" " "

From J. W. MARTIN, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 5th March 1887, No. 2029 T.J.—Through the Chief Engineer for Irrigation.

With reference to G.O., No. 24 W., dated 7th January 1887, I have the honor to submit, herewith, a proposition statement showing the petty establishment now charged to the head "Establishment" and that which can legitimately be charged to "Works," as suggested by the Chief Engineer for Irrigation in paragraph 3 of his note printed with the above Government order. The saving under the head "Establishment" will be about Rs. 20,640, as shown in the statement, if the proposed arrangement is sanctioned.

2. The men composing the establishment now proposed to be charged to Works are, at present, in service counting towards pension, and several have served for many years. So, how these men should be treated with regard to their past service and claims for pension or gratuity should be considered when disposing of the future status of the establishment under reference.

No. 31 E.W.

Forwarded to the Chief Engineer, Public Works Department. The letter was retained in this office under the impression that replies of other Superintending Engineers would also be sent here.

2. The Superintending Engineer proposes to charge to *Works* the pay of Superintendents, though, in paragraph 3 of Colonel Pennycuick's note printed with G.O., No. 24 W., dated 17th January 1887, it was suggested that the pay of men employed under this designation should continue to be charged to Establishment.

3. Before any change is effected, the pensionary claims of the present incumbents will have to be considered.

(Signed) J. P. DAVIDSON,
for Chief Engineer for Irrigation.

Chepâk,
23rd May 1887.

ORDER—dated 15th June 1887, No. 1616 W., Public Works.

The foregoing letters are replies to the question asked in paragraph 2 of G.O., No. 24 W., dated 7th January 1887, whether any portion of the petty establishments employed in the several Public Works Circles, under the head "Establishment," can legitimately be charged to "Works."

2. The replies of the Superintending Engineers, I, II, IV and V Circles, are in the negative. The reply of the Superintending Engineer, III Circle, was disposed of by G.O., No. 709 W., dated 8th March 1887.

3. The Superintending Engineer, VI Circle, submits a statement showing that petty establishment costing Rs. 20,640 per annum may be transferred from the head "Establishment" to "Works" in the several divisions of that Circle. As, however, the men composing the establishment are in service counting towards pension, it is not considered desirable to make any alteration in the status of existing incumbents. In filling vacancies, the Superintending Engineer will keep in view the subject of paragraph 2 of G.O., No. 24 W., dated 7th January 1887, but care must be taken that the conditions of paragraph 935 of the Public Works Code are fulfilled before any proposals to charge establishment to "Works" are carried out.

4. With advertence to paragraph 2 of the endorsement by the Chief Engineer for Irrigation above recorded, it does not appear from the statement submitted by the Superintending Engineer, VI Circle, that it is proposed to charge to "Works" the pay of Superintendents. The establishment whose transfer is suggested, and whose pay aggregates Rs. 20,640 per annum, is composed entirely of lascars and one sweeper.

SIR,

With reference to G.O. 24 W. 7-1-87 I have the honor to say that I consider it in the highest degree inadvisable that our "Water Regulation" Establishment, "Navigation" Establishment, or "River Conservancy" Establishment, should cease to be on the permanent Establishment & be composed of mere "temporary" men chargeable to "works".

2. This is specially the case with the Delta Superintendents & Lock Superintendents and the lascars under them, I have no doubt myself that the public would not be so well served and that petty extortion would be far more common than it is now were these men not under the strong inducements to proper behaviour and honesty due to permanent employment and prospect of pension.

SIR,

With reference to your No. 1337 C dated 14th April /87, I have the honor to say that as in his note with Proceedings Madras Government No. 24 W dated 7th Janry /87 Colonel Pennycuick specially mentions men who are engaged "in working of Sluices, locks &c." and as in his Office note therewith the Examiner refers to the Establishment given in Para 20 of the Code I naturally supposed that the propositions dealt with the Lascars under Delta Superintendents and Lock Superintendents.

