NOTE OF REMARKS.

1. The accompanying plans and
estimate provide for constructing
a new treasure room for the "Royal
Treasury" at Salem. The
estimate amounts to Rs. 2970.
2. The proposed room is to measure
inside 17 1/2 feet square. A veranda,
3 1/2 feet wide in the clear, is to run
on its four sides and is covered
by a passage 8 feet long and 6 feet
wide, connect it with the main
building. The new room is to be
terraced; the veranda is to
receive sloping terracing; and
the passage is to be roofed with
flat and pot tiles. The masonry
is to be brick-in-mortar.
3. Teak is to be used, and the
dimensions of the various roof
timbers are correct. Subject
to approval, collar pieces
might well be substituted.

for the items "bridge," posts, and
 struts. However this is a point
 of minor detail which S.E. IV seems
 to have accepted. Relieving
 arches over the iron-banded
 windows immediately under
 the extremities of the beams
 supporting the terraced roof
 would be an improvement.
 The rates are fair. The
 plans and estimate have been
 countersigned by the collector
 of the Salem district, and
 have been approved in the
 Revenue department.

The balance of the Provincial revenue is Rs. 7,156. As the Board of Revenue recommend that funds may be provided in the Budget for 1886-87, the S.E. IV might be asked either to apply for funds early in 1886-87 or to include the work in his statement of demands on the reserve for incomplete and new works.
