Office-Note

From W

To C.A

It is proposed to extend the accommodation allowed for the Lithographic Press, by taking in the room vacated by the Buckingham Canal Sub Divisional Office – also to provide an enclosure for confidential work – The pencil lines on the accompanying sketch show what is required.

Please frame an estimate for the work.

DW

ESTIMATE FORM.—Abstract.

W. Note

The recent case of examination plans prepared in the Confidential branch of the Lithographic Depart being communicated to the students of the C.E. College, has shown that it is absolutely necessary that the portion of the room in which Confidential plans & papers are lithographed should be screened off from the rest or that a separate room should be built.

At present anyone moving about the room

To D.W.

I entirely agree with you that the confidential work should be done in a separate & private room but I understand that some proposals for additional accommodation have been prepared by the C.A. and it would be well to ascertain whether those proposals will meet the want now shown to exist. The work should be done as cheaply as possible.

Note

Some time ago Major Bowen seems to have thought that the accommodation in the Lithographic room was insufficient, but separating the confidential portion from the rest does not appear to have occurred to him, as there was nothing to bring this defect to his notice.

Several other notes passed between Major Bowen & the C.A. regarding increased accommodation & the latter submitted an estimate for £1000 odd which could not be considered owing to the expense; he then submitted another

shut off by a row of almirahs is both inconvenient and unsightly. Could a suitable Store-room be built close outside, in direct communication with the main room.

The present arrangement of floor space and side rooms is not good, and unsuited for an Office of this kind. I shall be glad to have any suggestion for improvements.

To
S. W.

I have examined the whole of the arrangements with Mr. Baldrey and have to make the following proposals

First to enlarge the existing Store Room by constructing a partition at J.K. see ground plan

Second To pave the remaining portion for the presses.—

These two works will cost about 500 Rupees

Third To construct a second Story to accommodate the draughtsmen & Supt. above the presses—74 ft long. This will cost about Rupees 10,000/ if this is considered excessive the accommodation can be ended at E.F. which will cost about 7700/ Rupees. The totals will stand say 10500/. and 8200/.

9, D.W. 26 May 1885

This is an Estimate for a smaller work - still I fear too large. - I do not think it advisable to build out at the back and if we are to add at the end it would be wasteful I think to add less than 2 bays which will cost about Rs 4000 - The flooring with stone alone costs Rs 800
