GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (Account—General), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 17th September 1884, No. 227 A.G.:—

I am directed to acknowledge the receipt of your letter, No. 2008 W., of the 15th ultimo, regarding the apportionment of the charges for Tools and Plant between Provincial and other funds, and to state that the Government of India has been pleased to decide that, as a tentative measure for the current official year and until further orders, the contributions from other funds on this account should be calculated at 1 per cent. on the total outlay on works and repairs executed by Provincial establishment. The question should be reconsidered and reported on after the accounts for 1884-85 have been finally closed.

ORDER—dated 10th October 1884, No. 2508 W., Public Works.

In the letter above read, the Government of India have sanctioned, as a tentative measure, the contributions from other funds on account of Provincial Tools and Plant being calculated at 1 per cent. from the commencement of the current official year. As the budget estimates for 1884-85 have been drawn up at the higher rate of 1½ per cent., the necessary alterations are now made.

2. The budget estimate of the cost of tools and plant, required for the current official year, is Rs. 98,156; and the contributions, at the reduced percentage now fixed, would amount to Rs. 20,300. Provincial funds will, therefore, have to bear a sum of Rs. 77,856, instead of Rs. 70,837 provided in the budget. The difference, Rs. 7,019, will be met from the Provincial reserve with Government.

3. The contributions will now stand as below:—

		Rs.
Estimate		98,156
Contributions from Imperial Military works, at 1 per cent. on existing grant	4,730	
Contributions from Imperial Other Services, at 1 per cent. on existing grant	1,050	
Contributions from Imperial Irrigation and Navigation and Agricultural Works, at 1 per cent. on existing grant.	14,040	
Contributions from Incorporated Local Funds, at 1 per cent. on existing grant	350	
Contributions from Excluded Local Funds, at 1 per cent. on existing grant	130	
		20,300
Balance to be provided from Provincial ...		77,856

4. The budget provision of Rs. 7,000 under Imperial Military has been reduced to Rs. 4,730. The difference will be added to the reserve under Original Works, under which head funds are required.

5. The provision in the Imperial Other Services budget for tools and plant, Rs. 1,700, has since been reduced to Rs. 1,558. As the contributions now amount to Rs. 1,050 only, the difference, Rs. 508, will be surrendered to the Government of India.

6. The provision of Rs. 497, made in the Incorporated Local Fund Budget, has been since increased to Rs. 527. The difference, Rs. 177, between this figure and the amount of contributions now arrived at, will be placed at the disposal of the Financial Department.

7. The existing provision for tools and plant under Excluded Local is Rs. 207, which has now been reduced to Rs. 130. The difference, Rs. 77, will also be placed at the disposal of the Financial Department.

8. Ordered that a copy of these Proceedings be forwarded to the Government of India.

In returning the letter from the Superintending Engineer, First Circle, No 2062 G.D. dated 15th ultimo, forwarded with your endorsement No 156C, dated January 28th 1886, I have the honor to observe that the estimate of Rs (855) Eight hundred and fifty five, for repairing the Vakalapudi lighthouse appears heavy considering that in the last inspection report of the Chief Engineer, recorded in G.O. No 164 Marine, dated April 20th 1885, the lighthouse buildings were said to be in good order. The estimate of Rs (3090) three thousand and ninety seems excessive for the lascars' quarters, as the one submitted by the

Executive

Executive Engineer, Buckingham Canal,
for new lascars' quarters in connection
with the Pulicat lighthouse did not exceed
Rs. (1675) one thousand six hundred and
seventy five. A similar plan might be
adopted at Vakalapudi. I would respectfully
suggest that this estimate be returned for
amendment. It is presumed that the sum
of Rs. (432) four hundred and thirty two entered
for copper work is for a new lightning
conductor to the lighthouse.
