GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following letter from H. R. GRIMES, Esq., Inspector-General of Jails, to the Chief Secretary to Government, dated Madras, 20th January 1887, No. 21.

I have the honor to forward the accompanying letter from the Superintending Engineer, IV Circle, forwarding a revised estimate, for Rs. 19,582, for constructing six cellular blocks in the Central Jail, Coimbatore, and to request that the sanction of Government may be obtained at an early date.

Enclosure.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Inspector-General of Jails, dated Coimbatore, 15th January 1887, No. 9 M.

Adverting to your letter, No. 5619, dated 26th ultimo, I have the honor to state that I have now had the amount estimated for a central watch-house removed from the total amount of the revised estimate of the close prison at Coimbatore; and the cost of iron bolts and locks has also been reduced to Rs. 10 each, according to a statement received from the Superintendent of the Central Jail.

2. The original estimate amounted to Rs. 21,935, and was sanctioned in G.O., No. 3270, of 16th November 1883.

3. The first revised estimate amounted to Rs. 21,441, and was sent to you with my letter, No. 257, of 18th August 1886.

4. The second revised estimate, with central watch-house reduced, amounted to Rs. 20,531, and was sent you with my letter, No. 336, of 21st October 1886.

5. The estimate sent now is the third revised estimate, with reductions for watch-house and locks, &c., and amounts to Rs. 19,582.

6. Rs. 19,582 is the probable cost if the work had been carried out by this department without the aid of jail labor. Its probable actual cost, deducting for jail labor, will be Rs. 13,121.

7. The original allotment of this year was Rs. 11,752; out of this, Rs. 7,545 was surrendered,* and a further surrender of Rs. 1,269 may now be made.

* *Vide* G.O., No. 2651 W., of 11th October 1886.

8. The revised estimate, with its accompaniments, are herewith forwarded, and I shall be obliged by your submitting them to Government, for sanction, at your earliest convenience.

Approved, and transferred to the Public Works Department.

(By Order.)

(Signed) H. A. STUART,
Under Secy. to Govt.

23rd February 1887.

ORDER—dated 9th March 1887, No. 722 W., Public Works.

The revised estimate, amounting to Rs. 19,582, for constructing a close prison at Coimbatore, is sanctioned in supersession of the estimate of Rs. 21,935 sanctioned in G.O., No. 3270 W., dated 16th November 1883.

2. This sanction has been registered as Provincial, No. 191 W. of 1886-87, and classified as Civil Buildings, Original Works.

12TH OCTOBER 1885, No. 2373 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Colonel ROSS THOMPSON, R.E., Officiating Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 24th September 1885, No. 384 E.W. :—

I have the honor to report that I have lately inspected the Calicut-Vayitri road and ghât, and have gone through the estimates with Mr. Cormac, Vayitri sub-divisional officer. A sum of Rs. 40,727 has been sanctioned in G.O., No. 1527 W., dated 1st July 1885, for purchasing land and houses and constructing quarters for the executive staff of the Vayitri sub-division; but I do not think it is necessary to spend so much money in this way, and I foresee that every rupee that can be saved will be required to meet expenditure on the ghât upon items which have, I think, been under-estimated for. For instance, the amount of blasting to be done is greater than provided for, and a sufficient margin has not been allowed for the construction and repair of parapets along dangerous portions of the ghât.

2. I have just seen a type of house which would suit admirably for the executive staff and for inspection huts. The house I refer to was constructed by Mr. Tomlinson, a coffee-planter at Chundale, near Vayitri, in the year 1878. It is perfectly sound and good now, and I would not desire a better temporary residence for myself. With the exception of renewal of thatch, it has not required repair since it was constructed.

3. It is wind and rain proof and does not *retain* the damp as brick, mud and stone houses do in the Wynaad.

4. As a proof of the dryness of the house (although situated in the midst of jungle), Mr. Tomlinson showed me several handsomely-bound books which have been in the house since 1878, and these books had no traces of damp or mould about them.

5. The house is simply a sawn timber frame, with double bamboo mat walls and partitions, and cadjan and grass roof; doors and windows glazed in squared wooden frames.

6. Two rooms, each 14 feet square, with two bath-rooms; verandahs 6 feet wide in front and rear and a porch in front; stables for two horses and three rooms for servants, viz., watchman, servants and cook; also one latrine.

