to blame, and which it appeared to me
might best be noticed by delaying the
Assistant Engineer's promotion for
say, three months. The matter is however
not yet quite ready to send up. it
shall follow soon.

I have the honor to be

Note.

The Subg. Engineer
suggests that the promotion
of R. A. Srinivasa Srinagar,
(under code para 88), be
delayed for three months
as a punishment for a
loss of "materials at site"
which is shoddy & re-
ported to the Chief Engineer.

Code para 88 lays
down that "successful can-
didates in the 3rd grade
will be promoted with
effect from the date of their
passing the examination,
provided they have then
served one year in their grade."

Srinivasa Srinagar
has served one year in the
3rd grade and should there-
fore get his promotion from
9th April 1887.

If it is subsequently
necessary to punish Srinivasa
Srinagar for the loss of
materials, he can be made
