has been suffering, ever since he was dismissed from the department, in which he had served, not only long and zealously, but in which he had also succeeded in gaining a high position, as well as a reputation for integrity and good service. As pointed out in his former petition, Petitioner has now reached that stage of life, at which it is exceedingly difficult, if not impossible, to turn one's attention and energies, in a new direction; and as the present order completely shuts the door, as it were, against his re-entrance, in the only profession for which he is qualified, Petitioner cannot but regard the said order as an unbearable calamity.

3. That under these circumstances, Petitioner most earnestly and respectfully ventures to put in this petition, praying that as the last and only hope he can crave at your merciful hands, you would be kindly pleased,

not only in Consideration, not only
of the very peculiar circumstances
of his Case, but also of his several
meritorious services (some of which
are personally known by yourself); of
the high Character he always main-
tained throughout his Career in the
Department for perseverance and
honesty; and especially in Con-
sideration of the disgraced, dis-
tress of mind, and loss of means
and position, which he has suf-
fered for upwards of a year past,
to so modify the order of the late
Chief Engineer, as to allow of
Petitioner's being, under no dis-
qualification, to be entertained
in any department of public
service, where he may find a
suitable opening.

And your Petitioner
As in duty bound,
Will ever Pray
