JANUARY.

Chepak Park

Proposed rules for the conservancy of the —, approved and sanctioned.

1586/2

Annexure to G.O., No. 158 *W., dated* 19*th January* 1887.

RULES FOR THE CONSERVANCY OF THE CHEPAK PARK.

The park is bounded on the east by the Beach road, on the west by Bell's road, on the north by the Kuam river and Government House park, and on the south by Pycroft's road.

2. Walking on the grass within these limits, save in the vicinity of recreation grounds and gymnasium, is prohibited, except to those engaged in survey operations.

3. Carts conveying materials not intended for the buildings or roads of the park are not allowed into the park.

4. Only jutkas conveying persons to and from the Chepák offices and University are allowed on the main road which leads from the west or Triplicane entrance to the beach. All other jutkas must enter and leave the park by one of the two roads which lead from Pycroft's road along the canal.

5. No conveyance shall be picketed elsewhere than on the ground allotted for the purpose between the Presidency College stables and the south-west entrance.

6. Subordinates may resort for tiffin to the pond which lies in the south end of the park and west of the canal; but no other part of the park may be used for such purposes. Leaves and other refuse of meals must be placed in the bins specially provided near the pond.

7. Latrines have been provided for all classes.

8. The European Sergeant and Police have strict orders to ascertain and report the name of any person walking on the grass, injuring the plants, committing a nuisance outside the latrines, or otherwise infringing these rules.

9. If office subordinates, they will be punished by the head of their offices. Others will be prosecuted. A statement of all those so reported, and the punishments inflicted, will be kept in the Consulting Architect's office.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer, P.W.D.

19th January 1887.

Rules for the conservancy
of the Chepāk Park.

15/3

1. The Park is bounded on the east by the Beach Road, on the west by Bolle Road, on the north by the Kwan Sewer and Light House Park, and on the south by Sycroft Road.

2. Walking on the grass within the Park limits, save in the vicinity of recreation grounds and gymnasium, is prohibited except to those engaged in survey operations.

3. Carts conveying materials not intended for the buildings or grounds

of the Park are not
allowed into the Park.

4. Only jutkas conveying
persons to and from the
Chepak offices and Hickmith
are allowed on the Main
Road which leads from the
West or Spiffkins entrance
to the Bench. All other
jutkas must enter and
leave the Park by one of
the two roads which lead
from Byerafts Road
along the Canal.

5 No conveyance shall
be picketed elsewhere
than on the ground allotted
for the purpose between
the Presidency College
stables and the South

West Entrance. 15/8/4

6. Subordinates may resort
for tiffin to the pond
which lies on the southend
of the Park and west of
the Canal; but no other
part of the Park may be
used for such purposes.
Leaves and other refuse
of meals must be placed
in the bins specially
provided near the pond.

7. Latrines have been
provided for all classes.

8. The European Sergeant
and Police have strict
orders to ascertain and
report the name of any
person walking on the
grass, injuring the plants,

committing a nuisance
outside the Enclosure, or
otherwise infringing these
rules.

9 If office subordinates
they will be punished
by the head of their offices.
Others will be prosecuted.
A statement of all those
so reported, and the
punishments inflicted,
will be kept in the
Consulting Architects' office.

J.W.
19/1/87 E.W.

Rules for the conservancy
of the Chepstow Park.

15
5

1. The Park is bounded on
the east by the Beach Road,
on the West by Bell's Road,
on the north by the Kwant
River and by Gyn House
Park, and on the south by
Tyrcroft Road.

2. Walking on the grass
within these limits, save in
the vicinity of the ~~recreation~~
~~ground~~ grounds and
gymnasium, is prohibited
except to those engaged
in survey operations.

3. Carts conveying materials
not intended for the buildings
or ponds of the Park are

not allowed into the Park.

4. Only jutkas, ~~except those~~ conveying persons to and from the Chefik offices and University, are allowed on the Main Road which leads from the West or Sepheme entrance to the Beach. ~~All other jutkas must keep outside~~

enter and leave the Park by one of the two roads which lead from Pyrgo to and along the Canal. ~~Carriages and other conveyances~~ [belonging to subordinates for which stable accommodation is not provided,] may be picketed only on the spot allotted for the purpose between the Presidency

Native people using jutkas may walk leave them outside or at the bridge near the Rev. Bd. office. ~~They are~~ not be allowed to pass as follows:

4. No jutkas are allowed on the main road leading from the west or Sepheme entrance to the beach

5. No conveyance shall be picketed elsewhere than on the ground allotted for the purpose between the Chefik stables & the S. W. entrance

This rule will not be enforced: people who have jutkas will be picketed & the stables

College stables and the ~~North West entrance to the Park~~

6. ~~Subordinates~~ [who do not avail themselves of the tiffin rooms provided for them] may resort for their midday meals within the ground to the pond which lies in the portion of the Park to the west of the Canal; but no other part of the Park may be resorted to for that purpose.

