PUBLIC WORKS DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

B/

Under date the Oct 20 1886.
 Read the following

From the President, District Board, Kistna } H.E. No. 50 d/29 July 1886
 Endorsement thereon by the Financial Dept. } H.E. No. 531 d/30 Aug. 1886
 Memo to the S. & V circle H.E. No. 3210C d/22 Sept. 1886
 From the S. & V circle — H.E. No. 3518 d/13 Oct. 1886

M. De Bloes's letter will be transferred to the Financial (S. F.) Dept. with reference to Endorsement No. 531, Dated 30th August 1886, the enclosures of which will be returned.

2. As M. De Bloes is at present engaged in sinking an experimental boring in the

Kortalayer Valley the papers were forwarded to him for report whether he would be prepared to undertake a similar work at a site to be hereafter selected in the Masulipatam region, and from his reply it appears that he is prepared to undertake the experiment on Completion of his present engagement.

3. In regard to the apparatus referred to, there appears to be no objection to its being lent to the District Board for purposes of the

experiment on the understanding that they defray the cost of its conveyance to and from the site and pay a reasonable sum for wear and tear.

4. A copy of G.O. No. 1128 W. dated 5th May 1886 in which is embodied a statement of M. de Chose's terms will be furnished to the Financial Dept., and on the completion of the boring now being made under M. de Chose's supervision a copy of the orders of Government on the subject will be communicated for the District Board's information.

HC.
Memorandum
11/5/86

5. The boring in the Kortalayer Valley is to be 150 feet in depth and it is anticipated that, including all charges, the cost of the experiment will ~~be about~~ ^{be about} Rs 2000.

No 2763 W d/ Oct 20. 1886

Ch. Campbell

Per 160
J. W. Co.

Marras 27th October 1886

To

Major Geo Campbell A.E.
The under secretary to Govt P.W.D.

Marras.

Sir:

I have the honor to acknowledge the receipt of the parent proceedings No 2763 dated 20th October/86 referring to the proposed artesian well boring in Masulipatnam.

In this occasion, I shall be very much obliged if it was possible to get the following information from the S.F. Board Willna District. So as to enable myself to consult some geological record and to frame an estimate.

- 1^o At what place exactly the boring is intended to be made.
- 2^o What will be the limit of depth at which the S.F. is prepared to let the boring to reach.
- 3^o What is the supply of water required daily.
- 4^o What is the amount to be sanctioned for the work.
- 5^o And whether the piping is to be supplied by the S.F. or by myself.

The above information

(b) Read letter from the Chairman, Masou-
lipataw Municipal Council N^o 469 dated

18th November 1886, reporting that they are unable
to bear half the cost of boring an artesian well
at Masulipatam.

c) Letter from the District Engineer No. ⁹⁶⁷₄₄₀ dated
9th December 1886 stating that he would attempt
experimental borings here and there before
any larger sum on the work is spent, and the
President's remarks thereon concurring in
his view and proposing that the artesian well
boring proposed be abandoned for the present.

Resolution:— All action with regard to ar-
tesian well boring in Bander will be stayed
and Mr. Scott will be requested to make
experimental borings with Norton's Tube well.

(Sd) R. Sewell
President.

Order thereon of 12 January 1887 No. 76 L. (Mis.)
Communicated to Mons De closets with
reference to his letter of 27th October 1886.
