11TH MAY 1887, No. 1285 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from G. D. WYBROW, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Bapatla, 6th April 1887, No. 19 K.S. :—

I have the honor to submit, for your approval and the sanction of Government, an estimate, amounting to Rs. 30,745, for constructing a road from Narakodur (on the 7th mile of Guntur-Tsandole road) to Jagerlamudi and for improving the existing road between Jagerlamudi and Tenali.

2. Copy of the proceedings of the Local Fund Board is forwarded together with a report and data.

3. The rates, &c., are suitable and the estimate is recommended for sanction.

4. It will be seen from the survey that the road passes through our Public Works Department quarry. The land for this quarry was recently purchased by Government, and I think that the President of the Local Fund Board should arrange to give land, adjoining the quarry, in lieu of that taken up by the proposed road.

ORDER—dated 11th May 1887, No. 1285 W., Public Works.

The estimate, amounting to Rs. 30,745, for constructing a road from Narakodur (on the 7th mile of Guntur-Tsandole road) to Jagerlamudi and for improving the existing road between Jagerlamudi and Tenali in the Kistna district, is sanctioned.

2. The Local Fund Board will be requested in the Local and Municipal Department to arrange to make over to the Public Works Department a piece of land adjoining the quarry in lieu of that to be taken up by the road where it passes through the quarry.

3. The sanction accorded in paragraph 1 of these proceedings has been registered as Local, No. 6 W. of 1887-88.

NOTE OF REMARKS.

1. The accompanying estimate, survey and sections provide for constructing a Road from Karakodur (on the 7th mile of Guntur Sandole road) to Jagerlamudi and for improving the existing road between Jagerlamudi and Tenali in the Krishna Dist. The amount of estimate is

Ruprees 30745.

2. Length of the road is 9 miles 430 feet. The top surface of the road to be 18 feet in width, of which 12 feet will be metalled to a thickness of 6 inches and covered with gravel to the depth of 1 1/2 inches. The side slopes of the embankment to be 2 to 1 in high ground and 3 to 1 in low places. The two drainage courses, in 1st & 3rd miles will be paved with rough stone, with a bodyman on

on either side, and an apron 10 feet wide on the lower side. The ramps on either side of the Road-dam will be sloped to a gradient of 1 in 30.

3. As for units of work cubic yard is used in the estimate instead of Cubic feet.

4. Rupees 1250 has been provided in the estimate for compensation for lands.

5. As for rates a list of data is submitted.

6. Petty supervision and Contingencies are each charged at $2\frac{1}{2}$ percent.

7. The estimate has been countersigned by the President of the Local Fund Board.

Attention is invited to para 4 of the S. G.'s letter.
