	15,395	10,247
IV. On other accounts	..	..	36,637	32,402	49,514
Total	7,60,305	7,15,477	6,10,365	7,03,054	8,53,415

The increase under I is owing to the issue of warm clothing by the Police department to a larger number of districts, while that under head II is due to the issue by the Stationery department of articles required for use in 1884-85. The entry under head III appertains solely to the Stationery department. The Survey department has shown no entry under this head, having only lent Rs. 3,344 worth of scientific instruments, &c., to the Travancore Sirkar and to the Parlákimedi estate. The heading IV embraces articles condemned as unserviceable, written off as waste, and articles lost. Printing materials and paper and stationery of the value of Rs. 37,300 have been written off as waste by the Superintendents of Government Press and Stationery.

10. *Substitution of Indian for European manufactures.*—Stores of Indian manufacture have been substituted for European in more cases during the year under review than in the previous one. Iron safes were ordered to be made by Messrs. Massey and Co., Madras.

A larger quantity of watermarked paper was purchased from the Calcutta Bally Paper Mills in 1883-84 than in 1882-83. Country black ink purchased by the Superintendent of Stationery resulted in a gain of Rs. 1,090 as against Rs. 705 of last year. In addition to this, the following articles have been purchased:—

	RS.
Ink bottles for	278
Printing, black	663
Registration, black	491
Penknives	203
Nickel silver whistles	900
Woollen cloths for	63

but, as the outlay is under Rs. 1,000 in each case, they are not included in the statement.

11. *Variation in Receipts and Issues.*—The increase or decrease in the receipts and issues of the more important stores will now be noticed.

Apparel, cotton and linen goods.—There is a large decrease under this head both under receipts and issues due to the reduction of the salt force in the several districts of the presidency and the consequent short issue of clothing.

Woollen goods.—There is a considerable decrease noticeable both under receipts and issues of 1882-83, apparently attributable to the non-purchase of these stores in the local market and the consequent short issues in that year.

Paper, Pasteboard and Stationery.—There is an increase of over two lakhs of rupees under receipts and one lakh under issues owing to the receipt in 1883-84 of the articles due in 1882-83, to the purchase of articles required for 1884-85, and to the issue at the close of 1883-84 of the supplies required in the year following.

Printing and Lithographing materials were received and issued to a greater extent than in the previous year. The Board of Revenue, as stated in paragraph 7 above, have supplied printing materials to the newly-created district of Anantapur, and the Superintendent of the Government Press had to purchase Brevier figures and quadrats to expedite the printing of census tables and reports, as they were required to be completed most urgently.

12. *General Remarks.*—Neither delay nor inconvenience is reported in the receipt of stores indented for from England. Every endeavour is also said to have been made for the substitution of Indian for European manufactures. The Superintendent of Stationery reports that the prices of articles received in 1883-84 were generally equal to or lower than those obtained in 1882-83, except sealing-wax, but the quality of the wax obtained is much better than that of previous years.

13. Though this report is due from the Government of Madras to the Government of India on the 31st August, it could not be submitted by this office on due date, the review from the Board of Revenue having been received only the 3rd instant, because several of the returns received by them had to be retransmitted for correction; while the Inspector-General of Jails after promising his returns by end of September reported only on the 17th instant his inability to furnish them before the middle of November as stated in paragraph 2 above.

ENCLOSURES.
STATEMENT No. I.—Abstract of receipts for 1883-84.

Description of stores.	From Europe.	By purchase in India.	By manufacture in the department.	From conversion of unserviceable articles in stores.	By articles in store condemned, &c., transferred from unserviceable to unserviceable.	Returned into store.	Total A.	From Military department.	From other Civil departments.	From Public Works department.	From Civil departments of other Presidencies.	Total B.	Grand total C.
