GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From T. BAKER, Esq., Secretary, Military Female Orphan Asylum, to the Chief Engineer, Public Works Department, dated Madras, 11th October 1886, No. 810.

Under instructions issued by the building committee* of this institution, I have the honor to inquire whether repairs and other works in connection with the asylum could be undertaken by the Public Works Department, and, if so, what percentage would be charged for supervision.

* General A. C. Johnson, C.B., R.A.
Major Sidney Smith, R.E.

2. Until the year 1878 (inclusive), repairs, &c., appear to have been carried out by the Public Works Department. Since that period the work has been executed by private contract; but I am unable to trace from the records of the asylum the reason for the change.

From the Superintending Engineer, V Circle, dated 26th November 1886, No. 4301.

Note by the Chief Engineer, Public Works Department.

Looking to the probability of the Public Works establishment being reduced, it cannot be recommended that the Executive Engineer, Presidency Division, should undertake the construction and repair of buildings appertaining to the asylum; but it is understood that the governors would consent to pay some charge for establishment, and considering the situation of the buildings and the simple character of a great part of the work to be done, it is recommended that the Public Works Department should undertake the work on payment of 15 per cent. of their cost.

SIR,

In reference to your
Memo No. 3561 dated 13th
Ultimo, I have the honor to
state that up to and in-
cluding the year 1878-79 new
and repair work at the
Military Female Orphan
Asylum were executed by
the S. H. Department. viz by
Superintendent of Works Residency.
That in accordance with
para 10 of G.O. No. 2522 of 7th
October 1879 the execution of
Works at the Asylum was
carried

carried out by the Officers
(Gouvernours) of that institution -
one of whom was, I believe,
generally a B. E. Officer &
no difficulty was, I believe,
experienced in the execution of
work - thus for instance
the late Captain Hamilton
R.E. acted as Gouverneur up
to the time of his death in Ja-
nuary 1885 - and being on
the Building Committee
of the Institution, super-
-vised, as he used to tell
me, all dealings with the
building Contractors em-
-ployed.

The Government Buildings
in Madras for the proper
maintenance of which
the Executive Engineer
Presidency Division
is already responsible for

so numerous that I would
hesitate adding to them
if it can be provided

The Suply. Engr
apparently does not
recommend that
repairs &c to the
Asylum buildings
be undertaken by
the P. W. Dept.

Cir

The explanation given
by the S. E. agrees with
what I know of the
case.

I think the buildings
should be looked after
by the P. W., or rather
should be repaired when
necessary. and 23%
should be charged

Looking at the probability of
 the P.W. Estab^y being reduced,
 it cannot be recommended. But
 the Exec. Eng^r providing the
 should undertake the construction
 & repairs of built dries appor-
 tioning other dyes, but it is
 understood that the Government
 would undertake to pay some
 charge for labour, and also
 providing the situation of the
 built dries and the slight damage
 of a small part of the work
 the done, it is recommended
 that the P.W.D. should undertake
 the work on a program
 of 15 p. a. of the cost.
