READ—the following letter from the Executive Engineer, in charge I Circle, to the Inspector-General of Registration, dated Dowlaishweram, 15th January 1886, No. 211 V.Z. :—

I have the honor to submit, herewith, an estimate, amounting to Rs. 2,400, together with a site plan, for constructing a sub-registrar's office at Párvatipur, in the Vizagapatam district, and to request that you will be so good as to transmit the same to Government for sanction. In G.O., No. 2524 W., dated the 12th October 1884, the preparation of an estimate for providing additional accommodation in the taluk cutcherry at Párvatipur was ordered; but the estimate now submitted provides, as you are aware, for constructing a separate sub-registrar's office. The estimate has been prepared on the latest revised standard design for sub-registrars' offices.

Endorsement on the above.

READ—the following letter from G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Ootacamund, 24th September 1884, T. No. 4008 :—

I have the honor to submit the correspondence marginally noted, regarding the insufficiency of the accommodation provided for the sub-registrar of Parvatipur, Vizagapatam, in the taluk cutcherry newly erected at that station, and to request that the sanction of Government may be obtained for adding a room to the cutcherry for the sub-registrar and his clerks, as per standard design, and for adapting the present room into a record-room.

2. The order of Government sanctioning the erection of the cutcherry does not appear to have been communicated to the Registration Department.

ENCLOSURES.

From SHAIK AHMED, Sub-Registrar of Parvatipur, to the Registrar of Vizagapatam, dated Parvatipur, 1st July 1884, No. 25.

Having been directed by the Senior Assistant Collector to remove my office to the new building intended for the sub-magistrate's and the sub-registrar's offices, I have the honor to report that I removed my office from the rented building to this new one yesterday evening.

2. There is only one room provided for this office. It is 15 feet long and 7½ broad. The whole room is occupied by the two almirahs and other furniture. There is hardly any space for the sub-registrar even to have his seat. Then, where is the clerk to sit down and where is he to have his desk, &c.? There is no room for the parties even to stand. Everywhere sub-registrars are provided with separate office buildings, each containing three rooms—one for the sub-registrar, one for the clerk and one for the records; and I am at a loss to know why I am thrust to suffocate in this black-hole. In my opinion, I think, the provision for one single room was made when this office was under officiating sub-registrar, on the understanding that one room would do for the clerk and the records. But this room is not at all sufficient for the office of a special sub-registrar. There must be at least two rooms for this office, and unless a second room is provided, it is impossible for me to hold my office here. But there is no second room in this building. Some additions must therefore be made to it. It would be very convenient if, like in many other places, a separate building be constructed here also. I therefore hope you will strongly urge this point, viz., that of having a separate building for the sub-registry office here also. If it is at all found impossible, I beg you will be so kind as to recommend for the construction of an additional room to this building. Hoping to be favored with the reply of the Inspector-General on the subject.

From G. HAMNETT, Esq., Inspector-General of Registration, Madras, to the Executive Engineer, Vizagapatam, dated Ootacamund, 26th August 1884, T. No. 3400.

I have the honor to enclose copy of a letter, dated 1st July 1884, No. 25, from the sub-registrar of Parvatipur complaining of the want of accommodation in the new apartment provided for him in the taluk cutcherry; and, before addressing the Government on the subject, shall feel obliged by your letting me know whether the Inspector-General approved of the plan, and when it was sanctioned.

2. You are aware that, in accordance with the standard design, sub-registrar's offices have two rooms—one for records and one for the office.

From T. D. HARRIS, Esq., Executive Engineer, Vizagapatam Division, to the Inspector-General of Registration, dated Waltair, 12th September 1884, No. 1055.

I have the honor to inform you that the taluk cutcherry at Párvatipur was built on the standard design, for a 3rd-class taluk cutcherry, circulated with G.O., No. 786, dated the 7th March 1877, and in which there is provision only for one room for the registrar's office; but I am not aware whether this plan was approved of by the Inspector-General of Registration. The estimate for the taluk cutcherry at Párvatipur was not, however, sent to the Inspector-General of Registration for his countersignature as it was prepared on the standard design approved of by Government.

2. The plans and estimates for the Párvatipur taluk cutcherry were sanctioned by Government in their order, No. 66 W., dated the 12th January 1881.
