SIR,

In reply to your No. 103 of 8th instant,
I have the honor to send herewith a tracing
showing the site for the Museum "East of
Channel" and the site originally proposed.

2. In selecting the former, Government
appear to be under the impression that it
is free from the objections to the latter, but
this is not the case, vide Para 2 of my No.
3215 of 7th February 1887.

3. Of the two sites Mr. Lawson prefers
that originally selected and so do I.

4. I have ordered materials, but will
await further instructions from you before
carting them to site.

I have the honor to be
Sir
Your most obed^t Servant.

SIR,

With reference to your indorsement N^o 444
N.I. dated 2nd February 1887 on Proceedings of the Madras
Government Revenue Department, No 240 of 15th W^m,
I have the honor to report that I inspected the site
East of the Channel with Mr. Lawson before sub-
-mitting the estimate for the Museum and portis-
-ing myself
-fied that these estimates would suit either side.
2.

The soil East of the Channel is of similar
description, and the site is quite as suitable as the
one shown on the plan except with regard to access-
-ibility, and there is no great difference even in
this respect.

I have the honor to be
Sir
Your most obed^t Servant.

With reference to G.O. No. 647 W.
of 3rd Instant, I have the honor to
forward, for your approval and o-
bliging return, the revised site plan
of the proposed Museum at Oota -
canvassed.

2. The Executive Engineer had
already reported that the new site
was unobjectionable, except with
regard to accessibility; and that
there was no great difference
even in this respect.

3. It

3. It appears to me that the new site is equally accessible to persons in carriages with the one originally chosen, as it is close to a public road; and that, as regards persons on foot, it can be made so by the construction of a foot bridge over the stream.

I have the honor to be,
Sir,

Your most obedt. servant.
