No. ~~621~~ 633 S. E. 5th dated ~~1st~~ 2nd April 1887 on Superintending Engineer's (5th Circle) No. 6242 dated 16th March/87 forwarding letter from General Superintendent P. W. Stores regarding the loss of certain mathematical Instruments, recommending that the same be written off the Stores Account.

of the Chingleput District writes as follows.

"Careful enquiry has been made "by the Police and Magistracy about "the disappearance of the Compasses, "and as a result I have no doubt "that they were not stolen, but that "the box having been broken by the "violence of the waves, its heavy contents "went to the bottom (where they may "yet be discovered at low tide in the "hot weather) while the empty box & "drifted ashore.

"Prismatic and Beam compasses No. "are about the last things a thief would "think of stealing and almost impos-"sible to dispose of without detection".

2. Under the above circumstances and considering the improbability of recovering the lost articles I request you will obtain the Sanction of the Chief Engineer for writing off these items from the Store accounts. If by any chance they are recovered they will be utterly useless.
