GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Civil Works.

READ—the following letter from G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Ootacamund, 6th May 1887, T. No. 1019:—

I have the honor to request that you will be pleased to obtain the sanction of the Government for the preparation of plan and estimate, on the revised standard tiled design, for the erection of a Sub-registrar's office at Vilatikulam, in the district of Tinnevely.

2. When I inspected the sub-district on the 13th July 1884 I remarked that—

“The office is held in a room wedged in between the deputy tahsildar's catcherry and the sub-jail. The accommodation is insufficient, but it is better than that at Tuticorin, Otapidaram and Sátor. It may be continued at present.”

3. The Registrar, in his report of inspection, dated the 9th February 1887, again alluded to the insufficiency of the accommodation, and the sub-registrar writes:—

“The room measures nearly 16 feet by 12 feet. The office furniture (almirahs, chairs, &c.) occupy more than one-half of the area of the room. The remaining half is scarcely sufficient for the establishment, thus practically very little space remains for ingress and egress of the parties. It is highly inconvenient not only for carrying on of the office work, but also for the parties, so much so that two parties cannot stand abreast without elbowing and pressing against each other.”

4. Suitable accommodation having been provided since 1884 for the three other stations mentioned in my remark, it is desirable that Vilatikulam should be now provided for.

Approved and transferred to the Public Works Department.

Sir,

I have the honor to request
that you will be pleased to obtain the

preparation of plan and estimate,
on the revised standard tiled design,
for the erection of a sub-registrar's office
at Vilatikulam in the district of

2. When I inspected the sub-
district on the 13th July 1884, I remarked
that:

8p The office is held in a room

accommodation is insufficient,
but it is better than that at Tuticorin.

Chapidarum and Satw. It may
be continued at present."

3. The Registrar in his
report of inspection dated the 9th
February 1887, again alluded to the
insufficiency of the accommodation,
and the Sub Registrar writes:

"The room measures nearly
16 feet by 12 feet. The office furniture
(almirahs, chairs &c.) occupy more
than one half of the area of the room.
The remaining half is scarcely suffi-
cient for the establishment. Thus practically
very little space remains for ingress
and egress of the parties. It is highly
inconvenient not only for carrying
on of the office work, but also for the
parties, so much so that two parties
cannot stand abreast without

mentioned in my remarks,
it is desirable that Dilatikulam
