To,
The Sup^r Engineer
First Circle.
Sir,

I have the honor, in returning the enclosures of your No. 236 V.L. of 27th October 1886 and the Chief Engineer's endorsement, to state that I do not recollect the precise circumstances under which the two documents came before me.

2. As regards the first, the certificate for January last's accounts, I cannot understand how the two dates were not entered by the Accountant before despatching the accounts. They were in his possession and at the table at the moment.

3. There ought to have been a line through "each work in the Registers of works and manufacture" as this was not usually one of "the monthly accounts". It was an accident not observing this on my part.

4. The remaining six documents referred to at the head of the Certificate, I remember I took to refer to the ordinary monthly account papers which I had just signed, and not to the "Office Copies" of these alone -

5. I am not still clear as to which are intended -

6. The certificate for April must be the office duplicate, as it is only initialed, and must have been attached to the monthly accounts by an error of the despatching clerk instead of the original

7. I remember however distinctly when the new form just appeared a certain amount of incertitude, which may be accounted for by the extreme technicality of the certificate and the large spaces left blank -

8. The old form certified that the Cash Books were correct and the balances in the various Office books corresponded with those of the monthly accounts. These were matters to which I had no difficulty in turning my careful attention to when signing

the certificate -
