22ND MARCH 1886, No. 761 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers :—

From Lieutenant-Colonel J. L. L. MORANT, R.E., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Nellore, 9th March 1886, No. 1068 S.G.

The time has come when it is desirable to remove the head-quarters of the Sangam Project division from Sangam, their present position, to some point more central with the rest of the project.

2. The Sangam anicut has been practically completed. It will be entirely finished before the next river-floods. The rest of the project, especially the more outlying portions, is in various stages of progress. Sangam is quite in a corner of the area. The ground-rent of some of its temporary buildings expires very shortly. Nearly all the buildings, being of a temporary kind, will have to be repaired if they are to be continued. To remain at Sangam would involve much inconvenience and additional and disproportionate cost.

3. In looking for another position for the head-quarters, I have come to the conclusion that Nellore is the best position. Buildings can be there rented for any desired period. At any other place north of the Pennér a residence for the Executive Engineer and for his office would have to be built. These, of the cheapest kind, would cost more than the hire of buildings in Nellore. A glance at the map will show that Nellore is conveniently situated with reference to the Sangam project generally.

4. The Assistant Engineer and all the rest of the staff will continue to reside north of the Pennér.

5. This change was advocated by Mr. Rundall and is approved by the Deputy Chief Engineer.

6. I think this change of the head-quarters of the Sangam project ought to take place from the 1st of April 1886, and, in anticipation of your kindly sanctioning the same, have authorised the Executive Engineer to make it from that date.

From the Chief Engineer for Irrigation, dated 16th March 1886, No. 63.

ORDER—dated 22nd March 1886, No. 761 W., Public Works.

The proposal of the Superintending Engineer to remove the head-quarters of the Sangam Project division to Nellore, from the 1st April 1886, is approved.

MARCH.

Head-quarters of the Sangam
Project Division

Removal of the — to Nellore approved.

No 1068.S.G.

Superintending Engineer's Office,
2nd Circle, Camp Nellore
9th March 1886.

From,

The Superintending Engineer,
2nd Circle.

To,

The Chief Engineer,
Public Works Department,
Madras.

Sir,

The time has come when it is desirable
to remove the Head Quarters of the Sangam
Project Division from Sangam their present
position, to some point more central with
the rest of the Project.

2. The Sangam Anicut has been practically
completed. It will be entirely finished before
the next river floods. The rest of the Project
especially the more outlying portions is in
various stages of progress. Sangam is
quite in a corner of the area. The ground
rent of some of its temporary buildings or
expires very shortly. Nearly all the buildings,
being of a temporary kind, will have to be
repaired if they are to be continued. To
remain at Sangam would involve much

inconvenience and additional and disproportion-
ate cost.

3. In looking for another position for the
Head Quarters I have come to the conclusion that
Nellore is the best position. Buildings can be
there rented for any desired period. At any
other place north of the Penner a residence
for the Executive Engineer and for his
Office would have to be built. These of the
cheapest kind would cost more than the hire
of buildings in Nellore. A glance at the
map will show that Nellore is conve-
niently situated with reference to the
Langam Project generally.

4. The Assistant Engineer and all
the rest of the Staff will continue to
reside North of the Penner.

5. This change was advocated by
Mr. Rundall and is approved by the Deputy
Chief Engineer.

6. I think this change of the Head
Quarters of the Langam Project ought to
take place from the 1st of April 1886, and
in anticipation of your kindly sanctioning
the same, have authorised the Executive

Engineer to make it from that date. *12*

I have the honor to be,

Sir, *15/12*

Your most Obedient Servant,

John Norant

Lieut. Col. R.E.

Superintending Engineer,
