members, one of whom, Sir Charles Turner, C.I.E., will also be President of the sub-committee. With him will be associated the Honorable J. W. Quinton, C.S.I., and the Hindu, the Muhammadan and the Eurasian members of the Commission, for such period as may be devoted to the inquiry in the province to which they belong. As the Public Service Commission does not contain a Muhammadan member from Madras or Bengal, nor an Eurasian member from Bombay or the North-Western Provinces, the Local Governments of those provinces will nominate as local member of the sub-committee a Muhammadan or Eurasian member as required. Finally, each Local Government will be requested to nominate to the sub-committee for duty while engaged within its jurisdiction a local member, selected from the department or branch of the Public Service which is being passed under review, whose duty it will be to bring his local knowledge and professional experience to the assistance of the committee in obtaining accurate and complete information on the special subject with which it is dealing, and in testing the evidence of witnesses on technical points.

4. The sub-committee thus constituted will exercise all the powers vested in the Public Service Commission by the Resolution cited in the preamble and by the orders passed in connection with it; and the Secretary of the Public Service Commission will also, so far as may be necessary and so far as his current duties under the Commission permits, act as Secretary of the sub-committee.

5. It will be the duty of the sub-committee to obtain and digest evidence on definite questions of fact to be placed before the Public Service Commission when it re-assembles later in the year. The subjects of the sub-committee's inquiry are, first, the present regulations of the various departments as to admission to the various grades and ranks in each; the conditions of service in each department, and the capacity for rendering efficient service therein, of the various classes who put forward claims to such employment. The professional or departmental member should bring clearly and accurately before the committee by means of evidence the existing organization of the department, its technical requirements, the professional attainments essential for efficient service in its various branches, and the results of local experience as to the comparative value of the services rendered by persons of various classes now employed in the department. It will be convenient that the sub-committee should closely restrict the scope of its inquiry to the practical issues which it is desired to elucidate.

His Excellency in Council desires that every class of Her Majesty's subjects in India shall have full opportunity to explain and illustrate its claims through representative witnesses on all the subjects of inquiry.

Order—

Ordered, that a copy of the above Resolution be forwarded to the President and Members of the Commission.

Ordered also, that a copy of the Resolution be forwarded to all Local Governments and Administrations for information and guidance, and with the request that due facilities may be afforded to the sub-committee in the discharge of the duties entrusted to it; and to the several departments of the Government of India for information and communication to the heads of departments under them; and that copies be forwarded to the officers noted in the margin.