7. A house and outhouses of this description can be constructed in six weeks for about Rs. 700.

8. Mr. Cormac, the sub-divisional officer, now lives at "Coolaquee," the bungalow which it was proposed to buy and repair for him. He only pays Rs. 30 per mensem for it and is perfectly satisfied with the arrangement.

9. The office for the sub-divisional officer is now rented for Rs. 20 per mensem and can be kept on at the same rate. Nothing further is required.

10. Cooly lines are not wanted as the contractors provide their own.

11. The clerks, draughtsmen and lascars have already found quarters for themselves and require nothing further. The contractors will take care of their own people; so we require no hospital buildings nor medical aid beyond what is already available in the Vayitri dispensary.

12. I have the honor to submit an estimate of Rs. 8,904 for the temporary buildings which I have recommended.

ORDER—dated 12th October 1885, No. 2373 W., Public Works.

The Government approve the proposals of the Superintending Engineer, IV Circle, and sanction the revised estimate, amounting to Rs. 8,904, in lieu of the estimate of Rs. 40,727, sanctioned in G.O., No. 1527 W., dated 1st July 1885, for housing the working staff on the Calicut-Vayitri road.

2. The total sanction for improvements to the section of road between Calicut and Vayitri will now stand at Rs. 3,19,788.

3. This sanction has been registered as Provincial No. 148 W. of 1885-86, and classified as Communications, Original Works.

4. If necessary, a revised estimate should be submitted to cover the anticipated excesses on other items.

Housing working staff on the Calicut-Vayitri road.

Revised estimate for —, sanctioned.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 27th August 1885, No. 360 E.W. :—

I have the honor to submit herewith the second of the estimates mentioned in paragraph 7 of the late Mr. Nordmann's letter, No. 27 V., of 25th January 1884, and referred to at paragraph 11 of G.O., No. 524 W., of 26th February 1884. The estimates for the first of the series, the Calicut-Vayitri road, were sanctioned in the following G.Os. :—

No. 3043 W., of 12th December 1884.
No. 155 W., of 19th January 1885.
No. 1527 W., of 1st July 1885.

2. The estimate now submitted is for the 46 miles of road from Vayitri to Gúdalúr, on the line approved in G.O., No. 3109 W., of 18th December 1884, and includes the following items :—

	Rs.
Reformation, including tunnels	2,55,510
Five large bridges having waterways varying from 50 to 120 feet...	71,044
Fifteen minor bridges having waterways varying from 10 to 20 feet	26,092
Rest-houses, &c.	7,728
Compensation for land	650
Repairs while the improvements are in progress	41,400
Total ...	4,02,424

3. The estimates are accompanied by a survey and sections of the road in 62 sheets, 8 plans of bridges, a sketch-map, and a report, which have all been prepared with much care by Mr. A. B. Todd, Assistant Engineer. A general abstract estimate, framed in this office, is sent with them.

4. The estimates for road-making, bridges and buildings provide $2\frac{1}{2}$ per cent. for contingencies and $2\frac{1}{2}$ per cent. for superintendence ; and the only item of the sufficiency of which I am doubtful is that for "compensation." I think Mr. Todd may be mistaken in supposing that owners will make presents of land to the road, and that it will be safer to raise the total of the estimate by an item of Rs. 7,576 on account of unforeseen demands and other contingencies. This item has accordingly been entered in the general abstract estimate, making the total to come to Rs. 4,10,000.

Note by the Chief Engineer, Public Works Department.

The estimates now before Government provide for improving, and placing in good order, the road between Vayitri and Gúdalúr in Wynaad, a distance of 46 miles. The estimates amount to Rs. 4,10,000, being at the rate of about Rs. 8,900 per mile.

2. These estimates provide for the third and last portion of the through road between Ootacamund and Calicut. The improvement of the portion between Ootacamund and Gúdalúr, 31 miles, has now been nearly completed at a cost of Rs. 1,83,250 ; and estimates, amounting to Rs. 3,19,788,* have been sanctioned for improving the portion between Vayitri and Calicut.

* G.O., No. 1527 W., dated 1st July 1885.
„ „ 2373 W., „ 12th October 1885.

3. The estimates now laid before Government have been prepared in a manner highly creditable to Mr. A. B. Todd. The line adopted is that approved in G.O. of 18th December 1884, No. 3109 W. The gradients on the new line will be considerably easier than those on the old road, while at the same time the through distance is shortened by $2\frac{1}{2}$ miles.

