NOTE OF REMARKS.

1. Under para 1339 of the P.W. Code the accompanying plan and estimate of Rs 18200, are submitted for constructing a Hospital with out-houses for the Male Branch Lawrence Asylum, Ootacamund.

2. The original plan and estimate for constructing the above building amounted to Rs 21,008, and was sanctioned in G.O. No. 3281 W of 12th December 1882, but the work was never carried out for want of funds.

3. At the request of the Lawrence Asylum Committee, the present fresh plan and estimate have been prepared and approved by the Committee. It is proposed that the building should be constructed by the P.W. Department from funds supplied

by

by the Lawrence Asylum Committee
The Asylum Committee further
ask Government to exempt
them from the payment of
the usual percentage for
Superintendence and Tools
and Plant.

4. No specification has been
submitted.

5. The height of walls of the
main building is to be 14 feet
and for the out houses 9 feet
The foundation, basement &
the superstructure &c of the
main building to be built
with table moulded bricks
in mortar, & for out houses
& covered passage with
country brick in mud.
Plastering in & outside of the
walls of the main building
to be of chunam with 2 coats
of white wash, and for
out houses, pointing with
chunam and white washed.
Flooring to Wards, Dispensary,
sitting, special Ward &c and
passage in the centre of the
main building to be of 1 inch
teak planks screwed on
venga

venga Joists 5" x 3" placed
18 inches apart on wall plates
4" x 2", and the other rooms
and Verandahs on three sides
will be floored with brick
on edge on 4" of concrete &
plastered with 1/2" cement
mortar, as for Out houses
including Verandah and
covered passage to be
floored with 6 inches of
gravel and well rammed.
Roofing of the main building
to be of corrugated iron, pan-tiles including ridge & hip
laps with continuous iron
and chunam bands, as
for Out houses and covered
passage to be of corrugated
iron with ridge & hip
laps &c.

6. All wood work wrought
and put up to be of Venteak,
some of the scantlings of
timbers in the main building
are correct & some such
as purlins, principal rafters,
& bressummers &c are a

little less than what is allowed in the Standard specification and are marked in pencil in the detailed estimate. As for outhouses the scantlings are correct.

7. The estimate provides for only one truss for each of the Wards in the main building. The length of each Ward as will be seen from the plan, is 25 feet. It is submitted that it will be better if two trusses were provided at 8⅓ feet centre to centre in each Ward.

8. The rates are fair.

9. Contingencies are charged at 5 percent.

10. The plan and estimate have not been countersigned by the Lawrence Asylum Committee, but the Principal & Secretary of the Lawrence Asylum has submitted the papers for sanction.

Pro.

An Estimate of Rs: 31,538 for the work was sanctd in G.O. 3281. W. 8 12.12.82. In their letter 542. W. W. 8 14.6.83, India noted an entry in the Imperial Budget for the work, and said they were not prepared to spend any more money on the Asylum buildings. It was then decided that Provincial shd pay for any necessary buildings for the Asylum. Funds have, however, not been provided for the essential work of constructing a hospital for the boys, so the Asylum Comtee have decided to build one from their own funds. and an estimate has been prepared by E. E. Nilgiris. The plan and estimate have

IV

In the case of the Military Female Orphan Asylum at Madras, it was decided that the P.W.D. should undertake works of a simple character on payment of 15 % of their cost; but there are facilities for supervising and carrying out work in Madras that perhaps do not exist in Ootacamund -

There seems no reason why the L.A. Committee should not pay the usual contribution if the work is done by the P.W.D.

Before the work is put in hand the plan & estimate and all papers connected with the work, should be signed by the L.A. Committee.
