GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from G. T. WALCH, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaisheram, 16th November 1886, No. 336 G.L. :—

With reference to your memorandum, No. 3266 C., of the 24th September 1886, I have the honor to submit herewith a statement showing the surrenders and demands of grants under Provincial in this circle. The demands are included in this statement as it may be found possible to transfer funds from the surrenders of this and other circles. The statement does not include the surrenders and demands of the Godavari eastern division as the division officer has not yet reported the same, although two reminders have been sent to him.

ORDER—dated 26th November 1886, No. 3136 W., Public Works.

The following sums surrendered by the Superintending Engineer, I Circle, are resumed and credited to the reserve with the Government under Provincial :—

	rs.
(1) Second-class police station-house at Kumaradu	400
(2) Police station-house at Korapet	400
(3) Additions and alterations to the deputy tahsildar's office at Palkonda, and constructing a second-class police station in the compound	1,000
(4) Improvements to the sub-jail attached to the sub-magistrate's office at Vizagapatam	1,400
(5) Constructing sub-registrar's office at Tanuku	600
(6) Minor original works, Godavari western division	100
(7) Tools and plant. do. do.	100
Total ...	4,000

2. The following appropriations are made from the Provincial reserve :—

	rs.
(1) Altering the verandah roof of the female cottage in the Lunatic Asylum at Waltair	850
(2) Alterations to apothecary's quarters and reconstructing the guard room of cottage for females with Lunatic Asylum at Waltair.	1,334
(3) Repairs, Civil Buildings, Rushikuliya division	200
(4) Do. do. Ganjam division	200
(5) Do. do. Vizagapatam division	700
(6) Providing accommodation for female prisoners in the district jail at Berhampore	1,400
Total ...	4,684

3. The funds available with the Government being limited, the allotment required for the new work detailed in the margin has not been sanctioned.

Additions and alterations to the office of the Superintendent of Police at Chatrapur.

4TH MARCH 1884, No. 588 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From Colonel T. E. TENNANT, Inspector-General of Jails, to the Chief Engineer and Secretary to Government, Public Works Department, dated Madras, 18th July 1883, No. 181.

I have the honor to forward, for the approval and sanction of Government, the accompanying plans and estimates for converting a building originally designed for a general latrine, in the district jail at Berhampore, into a ward for female prisoners.

2 Plans.	1 Detailed estimate.
1 Specification.	1 Abstract do.
1 Report.	

2. At present the women are kept in a ward of one of the radial blocks near the entrance of the jail. The accommodation is very indifferent, there being no proper means of segregating the women from the male convicts except by shutting them in an enclosure cut off from the compartments occupied by males by some palisading.

3. I propose to convert a building originally designed for a general latrine (but not used for this purpose) into a ward for females. The plan, prepared by the Executive Engineer, shows the alterations required. The cost of making these alterations, together with construction of the necessary out-houses, viz., a small latrine with a bathing place, ought not to exceed Rs. 1,000 to Rs. 1,100, if convict labor is utilised. In the plan a cook-room is shown, but this building will not be required as I propose that the women's food should be prepared in the general cook-room. A sum of Rs. 170 may therefore be deducted from the total estimate on account of the cook-room.

4. I observe that it is proposed to make the doors and windows of the same pattern as those already in the jail. Instead of adopting the present plan for doors and windows I propose that the iron barred doors and windows be made similar to those in the women's compartment of the Rajahmundry central jail. The doors and windows might be of less dimensions, but the same pattern should be followed.

5. I am under the impression that there are some spare iron barred doors and windows in the district jail at Vizagapatam, as when the alterations were made in that jail several of the iron barred doors were removed. If these doors have not been sold or otherwise disposed of, they may perhaps be conveniently utilised for the buildings in the Berhampore jail.

From G. T. WALCH, Esq., Officiating Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Camp Itikavalsa, 16th January 1884, No. 444 G.N.

With reference to Deputy Chief Engineer's memorandum, No. 1467 C., dated 6th August 1883, I have the honor to forward, herewith, a fresh plan and estimate for converting a general latrine in the district jail, Berhampore, into a ward for female prisoners, prepared in accordance with the instructions therein given.

2. Provision is made in the estimate for three doors of new pattern and eleven windows of old pattern which will be obtained from the district jail, Vizagapatam.

3. Foundation to cross-wall is now provided for.

4. The cook-room is omitted, and plastering to walls outside only of bath-room and privy provided.

5. The building is on side long ground, the basement being 6 inches at one end and 15 inches high at the other.* The flooring will be of gravel rammed.

* East and west ends.

† No. 181, dated 18th July 1883, from Inspector-General of Jails.

6. The enclosure† received with the above-quoted memorandum is herewith returned.

No. 226 C., Public Works.

Forwarded, through the Judicial Department, for the approval and countersignature of the Inspector-General of Jails.

3RD JULY 1885, No. 1552 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From M. C. FURNELL, Esq., M.D., F.R.C.S., Surgeon-General with the Government of Madras, to the Secretary to Government, Public Works Department, dated Fort St. George, 16th April 1885, No. 222.

I have the honor to submit, for the sanction of Government, the accompanying plan and estimate (for Rs. 1,334) for alterations to the quarters of the apothecary attached to the lunatic asylum, Waltair, and for reconstructing the guard-room of the female cottage in that institution.