4. The points in the estimate which appear to require notice are—

(1) The width of roadway allowed is 16 feet, of which it is proposed to metal 12 feet. The width should be increased to 18 feet, the metalled portion remaining as proposed.

(2) The proposal to omit check-drains where the line runs through plantations is not approved.

(3) The estimates for rest-houses should be revised and reduced in accordance with the Superintending Engineer's letter, No. 384, dated 24th September 1885.

(4) The Superintending Engineer's suggestion, to add a sum of Rs. 7,576 to cover the cost of compensation for land, is approved.

3rd October 1885.

(Signed) J. SHAW-STEWART, Col., R.E.,
Chief Engineer, P.W.D.

ORDER—dated 15th October 1885, No. 2412 W., Public Works.

The estimates, amounting to Rs. 4,10,000, for improvements to the road between Vayitri and Gúdalúr, are sanctioned for execution when funds are available.

2. The remarks of the Chief Engineer should receive attention.

3. The Government concur in the Chief Engineer's commendation of the creditable manner in which the project has been submitted by Mr. Todd.

4. The question of transferring the charge of the road to the Public Works Department, while the improvements are in progress, will be a matter for future consideration.

5. The sanction accorded in paragraph 1 of these proceedings has been registered as Provincial No. 149 W. of 1885-86, and classified as Communications, Original Works.

To.

The Superintending Engineer
4th Circle

Sir,

With reference to your memo No 471/W.I dated 26th ultimo, regarding the outlay etc incurred in connection with the purchase of an iron bungalow at Dingley Dale, I have the honor to state that the purchase in question was made with the sanction of the then Acting Superintending Engineer about October 1885, and with the permission of the same Officer the portion of the charge appertaining to this Division was met from the Subhead "Hutting" provided for Ooty-Gudalur Road Improvements.

2. The total value of the Bungalow was Rs 1097-4-8 upto date as shewn in the en-

Books

Books of this Office of which Rs 313-4-8 were debited to West Coast Division during last Official year and Rs 78 in May 1886 making in all Rs 391-4-8 up to date. The further outlay will amount to Rs 350.

3. As the old existing bungalow was handed over by D. Bw to Local Funds and as the President of the Board declined to hand it back and as moreover this bungalow is often inconveniently crowded the Actg Superintending Engineer decided it would be better to provide accommodation for both Divisional Establishment Officers and Subordinates, at this convenient spot viz- the terminus of both Division roads, and as the material at Dudley Dell was going for a mere song he sanctioned its immediate purchase as rather than lose such an opportunity.

4. In march last I received a Cheque for Rs 500 from the Sub Divisional Officer Vayittri which however I was obliged to return as my building was not then sufficiently far advanced

advanced for me to pay it away. I request therefore this amount may now be allotted to West Coast Division to meet charges that are to be debited to that Division on transfer.

I have the honor to be
Sir
Your most obed^{t} Servant.

1 Plan.
1 Estimate.
1 Genl. abstract amounting to Rs 2440.

SIR,

In reply to your No. 1602 W.I of 23rd August 1886, I have the honour to forward herewith a plan and estimate for "constructing a Rest-house at Gudalur" amounting to Rs 2440.

2 Of this Rs 1,103. has already been paid Rs 409. has still to be paid for work done, and the balance is for work required to make the Rest-house complete and supply it with out-houses.

3. The circumstances of the purchase of this Bungalow were fully explained in this office No. 1431 of 13th August 1886. so that I will only now answer the questions asked in para 2 of your letter under reply

reference

reply.
reference

There is no record in this office showing from whom the Bangalow was purchased. The date of purchase was apparently about October 1885. It cost Rs 820. It was dismantled, removed a distance of 10 miles or thereabouts and re-erected at Gudalur.

4. My predecessor proposed to charge the amount to Subhead "Cutting" of the estimate for improving only Gudalur Road, but it is of course more properly debitable to the Subhead "Resthouses" of Vayitri Gudalur Road estimate, for which I understand the sum of Rs 7652 has been provided.

5. There is no doubt that a Resthouse of some kind is very urgently needed at Gudalur. The Bangalow there transferred to the Local Fund Board is now permanently occupied by their overseer and is scarcely ever available for officers of this Department.

