READ—the following papers :—

From P. V. LUKE, Esq., Chief Superintendent, Government Telegraphs, Madras Division, to the Secretary to Government, Public Works Department, dated Madras, 23rd July 1883, No. 2359.

Has the honor to forward copy of Circular Memorandum, No. 8 C., dated Simla, 12th June 1883, for information.

ENCLOSURE.

GOVERNMENT TELEGRAPH DEPARTMENT.

CIRCULAR MEMORANDUM No. 8 C.

Simla, 12*th June* 1883.

It is requested that the following addition be made to the Schedule of Telephone Rates, which accompanied Circular letter, No. 8, dated the 26th July 1882, and which was specially referred to in paragraph 13 thereof, viz. :—

The above charges include the expenses of the first inauguration ; but, should a subscriber, by changing his residence or office, require the connections to be altered, and should such alteration not increase the wire mileage, a charge equal to one year's rent of half a mile of wire will be made to cover the expenses of alterations.

In a case where an alteration may cause an addition to the wire mileage, the subsequent rental will be proportionally increased, notwithstanding the charge for the actual alteration.

(Signed) R. MURRAY, Colonel,
Director-General of Telegraphs in India.

From the Under Secretary to Government, Public Works Department, to the Chief Superintendent of Telegraphs, Madras Division, dated 1st August 1883, No. 1661 D.

In acknowledging receipt of your letter, No. 2359, dated 23rd July 1883, I have the honor to request that you will be good enough to furnish this office with a copy of the previous Circular letter quoted, No. 8, dated 26th July 1882.

From P. V. LUKE, Esq., Chief Superintendent, Government Telegraphs, Madras Division, to the Under Secretary to Government, Public Works Department, dated Madras, 6th August 1883, No. 2703.

In reply to your No. 1661 D. of 1st instant, I have the honor to state that I have no spare copy of Circular No. 8 of 26th July 1882, but I enclose an extract of that part of it which applies to the matter under reference.

ENCLOSURES.

EXTRACT from Circular letter No. 8 of 1882.

I may also inform you that, whilst the Government of India has decided that this department is not to open any public exchange in any town for which the Oriental Telephone Company has applied for a license, it has also decided that if any public officers require any telephone conveniences, they are to advertise their wants, and that this department is at liberty to tender for the supply of such wants.

As the terms under which such tenders may be made should be known, I enclose you a printed extract from a letter to the Collector of Agra, quoting the rates at which public office or municipal lines can be erected, and beg you to note that these rates will be adhered to.

This extract may be shown to any public officer who may make any inquiry about telephone rates, but with the distinct intimation that you cannot finally accept any terms without reference to me.

You will understand that, in calculating charges, fractions of half miles of circuit are reckoned as half miles (*e.g.*, 900 yards counts as one mile; 1,800 yards as one and half mile), but in calculating for a set of public office lines, the rate is fixed on the total of the different circuits of that set added together. Also this rate is per half mile of circuit, measured by the nearest practicable route, and is quite independent of the number of wires on the same posts, the necessity of using return wires or the actual route that may be eventually adopted for departmental reasons.

The rate of charge being by the length of circuit by the nearest practicable routes, no scheme should be sent me for acceptance until the nearest practicable routes for the proposed circuits have been actually measured and quoted in yards.

EXTRACT from letter, No. 453 C.G., dated 11th May 1882, to the Collector of Agra.

READ—the following office note from the Examiner of Public Works Accounts, dated 15th July 1885, No. 281:—

On a reference about the classification of the charges for telephone exchanges, Accountant-General, Public Works Department, in his No. 378 G., dated 20th June 1885, has ruled that such charges shall be treated as contingent charges of the officers benefited by the establishment of telephonic communication. Such charges have, during the year 1884-85, been debited to Works and Repairs, Civil Buildings, of the Public Works divisions in which the exchanges are situated, to the amount shown in the margin. As the accounts of that year are now on the eve of closing, these amounts cannot well be adjusted; but please say whether similar charges may in future be debited to the officers concerned, and, if so, on what basis.

		Rs.	A.	P.
Madras exchange for 1883	...	2,613	7	7
Ooty do. do.	...	882	15	6
Calicut telephone line for 1884		*99	11	9
Ooty exchange	do.	1,506	0	0
Madras do.	do.	2,724	0	0
	Total ...	7,826	2	10

* This is included as it is a line connecting the Collector's office, the Bank, and the Currency office at Calicut, apparently on the same footing as an exchange.

ORDER—dated 22nd July 1885, No. 1705 W., Public Works.

In the Public Works Department, the charges for telephonic exchanges will be debited in future to contingencies of the offices benefited by such communications. In case of other departments the charges will be adjusted by transfer with those departments.

Communications—Telephone.

Read the following papers:—

No. 104. *From Colonel H. P. HAWKES, Officiating Commissary-General, to Lieutenant-Colonel A. KENNEY-HERBERT, Secretary to Government, Military Department; dated Madras, 11th December* 1885, *No.* 5862.

