READ—the following letter from A. S. RUSSELL, Esq., Executive Engineer, Tinnevely division, to the Examiner, Public Works Accounts, dated Palamcottah, 28th May 1887, No. 646 :—

As laid down in G. O., No. 331 W., dated 23rd March 1887, the percentage charges for tools and plant are to be calculated from 1st April 1887 at $1\frac{1}{2}$ per cent. of outlay on contribution works, whereas the amount of contribution already collected was calculated at 1 per cent. I have therefore the honor to request you will be good enough to advise me how the percentages are to be calculated for the incomplete and uncommenced works of the last year, for which contributions, either in part or in full, have already been collected.

No. 91 S.E. 6.

Forwarded, in original, to the Secretary to Government, Public Works Department, for favor of orders and return. It is presumed that the order in question was not intended to affect engagements already made with private contributors.

8th June 1887. (Signed) C. H. P. CHRISTIE, Major, R.E.,
Examiner, Public Works Accounts.

ORDER—dated 15th June 1887, No. 1615 W., Public Works.

It was not the intention of Government, when deciding that the increased rate of $1\frac{1}{2}$ per cent. for tools and plant should be charged with effect from 1st April 1887, that engagements already made with private contributors should be affected by the revised orders on the subject.

2. These proceedings will be communicated to officers concerned, in continuation of G.O., No. 331 W., dated 23rd March 1887.
