Sir,

I have the honor to submit an estimate with report and plans for the diversion and covering of the drain at the village site near the Triplicane Sewage Farm. In accordance with the wishes of Government the work has been already commenced. As the necessity for this diversion has arisen only because the fishing village has been moved I beg to suggest that the whole cost may be borne by Government.

2. The estimate for a pipe drain to carry the surplus sewage to Kistnampett will follow.

Enclosure.

I have the honor to return the plan and Estimate forwarded with your endorsement No. 812 C. dated 26th February 1886. The proposals are in my opinion suitable; the rates for brickwork appear to be rather high, but this will be of little consequence if the Government contribute only the actual or proportion of actual cost of the work as executed.

The estimate amounting to Rs 7330, for diverting and covering the drain near the Triplicane Sewage farm, is approved, and will be returned to the President Municipal Commission for early execution.

2. The Government

cannot admit the President's contention that this work has arisen only because the fishing village is to be moved; ~~In G.O. but they will postpone passing final orders on the point until the estimate for extending the drain to Kistnampett has been laid before them. A sum of Rs 3,665, being one half of the present estimate, will in the meanwhile be disbursed to the Municipality by the C.A.

~~for the disposal of the sewage were necessary. As already promised, the Government will bear one half the cost of the work, and a sum of Rs 3,665 is accordingly allotted for it from the Provincial reserve. The Consulting Architect will at once disburse the money to the Municipality.~~

Sir,

With reference to G. O. No. 631 W. of 7 March 1886, I have the honor to forward a probable estimate of cost amounting to Rs 15,000/- for continuing the drain from Triplicane to Kristnampet Farms.

The work includes a surplus tank at Kristnampet which will obviate the necessity for the flow of sewage into the canal during the night when sewage cannot, without offence, be put on the land.

Additional land will require to be brought under cultivation and the arrangements for doing this are also included in the estimate -

When the plans have been fully prepared, a revised estimate will be sent for approval -

I have the honor to be,
Sir,

This estimate is only an approximate one, & no end would therefore be gained by having it scrutinised either by C.A. or in this Office —

It is submitted apparently in view to the Govt. contribution being paid at once —

For orders whether this may be done.

The question whether the whole amount of the estimate sanctioned in G.O. No. 631 W d/7-3-86 shall be met by Govt. must now apparently be considered.

Letter from the Consg: Archt: to the Govt: H.E. No. 1821 d/12th March/86

With his letter above recorded, the President Madras Municipal Commission submits an approximate estimate amounting to Rs 15,000 for continuing the covered drain from Triplicane to the Kistnamapett Sewage farm.

2. The estimate is approved, and in accordance with para 8 of G.O. No. 211 W d/25th January 1886,

one half the cost will be met by the Government.

3. With respect to the estimate of Rs 7,330, approved in G.O. No 631 W d/ 9th March 1886, for diverting and covering the drain which intersected the Triplicane Sewage farm, the Government, in consideration of the circumstance that the expenditure has been caused partly by the proposed removal of the fishing village to the site of the Sewage farm, will be willing to bear two thirds of the cost. The total amount to be contributed by Government will

will

will therefore be

Rs $15000 \times \frac{1}{2}$ = Rs 7,500
" $7330 \times \frac{2}{3}$ = Rs 4,886
Total Rs 12,386

4. A sum of Rs 3,665 has already been paid on account to the Municipality, and the Consulting Architect will at once disburse the balance Rs 8721. An appropriation of Rs 12,386 is made for the purpose from the Provincial reserve with Government.