The Government Bakery at this station is four miles distant from the office of the Executive Commissariat Officer in the Fort.

2. During the trooping season details of British troops are constantly arriving at, and departing from, Madras, St. Thomas' Mount, Poonamallee and Pallávaram, all of which stations are supplied by the bakery.

3. Frequent changes often unavoidably occur in the strength of the details in movement, and the dates of their arrival and departure are often altered at the very shortest notice.

4. Bread-making is a long process, and meat cannot be killed and prepared for food without considerable notice, it is therefore of the utmost consequence that rapid means of communicating with the bakery and slaughter-house should be at the disposal of the Commissariat Officer.

5. At present he can only send a foot messenger or a muleteer and thus much valuable time is lost.

6. I have ascertained from the Chief Superintendent of Government Telegraphs that telephonic communication could be made and maintained between the Commissariat Office in the Fort and the Government Bakery at a monthly cost of Rs. 37, and I trust that Government will be pleased to sanction the same.

7. Copies of letters * from the Executive Commissariat Officer and from the Superintendent, Electric Telegraphs, are enclosed for réference if necessary.

* Letter, No. 6348, dated 8th December 1885, from the Executive Commissariat Officer, Madras.
Letter, No. 4561, dated 4th December 1885, from the Chief Superintendent, Government Telegraphs, Madras Division, with schedule.

From Lieutenant-Colonel E. A. BRUCE, Executive Commissariat Officer, to the Commissary-General, Madras; dated Fort St. George, 8th December 1885, No. 6348.

In continuation of this office No. 5544, dated 5th November 1885 (copy herewith), I have the honor to enclose a copy of a letter addressed by me to Mr. P. V. Luke, Chief Superintendent, Telegraph Department, relative to the initial cost and up-keep of a telephone between my office in the Fort and the Government Bakery at Teynampet.

I enclose Mr. Luke's reply, in original, from which it will be seen that the cost of the wire comes to ... ... Rs. 324
Rent and maintenance of two telephones complete 120

Total ... 444

MILES.
The distance from the Fort to the bakery is 4
And from the bakery to the slaughter-house 1½

Total ... 5½

During the trooping season the constant changes of arrival and departure of troops necessitate almost daily communication during office hours with the bakery relative to the increase and decrease of the quantities of bread, meat and flour to be issued.

In addition to this, owing to the rifle ranges of the South Wales Borderers being situated at Pallávaram, on an average two or three times a week changes of strength takes place: in some cases men are returning to Madras, in the others going to Pallávaram, necessitating extra rations next morning at Madras and less at Pallávarm and *vice versa*.

To convey this information a mounted orderly or messenger on foot has to be sent to the Superintendent, Government Bakery, which causes much inconvenience and delay, more especially during such an important time as the embarkation of troops for the British Burma Expeditionary Force, when this office was in constant communication with the Bakery.

2. May I request you will kindly obtain the sanction of Government to this office being put in direct telephonic communication with the Government Bakery.

From P. V. LUKE, Esq., C.I.E., Chief Superintendent, Government Telegraphs, Madras Division, to Lieutenant-Colonel E. A. BRUCE, Executive Commissariat Officer; dated Madras, 4th December 1885, No. 4561.

With reference to your No. 6110 of 30th ultimo, I have the honor to enclose a schedule of the rates charged by the Telegraph Department for Telephone lines and instruments.

2. The cost of establishing telephonic communication between your office in the fort and the bakery in Teynampet will be as under:—

CONDITIONS.

I.—The above charges include the expenses of the first inauguration; but, should a subscriber, by changing his residence or office, require the connections to be altered, a fixed charge of Rs. 36 will be made to cover the expenses of such alterations.

II.—In a case where an alteration may cause an addition to or decrease of the wire mileage, the subsequent rental will be proportionately increased or decreased, as the case may be, notwithstanding the charge for the actual alteration.

III.—It is to be distinctly understood that the Department will not undertake to maintain or to supply battery material for any apparatus that is not the property of the department.

IV.—Lines without instruments can, however, be supplied and maintained at the rates quoted above.

V.—FOR LINES FOR PUBLIC OFFICES, MUNICIPALITIES, AND STATE AND GUARANTEED RAILWAYS.—Bills are prepared half-yearly in arrears on the 30th June and 31st December of each year. The first bill is for the broken period to the end of the half year. Subsequent bills are for complete half-years. No complete line or connection to an exchange can be given up without three months' notice, and if given up within twelve months of its first inauguration a twelve months' rent will be charged.

VI.—FOR LINES FOR PRIVATE FIRMS OR INDIVIDUALS.—Bills are prepared annually in advance on the 1st January of each year. But should a subscriber wish to be supplied with a line on any other date than the 1st January, he shall, in respect of the then current year, be required to pay in advance a proportionate part only of the total annual rent payable by him. Charges for alterations or extra rent for extensions in respect of the then current year are payable on the completion of alteration or extension. No line or connection to an exchange can be given up without three months' notice or three months' rent in lieu of such notice, and further, if given up within twelve months of its first inauguration, twelve months' rent will be charged.