Leaves and other refuse ~~shall not be thrown~~ ~~into~~ indiscriminately, but placed in the bins provided for the purpose.

7. Latrines have been provided for all classes.

8. ~~The Police~~ European Sergeant

and the Police Constables
have been appointed to
ascertain and report the
name of any person walking
on the grass, injuring the
plants, committing a nuisance
contrary to the Rules, or
otherwise infringing these
rules.

8. If Office subordinates, they
reported for infringing these
rules will be punished
by the heads of their offices.
Others will be prosecuted.
A statement of all those
so reported, and the
punishments inflicted, will
be kept in the Consulting
Architects office.

Rules

Con. 11.1.87

No. 561 C. D.

Government of Madras.

PUBLIC WORKS DEPARTMENT.

Chepâk, 10th Febry 1887.

OFFICE NOTE.

From W 158/7

To C. A.

It seems desirable that the enclosed rules should be revised to meet present circumstances, & recirculated to heads of offices at Chepâk -

The Clause relating to Commission of nuisances is being Constantly infringed

& the Sergeants reports are apparently not sufficiently noticed -

Please submit a draft of revised rules to be issued under my signature.

No 618
13 February 1886.

To W.

Submits a draft of revised rules for Conservancy of the Park.

2. Rules 2 and 6 will be considered a hardship on native subordinates who have been hitherto accustomed to take their tiffin on the grass under the trees in the park. If deadness on the grass to

158
5

be entirely stopped all over the park then these rules are necessary. It may however be deserving of consideration whether this may not be relaxed in a portion of the park, say, between Adam's Road and the main Road from West Entrance to Park, under the trees of which part people may be allowed to take their tiffin depositing the leaves and refuse in a bin provided for the purpose.

3. Rule 5 will be a hardship to those who come in carriages and Jutkahs from great distances. The Municipality may be asked to make a Carriage Stand of the line of trees just outside the park along the west wall similar to the Carriage Stand for subordinate Employés that got the Fort.

J. A. Stephens

Honorary Assistant Engineer for Consulty. Architect & Govt

Rules for the Conservancy of the Chepâk Park.

1. The Park will be bounded on the east by the Stone Dwarfwall, on the west by the Masonry Wall, on the north by the Kuum River and Government House Park limits, and on the south by the Pycrofts Road.

2. Walking on the grass outside the roads or paths within these limits is strictly prohibited.

3. Carts conveying materials not intended for the buildings or roads of the Park should not be allowed into the Park.

4. Horses being broken in should not be allowed within the Park.

5. Jutkas should not be allowed on the Main Road from West entrance to the Beach. They should

come in and go out by the roads leading to the South side of Park along the Canal. They should in no case be picketed in the Park. Carriages and other conveyances also for which stable accommodation is not provided should not be picketed in the Park.

6. Native and other subordinates should take their tiffin in the rooms provided for this purpose, and not on the grass under trees and near the ponds. The bones and other refuse should not be thrown about indiscriminately but placed in the bins provided for this purpose.

7.- Latrines have been provided for all classes.

8. A European Serjeant and a Police Constable have been appointed to immediately arrest and report any one treading on grass, injuring the plants, or making a nuisance outside the latrines. 158/10

9. Office subordinates reported for breaking these rules should be most severely punished by the Heads of departments. others will be prosecuted.
A statement of all those so reported and the punishments inflicted will be kept in the Consulting Architect's office. When sufficient notice has not been taken of the breach of these rules the matter will be reported to Government.

Chepauk
13th February 1886

J. H. Stephens
Asst Consg Architect
13-2-86

Instructions for the Conservancy of the Ground enclosed by the Wall surrounding the P. W. Offices at Chepauk.

158/11

1. Walking on the grass plots is strictly prohibited.

2. No useless empty boxes, old tatties, nor other unsightly articles are to be placed in the Office verandahs.

3. Throwing waste-paper out of doors is strictly prohibited.

4. The planting of plantain trees near the Offices is prohibited, and the trees, &c, now in existence are to be removed at once by the Executive Engineer. No private gardening is allowed.

