Copy of letter from the Executive Engineer, Eastern Division, Godáviri, to the Superintending Engineer, I Circle, dated 16th January 1886, No. 706.

With reference to your endorsement, No. 2039-G.D., dated 14th January 1886, on the Examiner, Public Works Accounts, No. 366-S.E.I., of 2nd December 1885, I have the honor to report as follows :—

The applicant referred to therein, though invalided on the 23rd April 1885, had to be kept on in service till 10th June 1885, when he was relieved and ordered to attend the Division office to give certain information regarding his service. The applicant attended the office after a month's delay, and stated that he was a man of about 38 years' standing in the department, which necessitated reference to old records to verify the statement of the applicant; but it was at last found that all the service prior to the date of first entry in the service book was temporary, and could not be reckoned towards service.

The individual was in service till 10th June and his pension application was submitted on 21st October 1885, or within four months after the individual actually retired from the service. The delay was entirely due to the misleading statements made by the applicant himself, which necessitated much search in old records.
