

Note.

No funds are available with the Govt. As the works are represented to be emergent, the S. E. may be ordered to commence them in anticipation of funds and to include them in the statement of demands called for in G. O. No: 920 W dated 5 November 1886, so that funds may be provided on receipt of sanction of the Govt. of India to the transfers of grants applied for therein under Military Minor Works and Repairs.

Exhibit No. 898

Remount Depot
Kosur 10 November 1886

From

Colonel Ewing
Superintendent Remount Depot

To

The Secretary to Government
Public Works Department
Fort St George

Sir,

With reference to O. G.
No 2736 W. Public Works of 16 Oct.
1886 no doubt the regulation under
which the Estimate amounting
to Rs 960 for repairs to the Hay Shed
attached to the Farm Stables at
the Remount Depot Matigiri
is classed as "Military Original
Works" is correct. but as it
is only a repair I should feel
very much obliged by your
causing funds to be allotted
immediately for its execution
as

as it is indispensable for the
shelter of 50 Horses now standing
in it.

I pointed this out to Colonel
Shaw Stewart when he was here
in July last and he said he
thought he would get it done
at once.

On the 5th Instant. I also
pointed out this building to
Colonel Beatty, the Superintending
Engineer and Captain Baddy,
the Executive Engineer.

The former after inspecting
the building admitted the necessity
of its being repaired immediately
and assured me that he would
do the best he could to allot
funds for its immediate comple-
tion.

I have since his departure
received

? received P. G. No 2736 W of 16. Ultimus
which I fear may delay it and
this is my reason for now address-
ing you on the subject.

I also pointed out to Colonel
Beatty the following buildings
the repair of which is absolutely
and immediately necessary.
being urgently required to meet
the wants & for the safety and
health of the Horses now here.

I The South side of the Long
Stable which leaks all over
and a great many of the rafters
of which have given way. and
to which it was long ago decided
to put flat tiles

II The Granboiling Shed
of the Remount Lines. which
should be put in order at once.
as there is no other place to do
this in.

The work is going on
but

but only very slowly.

Meanwhile the food of the horses is being cooked any how on the ground which they consequently get very late and often half cooked, much to the injury of their health.

III The roof and Out Houses of Conductor Maddock's Bungalow, a Govt. building which is urgently required for occupation by two extra European Subordinates. Whom I am obliged to put up in tents. there being no other building available and the rain is coming down in torrents.

The following is a short list of the repairs mostly above mentioned, which are now urgently required.

- 1 Farm Stable Hay Shed
- 2 Roof & Out buildings Maddock's Bungalow.

- 3 Remount Line Granboiling Shed
- 4 Walls of Forty Horse Stable which are falling out. one has already fallen out

- 5 Roof of South Side of long Stable

I Consider it my duty to urge that these repairs may be executed without any delay.

I have the honor to be
Sir

Your most obedient servt.

John Hiney Colonel
Superintendent
Reserve Remount Dept.

No 3009 wa/13: No 7/86

B

Communicated

to the Supty Engr IV
Circle, who will put
in hand at once
such of the works
mentioned by the Supt
as are considered to be
emergent. In G.O. No
2920 w of 5th December 1886,
the Supty Engineer was directed
to submit a statement of
demands amounting to
Rs 4600 on account of
military minor works.
Such of the works at the
Depot, now mentioned, as
come under the head original
works, should be included
in that statement. Funds
under the head repairs will
be allotted on the amount
required being reported.