5. A path, six feet wide, in front and rear of the different Offices will be kept clear of grass and weeds.

6. The trees planted in the plot of ground enclosed by the D. P. W. Offices will be carefully attended to, when handed over by the Officer in Charge of the Chepauk grounds. The lower branches of the Guatterias will, by sawing close off, be pruned one-third the height of the tree till there are bare stems as high as the verandah, so that there may be shade without loss of ventilation. The Kigelias need no pruning, but when they begin to crowd each other, the central one only on each side of the road should be allowed to remain, the others being sacrificed to it first by being freely lopped so as to give it space and eventually by being felled.

7. No carriages, jutkas or conveyances of any kind are to be allowed to stand to the North of P. W. Offices near the Latrine. All conveyances for which there is no accommodation provided in the Office coach-houses will be parked under the trees to the west of the boundary wall, and to the east of the Buckingham Canal. These conveyances will not be scattered about indiscriminately, but regularly parked in parallel rows. The horses or ponies will be picketed in the same way.

8. Any Government servant found committing a nuisance anywhere outside the Latrine on North side, will render himself liable to dismissal. Those not in the service will be prosecuted.

9. A special Peon is told off to attend to the conservancy of the ground immediately in front and at the back of the main block of D. P. W. Office buildings where nuisances occur. This Peon wears a yellow badge so that he may be readily distinguished. He will bring all offenders to the notice of the Executive Engineer or his Assistants.

10. This Peon will patrol, between the hours of 4 and 6 P.M., among the coachmen who assemble in front of the Office buildings, and will be expected to maintain order and discipline. He will remove from the premises any person particularly noisy or disorderly.

11. The Executive Engineer, Presidency Division, will report to the Chief Engineer the name of any one not observing these instructions.

(By Order.)

Asst. Registrar is accustomed to leave his carriage in the porch on the west side of the Lodge House, & it is presumed the Lodge Keeper's pass. if will not be appropriate in this case, no stable accommodation being provided for the University. It does not appear to me that there is any necessity for enacting officious duties should employes of the Chepauk who may be detected infringing the rules, it will be sufficient if the police take their names & report them to their departmental superiors. W. Wilson

The pupils of the Res.y College have been accustomed, with permission, to play Cricket on the portion of ground between the College & the Canals and this was levelled & otherwise improved by means of money raised by Subscription last year. I presume Rule 2 is not intended to be enforced in such a way as to prevent the students of this College from playing Cricket the same as hitherto.

8 May 1886

C. H. Stuart
Ag. Principal
Pres. Coll:

From the Principal, College of Engineering on Draft Rules for Chepauk Park Conservancy.

15/8/4

Rule 2. The Park being the only ground in the vicinity of the College suitable for the small Surveys executed by the different classes in the early portions of their course of study this Rule should be relaxed in favour of all masters and Students of this College.

The Rule may also be affected by the orders of Government on an application recently submitted by me to have the ground on the East side of the College reserved as a Cricket & Recreation

Rec.d 19.4.86

ground; and a plot on the West side, between the College building and the Canal for a Gymnasium.

Rule 4. The portion of the rule relating to passes should be relaxed up to 11 a.m. as recommended by the Revenue Board and other officers, and for similar reasons.

The portion relating to the picketing of horses should not apply to those permanent residents of the Park for whom stable accommodation is not provided.

Rule 6. The Latrines should be open at night for the use of residents of the Park.

Rule 7. Suggested that persons walking on the grass should not be liable to arrest by the police. The rule as it stands would be likely to cause inconvenience to family parties, and to students engaged in recreation, notwithstanding the relaxation of Rule 2 proposed above.

The College has for many years used the ground on the north side of the Family Quarters for modelling purposes. It is considered that an area measuring 400 ft N to S. and 500 ft. E. to W. and including the model tank, (used for instruction in contouring &c) should be reserved for College use, being enclosed or not, as thought necessary.

The occupants of the Family Quarters have for a long period enjoyed the privilege of grazing their horses, ponies, and cattle in the vicinity of the Quarters. It is considered that this privilege might be continued to them.

Lt. Shore Capt. R.A.
Pmaster Woolwich

2e

The rules for the Conservancy of the Chesapeake Park have been circulated and from perusal of the opinions of the several officers it seems desirable that the following alterations should be made.

To rule 2 should be added except in the case of "Masters and Students of the Civil Engineering College employed on survey duties."