The lower part of the only Gudalur Ghaut Road requires constant attention, and

and it is very essential that we should have a Resthouse handy.

I trust therefore that you will obtain speedy sanction to the estimate I now forward, and will allot funds in the current year for completing it.

I have the honour to be,
Sir,
your most obedt. Servant

ENCLOSURE
14 OCT. 86
EXAMINER'S OFFICE

Sir,

Enclos. 3
1 Letter of Exe: Engr West Coast Dn No 514 of 5/8/86.
2. Do of Ex: Engr Nilgiris No 1431 of 13/8/86
3. Do — Do — No 2002 of 4/10/86.

I have the honor to report on the case of the Dingi Dale Bungalow for your information and orders, as after full enquiry I see no way of settling the matter myself.

2. In the Examiner's objectionable Item statement for June 1886 there appeared, under the head "Improvements to the Road from Vajitri to Gudalur", two items marked B & C, "Part cost of one teak and iron bungalow at Dingidale" and "Dismantling do ——do"; which I did not understand, and about which there was no information in my office.

3. Now the only "Improvements to the Vajitri

Vayitri-Gudalur Road" yet sanctioned for execution are the Sholadi Bridge and its approaches, for which a special allotment of Rs. 3000 was granted in last year, and Rs 17,551 in this.

4. There is no sanction for Bungalows or Rest houses in connection with that road, though some are badly needed. Our Officers and Subordi-nates have occasionally to travel along that line inspecting Police Postal &c buildings, and are entirely dependent on the residents for shelter; as except at Devala there is not now a Public Bungalow or Hotel from Nedivatum to Vayitri.

5. Provision× for Rest houses was made in the Vayitri-Gudalur Road estimate. This was however objected to by Colonel Ross Thompson R.E., and a Revised Estimate of the Rest Houses ordered⊕; but, owing to the change of Divisional Officer, probably, the revised estimate has never been submitted, and no funds have ever been allotted for the con-struction of Rest houses on that road.

× Rs: 7,728

⊕ G.O. No. 2412A1. of 15th October 85 Notes of Chief Engr. para 4 (3)

6. Funds have only been granted for the Sholady Bridge and its ap-proaches; and it was, of course, altogether irregular charging a Rest house to be built at Gudalur to the bridgework at Sholadi, 23 miles distant. The two works had no connection with one another.

7. From the letter of the Executive Engineer, West Coast Division, No. 514 of 5th August 1886, and those of the Executive Engineer, Nilgiris, it appears that a certain Teak and Iron Bungalow was purchased for erection at Gudalur "with the sanction of the acting Superintending Engineer about October 1885, and with the permission of the same Officer the portion of the charge ap-pertaining to this (Nilgiri) Division was met from the Sub head "Rutting"

× Nos 1431 & 2002 of 13th August & 12th October 1886 respectively

provided

"provided in Ooty-Gudalur Road Improvements."

8. That "sanction" appears to have been given orally by the acting Superintending Engineer, and never committed to writing; as it cannot be traced in the records of this office; and written confirmation of the oral instructions does not appear to have ever been solicited by the Executive Engineer, Nilgiris as directed in paras 1519 and 1520 of the Code.

9. From the letter of the Executive Engineer, West Coast Division, it appears that Rs. 391-4-8 were charged in the accounts of that Division against the allotment of the Sholadi bridge; and Rs 711-11-4 have apparently been charged in the Nilgiri Division against the Ooty Gudalur Road Improvements.

10. Owing to the changes of Division Officers, the present Executive Engineer, West Coast Division, finding there was no regular sanction declined to make further payments; and the Executive Engineer, Nilgiris, requested that an allotment might be made to the West Coast "to meet charges to be debited to that Division in transfer."

11. The Executive Engineer Nilgiris now submits a plan and Estimate amounting to Rs 2,440, for the Rest house complete with outhouses, and suggests that the total cost should be charged to the sub head "Resthouses" of Vayitri-Gudalur Road. In that case recoveries would be made to the "Improvements" of the Ooty Gudalur Road, which has already borne part of the cost.

12. Funds for this purpose may be found by a transfer from this years allotment for the Calicut Vayitri Road. It is just

Item No 67 in the Budget.

a

a little doubtful whether the whole of the allotment of Rs. 1,00,000 provided for that road can be advantageously spent this year.

