GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

READ—again G.O., dated 24th February 1887, No. 75, Marine.

READ—also the following papers:—

From the Officiating Secretary to the Government of India, Marine Department, to the Chief Secretary to the Government of Madras, dated Fort William, 23rd March 1887, No. 412.

With reference to the correspondence ending with Marine Department Memorandum No. 3, dated the 3rd January 1887, relative to the provision of a steamer for the Government of Madras, I am desired to say, for the information of His Excellency the Governor in Council, that the Governor-General in Council sanctions the Government of Madras making their own arrangements to procure a vessel of the description required, either by purchase or construction, for the purposes mentioned in despatch of the Government of Madras, No. 2, dated the 23rd May 1884, to the Secretary of State for India, it being understood that the initial cost of the vessel and subsequent cost for establishment, maintenance, repairs, &c., will be met entirely from Provincial or Local funds.

2. As you have already been informed in Marine Department letter, No. 448, dated 1st May 1886, the vessel will fly the Marine Ensign, will be officered and manned by the Indian Marine, and be under the Marine Service Act.

From the Director of the Indian Marine, dated 23rd February 1887, No. 721.

ORDER—dated 3rd May 1887, Nos. 185, 186, Marine.

The first of the two letters read above concludes a correspondence which has been going on for upwards of two years with the Government of India regarding the purchase of a steamer by the Madras Government for local use.

2. The Government of India have now sanctioned the acquisition by this Government, either by construction or purchase, of a steamer for the purposes specified in Madras despatch No. 2, dated 23rd May 1884, to the Secretary of State.

3. The steamer in question, though to be paid for and maintained from Provincial or Local funds, will form part of the Indian Marine, from which she will be officered, and will be under the Marine Service Act. But * as regards her employment and movements she will be absolutely under the control of the Madras Government, and should she be at any time used for Imperial purposes, this Government will be entitled to a drawback (to be fixed hereafter) on that account. The cost of the vessel is not to exceed £20,000.

* Letter from Government of India, dated 1st May 1886, No. 448 (ships), recorded in G.O., dated 18th June 1886, No. 319, Marine.

4. The type of steamer required is set forth in a memorandum by Lieut. Taylor, R.N.R., Port Officer, Madras, recorded in G.O., dated 24th February 1887, No. 75. The Government have lately been in correspondence with the Director of Indian Marine regarding the purchase of such a vessel for them at Bombay, but without satisfactory result.

5. Lieut. Taylor is now proceeding to England on special duty to give evidence before a committee appointed by the Secretary of State to consider a proposed alteration of design in the Madras Harbour. His Excellency the Governor in Council believing that a vessel of the kind he requires can be most easily and cheaply procured in the home market, resolves to take advantage of Lieut. Taylor's deputation to make the necessary inquiries through him. Lieut. Taylor will accordingly be instructed to look out for a suitable vessel, and the Secretary of State will be requested to give him every assistance in discharging this mission. Lieut. Taylor will, however, understand that he is not empowered to purchase or order a vessel without express sanction from His Excellency in Council. If he finds a ship he considers suitable, he will at once report the fact to this Government, with full description and particulars, and he will thereupon receive instructions by telegram. Without such instructions he will have no authority to conclude a bargain.

6. The question of the apportionment of Lieut. Taylor's expenses between Madras Harbour and Port funds will be settled hereafter.