Rule 4 should be cancelled and the portion regarding picketing horses &c, should not apply to permanent residents of the Park unprovided with Stables.

The Board of Revenue and Capt. Lane suggest that the rules relating to Jutkas should be relaxed

up

up to 11 a.m. but it seems to me that the Clerks would have the same difficulty about returning from Office during the Monsoon.

Rule 7. The portion regarding arresting persons should be omitted, and it will be sufficient if a report is made to their Departmental Superiors.

The remark of the Dy: Superintendent, Surveys, that not sufficient space is provided in the tiffin room should be separately considered, also Capt. Lowe's remarks about space for modelling purposes.

Lt
19/4/06

Draft rules for the Conservancy of the Chetpet Park.

158/21

To W.

The rules have been circulated to all Officers concerned, & the following modifications have been suggested:—

Rule 2 - Walking on the grass within Park limits prohibited

The Principal, College of Engineering, suggests that this rule be relaxed in favour of all masters & Students of the College, the Park being the only ground in the vicinity of the College suitable for small surveys.

He also states that he has applied separately for the ground to the east of the College to be reserved as a cricket & recreation ground for the College, & for a plot on the west side

between the College & the Canal for a Gymnasium - This matter will doubtless come up for consideration separately.

He further asks for a plot of ground 400 × 500 feet, on the north side of the family quarters for modelling purposes - This point too may be dealt with separately.

He finally asks that the occupants of the family quarters may have the privilege (one for a long period enjoyed) of allowing their horses & cattle to graze in the vicinity of the quarters. It is difficult to see how this can be allowed, or where the line in regard to "vicinity" can be drawn. It will apparently be impossible to preserve the grass if such a relaxation of the rule be sanctioned -

Submitted that the following addition

might be made to Rule 2.

"This rule does not apply to Masters & Students of the College of Engineering engaged in survey lessons, nor to the cricket ground to the east of the College of Engineering & to the west of the Presidency College".

(The ground to the east of the Engineering College is already used as a cricket ground by the employees of the P.W. Office, & as an Archery ground by the publics).

Rule 4 - Prohibition against persons using the main road from the West entrance of the Park to the Beach.

No Comts. Encl. for Post; the Board of Revenue; the Secy. to Govt. Legislative Dept; the Director Survey & the Principal College of Engineering.

recommend that this rule be relaxed up to 11 a.m. in favour of Office employés.

The Registrar Madras University recommends

† The Principal Presidency College asks that the rule be not made applicable to the cricket ground got up at the expense of the students between the College & the Canal -

15/6/22

that the rule be relaxed altogether while examinations are being held in the Senate House -

If relaxed in the forenoon, a similar relaxation must be allowed in the evening when Office employes are going home -

If all these relaxations are allowed, it will apparently be impossible to work the rule at all -

Submitted that it will be better to strike out the rule altogether as far as the words "Pyarpti road along the Canal" -

Rule 4 - Prohibition against picketing carriages &c at other than the authorised Rest -

The Principal Offer of Engineering suggests that this portion of the rule should not apply to permanent residents of the Park for whom stable accommodation is not provided (& the Registrar

of the university presumes that it will not apply to the Asst. Registrar, who keeps his carriage under the porch on the west side of the Senate House - 158/23

Where ponies may apparently be allowed, though it does not seem necessary to make special provision for them in the Rules. The Sergeant can be made to understand the matter.

Rule 5 - Prohibition against sitting to midday meal at other than authorised places -

The Supt. Madras Survey says that sufficient shade is not provided in the tiffin rooms - This is a matter for separate consideration & need not enter into discussion of the rules -

Rule 6 - Latrines -

The Principal

College of Engineering remarks, that the Latrine should be open at night for use of residents of the Park -

This also need not enter into consideration of the rules.

Until a second boat is provided for the floating latrine, it will be impossible to keep it open during the night - The present boat is floated away at dusk every evening.

Rule 7 - Arrest & reporting of persons infringing the rules.

The Principal College of Engineering & the Registrar University suggest that breakers of the rules should not be arrested, but merely reported to the heads of their Offices -

For orders whether the words "arrest and" shall be exhausted

from this rule - If the Serjeant is merely to take names & to report, there is not the least doubt that many of the hundreds of subordinates who have their Offices in the Park will mislead the Serjeant as to their names & Offices.

158/24

When the rules have been finally passed, it seems desirable that, in addition to printing & circulating them to the Offices, they should be painted on boards & put up at the several entrances.
