APRIL.

Provincial Contract.

Forwarding to the Accountant-General the statement showing the original grants assigned when the — was made, and requesting him to prepare therefrom the explanatory note asked for by the Finance Committee; also calling upon heads of departments to report what reductions, if any, can be effected in their respective departments.

With order

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper:—

From S. JACOB, Esq., Secretary to Finance Committee, to the Chief Secretary to the Government of Madras, dated Calcutta, 22nd March 1886, No. 1.

I am desired to say that the committee, appointed by the Government of India for examining into expenditure and reporting on economies, trust that His Excellency the Governor in Council will be good enough to assist them in collecting the information they require, and will also favor them with his own recommendations and suggestions as to the reductions which seem to him possible.

2. Their first duty will be to inquire into the working of the provincial contracts which expire on the 31st March 1887, and into the expenditure of the provincial departments. In order to enable them to do this, I am to request that they may be supplied with a statement (with ten spare copies, if printed) showing against each major head the figures originally assigned when the contract was made, and the actual receipts and expenditure of the years 1882-83, 1883-84 and 1884-85, with the revised budget figures of 1885-86 and the budget figures of 1886-87. This should be accompanied by an explanatory note, showing the nature of the changes, whether due to a real increase or decrease in the receipts or expenditure, or to transfers and alterations in the system of accounts; where there is a real rise or fall in the income, it should be explained whether it is due to temporary or to permanent causes, and how far its continuance may be counted on in the estimate of the future; where the expenditure of a department has increased or decreased, the note should show the principal causes; but it will not be necessary to explain every detail, so long as the main factors in the growth of expenditure are made clear. The committee trust that along with this note, they may be favored with an expression of the views of His Excellency and such of his principal officers as he may desire to consult, showing what retrenchments he considers feasible, whether by reduction of salaries, by abolition or amalgamation of appointments, diminution in the numerical strength of establishment, or in the cost of contingencies and material, and what, in his opinion, is the minimum cost at which the department in question can be efficiently worked.

3. I am to request that the statistical statement of the working of the provincial contract may be furnished as early as possible, without waiting for the explanatory note, which can follow subsequently.

ORDER—dated 5th April 1886, No. 296, Financial.

The committee will be furnished with the required statements showing the figures originally assigned when the provincial contract was made, and those of subsequent years. These statements should be carefully analysed by the Accountant-General who will prepare the explanatory note asked for by the committee.

2. All heads of departments will consider and report whether any, and, if so, what retrenchments are feasible, and will state the minimum cost at which each department under their control can be efficiently worked.
