Sir

During my inspections of
Presidency Hospitals I have
frequently had to notice the
bad state of repair of some of the
buildings, especially those of the
General Hospital and Hospital
for Women and Children.

2. I have now therefore the honor
to submit to His Excellency in
Council a letter from the Senior
Medical Officer General Hospital,
stating that his appeals to the
Department of Public Works have
been fruitless as regards
practical results, and pointing

SUPERINTENDING ENGINEER'S OFFICE,

From Col. Dr. W. Burston. R.E.
SUPERINTENDING ENGINEER,
V CIRCLE,

To THE Chief Engineer
P.W. Department
Botacamund.

Sir,
In returning your Endorse-
ment No. 1003 c dated 16 March 1887,
I have the honor to report on the
action taken in reference to the
several items of work noticed in
the two letters - viz from the
Senior Medical Officer, Ge-
neral Hospital and Dr. Bidie.

- Q. As regards the General
Hospital Buildings.
- (a). White & color washing inside of
the building was done in 1885.
Wood work was last painted
in 1883. No Requisition was re-
ceived from the Medical
Officer for the painting by the
Executive Engineer after 1883.
The inside of the buildings will
now be white & color washed
and the wood work paint-
ed again this year.
 - (b). The repair and renewal of
Bine

Enclosures.

Drain pipes for carrying off rain water from roofs and waste water from bath rooms is now in progress.

(C) An Estimate has been sanctioned for the removal outside of the stairs leading from kitchen to pantry. but has not been carried out hitherto for want of funds. Outside staircase is now commenced.

(d) Replacing of basins in the Lavatories is now being carried out.

(e) & (g) Estimates have been sanctioned for renewal of partition screens in contagious sheds and for building latrines for out patients, but have not been carried out for want of funds.

(h) The removal of bath room from the South end of Officers Quarters to the North end is in progress.

(i) The two pillars supporting the third loft which are in a dangerous condition are being examined and the necessary work will be done.

(j) An Estimate has been sanctioned for alterations to the Students latrine and

await amendment of general.

As regards the Women & childrens hospital and para 4 of Doctor Bidie's letter, the Hospital main building & out houses are in want of petty repairs. and an estimate is in preparation for carrying out the work. The statement in Dr Bidie's para 3 that "the thatch of some of the Sheds" for special cases which was carried away during the cyclone of last year, has actually never been replaced" is a mistake as the whole of the Sheds were repaired at once on emergency at a cost of Rupees 90.
