Sir,

In your Indent dated 27th January 1887, a demand occurs for "140 lineal feet of Galvanized Iron Wire netting ½ inch holes 16 B.W.G. Estimated cost £2..6..8", stated to be urgently required.

Netting made of wire of this thickness cannot be procured in the market, and would have to be specially manufactured, thus probably causing considerable delay. The netting has therefore been ordered of 20 B.W.G. wire, which is the ordinary size, and will, it is believed, meet the requirements of the Consulting Architect.