(2) My views being as stated in my

No. 486 dated 20th March 186 I have no proposals to make for the Charge to Works of any of the petty Establishment now charged to Establishment

To

The Chief Engineer
Public Works Department

Sir

With reference to para 2 of G.O. No 24 W of the 7th January 1887, requesting to report, whether any portion of the Petty Establishment employed in the Circle and now charged to the head "Establishment", can legitimately be charged to Works, I have the honor to inform you, that all Establishments for the upkeep of river embankments, Canals, Channels &c of the kind brought to notice by the Superintending Engineer 1st Circle, have always been charged to Works in the several Divisions of this Circle.

2. I am doubtful however as to the propriety of charging lascars employed on Locks and sluices to Works, as they are not engaged on actual maintenance. Lascars employed in passing

Boats through locks, and regulating the supply of water through sluices, cannot, I think, be legitimately charged to "Works."

To

The Chief Engineer
P. W. D.

Thro' The Chief Engineer for Irrigation.

Sir,

ENCLOSURE. 1.

With reference to G.O. No 24 W dated 7th January 1887, I have the honor to submit herewith a proposition statement, showing the the Petty Establishment now charged to the head "Establishment" and that which can legitimately be charged to "Works", as suggested by the Chief Engineer, for Irrigation, in para 3 of his note printed with the above G.O.. The saving under the head "Establishment" will be about Rs 20,640 as shown in the statement, if the proposed arrangement is sanctioned.-

2. The men composing the establishment now proposed to be charged to works are, at present, in service counting towards pension, and several have served for

many years. So how these men should be treated with regard to their past service, and claims for pension or gratuity should be considered when disposing of the future status of the establishment under reference.

I have the honor to be
Sir
Your most obedient servant.

L W Hartle

Enclosure 1.

Petty Establishment now charged to Establishment in the 6th Circle —
Submits a proposition Statement showing — which can be charged to works—

No 31 E.W. 16/6/89

Letter from the Superintending Engineer 6th Circle, No 2029 T.J. dated 5th March 1887.

Enclosures 2.

Forwarded to the Chief Engineer P.W.D. The letter was retained in this office under the impression that replies of other Supg: Engineers would also be sent here.

2. The Superintending Engineer proposes to charge to works the pay of Superintendents though in para 3 of Colonel Pennycuick's note printed with G.O. No 24 W dated 17th January 1887, it was suggested that the pay of men employed under this designation should continue to be charged to establishment.

3. Before any change is effected the pensionary claims of the present incumbents will have to be considered.

As the men composing the establishment proposed by the S.E. to be charged to "works" are in service counting for pension, it is not considered desirable to make any alteration in the nature of their appointments.

2. The S.E. will, ~~be~~ however, not lose sight of the matter, and in the event of vacancies occurring in appts which fulfil the conditions of para 935 of the P.W. Code, proposals should be submitted for the necessary transfer from "Estt" to "Works".

The foregoing letters are replies to the question asked in para 2 of G.O. No 24 W d 7th January 1887, whether any portion of the petty establishments employed in the several P.W. Circles, under the head "Establishment," Con can legitimately be charged to "Works".

2. The replies of the Supdg Engrs I. II. IV & V Circles are in the negative. The reply of the S.E. III Circle was disposed of by G.O. No 709W d/ 8th March 1887.

3. The S.E. VI Circle submits a statement showing that petty establishment costing Rs. 20,640 per annum may be transferred from the head "Establishment" to "Works" in the several divisions of that Circle. As, however, the men composing the establt: are in service counting towards pension, it is

1616/75

is not considered desirable to make any alteration in the status of existing incumbents. In filling vacancies, the Supdg Engrs will keep in view the subject of para 2 of G.O. No 24W, dated 7 January 1887, but care must be taken that the conditions of para 935 of the P.W. Code are fulfilled before any proposals to charge establishment to "Works" are carried out.

4. With advertence to para 2 of the endorsement by the Ch. Engr for Irrigation above recorded, it does not appear from the statement submitted by the S.E. VI Circle that it is proposed to charge to "Works" the pay of Superintendents. The establt.

establishment whose transfer is suggested, & whose pay aggregates Rs 20,640 per annum is composed entirely of lascars and one sweeper —
