PUBLIC WORKS DEPARTMENT.

No. 1443W

PROCEEDINGS OF THE MADRAS GOVERNMENT.

UNDER date the 26th May/87

READ the following

From the Supdg. Engineer W circle H.E. No. 187
S.W.
Office Note from the Examiner P.W. Acts No. 123 d/ 18th May 1887

Sanction is
accorded to the adjust-
ment of the stock account
of the Nilgiri Division
as proposed by the
Executive Engineer and
approved by the Supdg.
Engineer.

2. The provisions of para
1850 of the P.W. Code should
be noted for future
guidance.

To W.

Encs. 2

The proposal of the Executive
Engineer Nilgiri Division is in
accordance with Code rule, vide para 1850,
and may be accepted. With reference
to para 2 of the Executive Engineer's
letter, as pointed out by the Supg.
Engineer, the broken and half bricks
should not have been shown and
valued as whole bricks during these
many years past, but necessary
adjustments should have been made
every half year - vide Code para
1850. This should be done in future.

Brick manufacture & Re-
quests permission to strike off
certain quantity for reasons
stated within

No 187
E.W.

Supg. Engineer's Office, 4th Circle
Bombay, 3rd May 1887.

Submitted to the Chief Engineer, Public Works Department, with a request that he will be good enough to obtain the sanction of Government for adjusting the Stock Accounts as proposed by the Executive Engineer in the foregoing letter.

2. Sanctions should have been obtained from time to time, as the loss by broken bricks occurred, and the Executive Engineer will now be warned to take care that this is done in future; so that the loss may be properly distributed to all works on which the bricks are used.

L. Beatty. Col. R.E.,
Supg. Engineer, 4th Circle.

And 1973 of the code to their removal from the List of full bricks and to their classification as broken bricks at Rupee one per cys which is about their market value. I also require permission to distribute the value written off viz Rs 3610. 13. 6. among all works in progress on which the bricks have been used.

H. I append a Comparative Statement showing how this proposal will affect the value of Stock at end of March. That value will be greatly reduced but it will be a true and not a fictitious one as at present.

I have the honor to be

Sir

Your most obedient servant

H. Beatty
Executive Eng.

NILGIRI DIVISION OFFICE,

STATION *Ootacamund.*

28th April 1887.

FROM

W. B. de Winton Esq.

~~THE~~ EXECUTIVE ENGINEER,

NILGIRI DIVISION,

OOTACAMUND,

TO

THE SUPERINTENDING ENGINEER,

FOURTH CIRCLE,

COIMBATORE.

SIR,

I have the honor to report that in taking stock at the Lake Brickfield lately I found that of the 2,32,473 bricks shown as balance in hand at end of February 1886 consisted of half bricks and 17,106 of broken pieces of bricks classed as "Luski" leaving a balance of only 49,101 whole bricks suitable for use in construction.

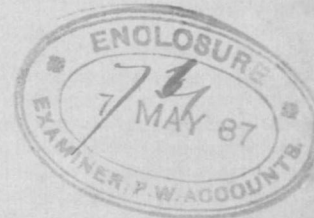

2. These half and broken bricks are the accumulation of all ^{the} years of the Brickfield's life -

3. As they are useless for anything concrete, I have the honor to request " " obtain the sanction of - under Para. 1972,

N.B.—Please quote the number and date of this letter in future communication on the subject.
