READ—the following letter from Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 13th May 1887, No. 1836 A.:—

I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimate, &c., below mentioned, which have been approved by the Commander-in-Chief. The estimate has been countersigned:—

Estimate, amounting to Rs. 880, for coating with country wood the pillars of the stables of the P and Q Batteries, 1st Brigade, Royal Artillery, at St. Thomas' Mount, with report.

2. This work is considered necessary in order to protect the masonry pillars from destruction by kicks from the horses. The liability of the pillars to destruction is due to the original faulty construction of the stables, the stalls of which not being of sufficient depth, horses standing in them can kick the pillars with ease. Stone is not as suitable as wood for the purpose.