I have the honor to be,

Sir,

I have the honor to submit two alternative estimates for Rest houses on the Vayitri-Gudalur Road.

2. In the Chief Engineer's note printed with G.O. No. 2412 W. of 15th October 1885, a revised estimate of rest houses on that road was called for, and in G.O No. 2831 W of 28th October 1886, it was ordered that the teak and iron bungalow at Gudalur should be included in that estimate.

3 One of the estimates now submitted provides for cutcha buildings

Inspection Bungalows on the Vayitri Gudalur Road—

Submits for sanction estimates for constructing the—

Public Works Department.

Current No. 2037
Letter No. 120 E.W.
Dated the 10th March 87
From the S.E. IV Circle

Note of Remarks.

1. Two alternative designs with estimates are now submitted on the lines of one of which (that approved by E.W.) it is proposed to construct Rest houses at Meppadi and Cherambadi on the road from Vayitri to Gudalur. — One design is for a "permanent" structure which with outhouses is estimated to cost Rs. 5,130 at Meppadi, and Rs. 5,330 at Cherambadi. — The other is for a "temporary" structure which with outhouses is estimated to cost Rs. 700 at Meppadi, and Rs. 700 at Cherambadi.
2. Neither a report nor specification is submitted by E.E. but he urges strongly in his letter No. 129 of the 23rd February 87, the sanction of the design for a permanent structure and he is supported in his request by S.E.IV. who strongly

Enclosures. 12 21
(+ 3 plans)

Inspection Bungalows on the Vayitri Gudalur Road—

Submits for sanction estimates for constructing the—

Public Works Department.

Current No. 2037
Letter No. 120 E.W.
Dated the 10th March/87
From the S.E. IV Circle

Note of Remarks.

1. Two alternative designs with estimates are now submitted on the lines of one of which (that approved by E.W.) it is proposed to construct Rest houses at Meppadi and Cherambadi on the road from Vayitri to Gudalur. — One design is for a "permanent" structure which with outhouses is estimated to cost Rs. 5,130 at Meppadi, and Rs. 5,330 at Cherambadi. — The other is for a "temporary" structure which with outhouses is estimated to cost Rs. 700 at Meppadi, and Rs. 700 at Cherambadi.

2. Neither a report nor specification is submitted by E.E. but he urges strongly in his letter No. 129 of the 23rd February/87, the sanction the design for a permanent structure and he is supported in his request by S.E.IV. who strongly

recommends its adoption – the reasons assigned being:- the very exceptional climate of Meeppadi and Cherambadi, and the great difficulty, if not impossibility, experienced by officers to find suitable accommodation at those stations.

3. The main building of what is termed the "permanent" structure is a rectangular shed, 40 ft. × 26 ft., consisting of two rooms, each 14½ ft. square, surrounded by a verandah so closed in as to form at one rear corner a panting and an office and at the other, a store room and a bath room. A porch, 12 ft. × 8 ft., is provided in front. – The foundation and basement are to be dry rubble in clay. The superstructure, outer and partition walls, is to consist of junglewood planking 1¼ inches thick fastened to wooden posts, 6 inches square in cross section, which support a pent roof of Mangalore tiling. A ceiling of bamboo matting is provided under the tiles. The flooring is to be [illegible] stratum 1 foot thick [illegible]

with a coating of tar and sand ½ inch thick. Glazed doors and windows are provided. – The outhouses consist of a shed for servants, 36 ft. × 12 ft.; divided into three rooms; a stable, 20 ft. × 12 ft., divided into a stall and a horse-keeper's room; and a latrine, 6 feet square. The foundations and basements of the outoffices as in the case of the main building, are to be of dry rubble in clay; the walls are to be of planks, 1¼ inches thick, fastened to posts. The roofing is to be of Mangalore tiling; and the floors are to be formed of gravel.

4. It is proposed to construct the rest houses (permanent) at Meeppadi and Cherambadi on exactly the same lines and the higher cost of the building at the latter station is due to the higher rate for Mangalore tiling obtaining there.

5. The scantlings of the timbers are safe. The rates are fair – Rs. 300 are allowed in the case of each of the two permanent rest-houses

as 'compensation for land'. Stoving stove at Rs.50, is to be provided for each of the two rest houses.