From Lieutenant-Colonel P. MONTGOMERIE, R.E., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Waltair, 4th June 1885, No. C/77.

With reference to your memorandum, No. 66 E., dated 1st May 1885, I have the honor to submit copies of letters marginally noted, from the Executive Engineer, Vizagapatam division, furnishing the information called for.

2. The repairs and alterations for which sanction is now applied for have been rendered necessary by the same causes which necessitated the repair and alterations of the other buildings of the lunatic asylum at Waltair, and may be attributed principally to the use of sal-wood, which, even if thoroughly seasoned and protected, does not appear to withstand the atmospheric conditions on the sea coast, being very liable to dry-rot, and very speedily succumbs to the ravages of white-ants.

3. As regards the rubble masonry in mortar with which the walls are constructed being used by white-ants in their passage to the roof, I can only imagine this to be possible by the disintegration of some of the stones with which the walls are built, as explained by Mr. Harris; but I would not, on this account, forbid the use of carefully built rubble masonry with well selected stone.

ENCLOSURES.

From T. D. HARRIS, Esq., Executive Engineer, Vizagapatam Division, to the Superintending Engineer, I Circle, dated Waltair, 20th May 1885, No. 285.

Referring to your endorsement, No. C/21, dated 12th May 1885, on the Chief Engineer's memorandum, No. 66 E., dated 1st idem, I have the honor to inform you that the lunatic asylum buildings at Waltair were commenced in the year 1868 and completed on the 31st March 1871.

2. It is not owing to errors in design or in construction that the alterations to the two buildings under reference have been rendered necessary; but their terraced roofs were put upon sal-wood joists which have been greatly destroyed by white-ants in their setting in the walls; and dry-rot has also set in in them, in consequence of which the terrace has fallen off in the angles. Further, terraced roofs are not at all suited to the Northern Circars, and this I have noticed from my experience in the Ganjam, Kuttack, and Vizagapatam districts; and in sal-wood it is difficult to distinguish the well seasoned timber from the unseasoned; it is absolutely unsuited to

terraced roofs. I have had to change all the terraced roofs of the jail buildings at Berhampore, in Ganjam, and the church there also, and also the jail buildings at Vizagapatam, as well as the lunatic asylum in the latter. I may inform you that the buildings under reference were very carefully executed in every detail; but experience has shown, as I have stated, that terraced roofs are not suited to such buildings for various reasons; and also that the superstructure walls of these buildings are built of roughstone in chunam, and this I consider a great mistake, as they eventually disintegrate and leave serious cracks, which endanger the safety of the buildings. I have altogether stopped the construction of roughstone in superstructure in any building in this district.

From the same officer, dated Waltair, 30th May 1885, No. 320.

Referring to your No. C/50, dated 23rd May 1885, I have the honor to inform you that the estimates for the lunatic asylum buildings at Waltair were prepared by Captain (now Colonel) J. Beatty, R.E.

2. The work was executed by—

- (1) Sergeant (now Sub-Conductor) J. Cormac, now temporary Assistant Engineer.
- (2) P. W. Subbiah Naidu, now Sub-Engineer, 3rd grade, under the orders of Captain (now Colonel) J. Beatty, R.E.

3. The Superintending Engineers in charge were—

- (1) Late Captain J. G. Ryves, R.E., up to about May 1869.
- (2) Colonel (now Major-General) J. F. Fischer, R.E.

ORDER—dated 3rd July 1885, No. 1552 W., Public Works.

The Right Honorable the Governor in Council cannot regard it as in any way satisfactory that buildings which were completed in 1871 should now require to be almost entirely reconstructed; and the explanation furnished by the Superintending Engineer shows that the outlay for which sanction is now applied has been rendered necessary by errors both in the original design and in construction.

2. The Government observe that the Superintending Engineer does not endorse the opinion expressed by the Executive Engineer in his wholesale condemnation of rubble masonry in mortar; and they are forced to the conclusion that the material employed in the construction of the condemned walls must have been selected without the exercise of proper care or judgment.

3. The Government are not prepared to accept without question the sweeping condemnation of sal timber which finds expression in these papers. They observe that the opinion on this point stated by the Superintending Engineer is at variance with what has hitherto been accepted as the result of experience of the timber in question. The matter is of great importance, especially to the northern districts of this presidency; and as it is one which should not be allowed to remain in doubt, the Chief Engineer will make further inquiry, and report the result.

4. With these remarks, the estimates, amounting to Rs. 1,334, for alterations to the apothecary's quarters, and for reconstructing the guard-room of the cottage for females in the lunatic asylum at Waltair, in the Vizagapatam district, are sanctioned.

5. This sanction has been registered as Provincial, No. 76 W. of 1885-86, and classified as Civil Buildings, Original Works.

To

The Superintending Engineer
First Circle

Dowlaishimaram

Sir,

With reference to Government Order
sanctioning alterations to the Apothecary's
quarters and for reconstructing the Guard-
Room of the cottage for females in the Lunatic
Asylum at Waltair No. 1552 W dated 3 July 1885
I have the honor to request that an allotment
of Rs. 1334 may be made.

2. It is found that about exactly half the
sal roof timber under the terrace of the
Apothecary's quarters is decayed throughout,
which renders the main room unsafe and
necessitates living quarters for the Apothecary.
