Memorandum

Office Note from the Examiner P.W. Accounts, No 145 of 21st May 1886.

Forwarded to the Military Department for favor of remarks.

Paras 6 and 7 of G.O. (Military) No 3352, of 8th September 1865, appear to be somewhat contradictory. From the former it would seem that rent should not be charged for the lines only in cases of Regiments on the Roster either for or from foreign service, while from the latter it appears that rent should be levied from Corps whose occupancy of the lines exceeds twelve months.

In returning your Endorsement No. 723 dated 13th March 1886, I have the honor to state that the practice of rent not being charged for the N.I. Regiment lines, at Perambore, till after the lines have been occupied for 12 months, appears to be followed under the sanction given by Government in their Order No. 3352 dated 8th September 1865, para 7.

3. I would take this opportunity of again directing attention to the custom at Madras of the Barrack Master, Fort St. George, charging no rent for the Verandahs N.I. Lines to any Regiment until it has been in occupation for 12 months- this seems to me entirely opposed to the principle on which all Government- built sepoy lines are occupied, and is contrary to that in force at Bangalore where sepoys in occupation, pay rent always.

Please peruse the accompanying correspondence, and favor me with such orders as you may consider necessary.

2. G.O. No. 3352 dated 8th September 1865, para 7, has apparently been taken to mean that regiments occupying the Perambur lines are to pay no rent for the first year, though their occupancy may be longer: but at that time the lines seem to have been mainly occupied for short periods by regiments proceeding on or returning from foreign service, and the circumstances are now different, as the lines are regularly occupied by one of the regiments forming part of the garrison of Madras. The late Executive Engineer Presidency Division and present Superintending Engineer 5th Circle (see his No. 1627

dated 4th June 1883) urged that the practice at Perambur and Bangalore (West-hutting lines where the regiment pays rent from date of marching in) should be assimilated; and in this opinion I concur.