6. In the event of E.W. approving S.E.W.'s proposal to have these two rest houses of a permanent type then the charge under the heading 'Rest-houses' on the Vayitri-Gudalur road will stand thus:- Rest house at Meppadi - Rs.5,130; Rest house at Cherambadi - Rs.5,330; and the teak and iron Rest house at Gudalur - Rs.2,440 = a total - Rs.12,900. The Rest house at Gudalur is included here in obedience to G.O. No. 2831 W. of the 28th October 1886.

7. The other design provides for a temporary building similar to those constructed on the Ballicul - Vayitri Road; and has been prepared on the lines of a private residence of which Colonel Ross Thompson wrote (in his letter No. 384 E.W. of the 24th September 1885): - "The house is simply a sawn timber frame, with double bamboo mat walls and partitions and cadjan and grass roof; doors and windows glazed in squared wooden frames."

"Two rooms, each 14 feet square, with two bath rooms; verandahs 6 feet wide in front and rear and a porch in front; stables for two horses and three rooms for servants, viz., watchman, servants and cook; also one latrine."

8. The estimated cost of a Rest house constructed on the lines of the design for temporary buildings is Rs. 700 at Meppadi and at Cherambadi.

IV

Recommended that the Estimate for permanent buildings be sanctioned as

Rest house at Meppadi	Rs	5130
Do Cherambadi		5330
Gudalur		2440

Has the Land Lease for this Block been sanctioned? Jun. 16/3/87

Ribeiro

In returning the enclosures received with letter from the S.E. IV Circle, No. 120 Ews dy 10th March 1887, the undersigned has the honour to remark that it was represented by Col Thompson (vide G.O. No 2373 W dy 12th October 1885) that thatched houses similar to one he had seen at Chandale would suit admirably for inspection houses, & it is presumed that the estimates now submitted for Kateha two Sub-inspection houses are for buildings of this description. The estimate for the more permanent rest houses are considered too extravagant, & that a tiled roof is better & suitable than a thatch, it does not seem desirable to adopt it & to put a different one in act. The S.E. should consider whether rest houses with tiled roofs cannot be constructed at a cost with allowance of about 2000 Rs - if not thatched houses must be provided, he may can provide better ones recommended than the present plan pairs.

In returning the enclosures received with letter from the S.E. IV Circle No. 120 Ews dy 10th March 1887, the undersigned has the honour to remark that it was represented by Colonel Thompson (vide G.O. No 2373 W dy 12th October 1885) that thatched houses similar to one he had seen at Chandale would suit admirably for inspection houses, and it is presumed that the estimates now submitted for Kateha

No 2037 Reg: Inspection Bungalows on the Vayittri Ghauts. Road - Enclos 21.

rest houses are for buildings
of this description. The
estimate for the more permanent
rest houses is considered
too extravagant, and though
a tiled roof is better
and will require less repair
than thatch, it does not
seem desirable to adopt
it at so great a difference
in cost. The Supte
Engineer should consider
whether rest houses with
tiled roofs cannot be
constructed at a cost
with outhouses of about
2000 Rs/-, if not, thatched
houses must be
provided, but they can
provide ~~better~~ rather more
accommodation than the
present plan gives.

17	Reserve limit Rs Balance in hand Rs			33,000 35,105						The Executive Engineer states that the balance will be reduced to within sanctioned limit as soon as possible. The reserve limit for the Division was only recently raised to Rs 33,000 and no reason is given why the stock in hand should not be kept within that limit.	Arrangements should be made to keep the balance within the sanctioned limit.

Provincial Statement of Objectionable Items in the Accounts of

Executive Engineers for the month of October 1886

requiring the orders of Government.

A.S.C. 18/1

Nº 1078 w 9 18th Sept 1887

No. 1078 W.

Public Works Department

Proceedings of the Madras Government.

Under date the 18th April 1887.

With reference to Public Works Department Circular No. 686 C dated 25th February 1887, and G.O. No. 827 W dated 17th March 1887, the Ramnad sub division will be reconstituted a temporary division with effect from 1st May 1887. If the office establishment sanctioned in G. O. No. 942 W dated 28th March 1887, requires strengthening, the Superintending Engineer VI Circle will submit a revised statement for consideration.

2. The Examiner Public Works Accounts will submit a statement of the temporary Accounts establishment rendered necessary by the constitution of the new temporary division.
