GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following letter from H. T. ROSS, Esq., Registrar of the High Court of Judicature at Madras, to the Chief Secretary to Government, dated 7th April 1886, No. 1276:—

I am directed to submit, for the early sanction of Government, the accompanying plan and estimates (together with the District Judge's letter) for repairs to the district court-house at Vizagapatam, which appear to be necessary.

2. The amount of the estimate is Rs. 1,861, but it cannot be provided out of the allotment of Rs. 25,000 for "petty constructions and repairs," as the demand for funds for repairs to other court-houses already exceeds that sum.

No. 651 C., Judicial.

Approved, and transferred to the Public Works Department.

(By Order.)

(Signed) A. G. CARDEW,
Ag. Assistant Secretary.

Ootacamund,
17th April 1886.

Order—dated 3rd May 1886, No. 1110 W., Public Works.

The estimate, amounting to Rs. 1,861, for improvements to the district court-house at Vizagapatam, is sanctioned for early execution.

2. The Superintending Engineer, I Circle, will apply for funds in his statement of demands on the reserve for minor new works.

3. This sanction has been registered as Provincial, No. 14 W. of 1886-87, and classified as Civil Buildings, Original Works.

No. 195. From Lieutenant D. McNEIL CAMPBELL, R.E., Executive Engineer in charge, Godavery, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishveram, 26th August 1876, No. 1,474.

WITH reference to G.Os., Nos. 92, dated 19th May 1873, and 129, dated 23rd October 1875, sanctioning the construction of Court-houses for District Munsifs at Ellore, Amalapur, and Peddapur, I have the honor to submit, herewith, estimates for these buildings according to the sanctioned revised standard plans circulated with G.O., No. 1,293, of 7th May 1875.

3 Abstract Estimates.
1 Specification.
3 Site Plans.
1 General Abstract.
—
8 Returned to District Engineer.
—

2. The general abstract which accompanies this letter will show the items provided for in the estimates.

No. 195-A. Chief Engineer's Memorandum, dated 21st September 1876, No. 1,003 T.

No. 195-B. From Major J. BEATTY, R.E., Officiating Superintending Engineer, Godavery, to the Chief Engineer, Public Works Department, (Buildings and Roads Branch,) dated Camp at Dowlaishweram, 31st July 1877, No. 1,461.

IN reply to your memorandum, No. 1,003 T, of 21st September 1876, and in resubmitting the estimates for District Munsifs' Courts at Amalapur, Ellore, and Peddapur, I have the honor to furnish the following explanations :—

3 Abstract Estimates.
3 Site Plans.

I. The excess in quantity of rough stone in chunam is due to the necessity for deeper and broader foundations in the soil of the delta than are allowed in the standard design. They are to be 3 feet deep on a bed of concrete 2 feet thick. The excess in teakwood is due to our rates for roofing, *i.e.*, for the covering of the roof, as tiles, &c., not including reepers, which have been estimated for separately and added to the woodwork. It seems to be customary at Madras to include the cost of reepers in the rate for roofing, but our rates here do not allow for this ; hence the apparent excess in quantity of woodwork.

II. The district schedule shows the maximum and minimum rates at which work had been done at different places in each division, whereas the rates in these estimates are those at which it is calculated that concrete, plastering, coursed rubble, &c., can be carried out at the special sites selected for each of the buildings.

III. In regard to your paragraph 4, Assistant Engineer Mr. Larminie explains that at Peddapur the rate for rubble is Rupees 3,* and for coursed rubble Rupees 3-8-0, and in addition to the latter rate Rupees 4 per square is allowed for fine dressing, and giving a proper finish to the faces. The rate of Rupees 4 is only for dressing and finishing, and is not intended, as at Ellore and Amalapur, to cover the cost of cutting the rough stone into shape. At Ellore and Amalapur the one rate covers everything.

IV. The rates for articles to be obtained from the Workshops have been revised so as to include Workshop centage, and fresh estimates made out which are now sent.

V. The item of contingencies, &c., has been separated under the three heads "Petty Supervision," "Sundries," and "Contingencies." I have not thought it advisable to reduce the rate, as there has been so little experience of recent years in this district in the erection of Civil Buildings.

VI. As regards compensation the site at Ellore is Government property, for which no compensation is necessary. The site at Peddapur has been fixed in communication with the Revenue authorities, and the plans and estimate submitted to the Civil Judge who signed the estimate. The site at Amalapur is believed to be the only good building site available, and it will have to be taken up under the Act for acquiring land for public purposes; the amount of compensation entered in the estimate is the selling price per acre of the best land in that neighbourhood.

* Per cubic yard.

No. 196. ORDER THEREON, 25th September 1877, No. 778 W.

His Grace the Governor in Council sanctions the plans and estimates aggregating Rupees 35,850 for constructing District Munsifs' Court-houses in the Godavery District as particularized below :—

				RS.	NOS.	
1.	District Munsif's Court-house		at Peddapur ...	10,300	153	B of 1877-78.
2.	Do.	do.	at Ellore ...	12,140	154	
3.	Do.	do.	at Amalapur ...	13,410	155	
			Total ...	35,850		

2. No funds are at present available for those works. They will be entered in the Budget of 1878-79.

3. The sanction accorded in these Proceedings has been registered as Provincial Nos. 153, 154, and 155 B of 1877-78.

District Munsifs' Court-houses at [illegible], Ellore, and Amalapuram, Godavery District — estimates, amounting to Rupees [illegible], for constructing —, sanctioned.

1773/4

7th June 1887, No 1528 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following paper :—

From the Registrar, High Court, Appellate Side, dated 11th January 1887, No. 48, submitting, with approval, plans and estimates, amounting to Rs. 49,385, for the construction of a court-house for the Sub-judge and District Munsif of Pálghat, called for in G.O., dated 15th April 1885, No. 903 W., Public Works and endorsement by the Judicial Department, dated 2nd February 1887.

The plans and estimates will be returned to the Public Works Department with a view to the accommodations provided and the cost being compared with those proposed in the standard design approved by the committee recently held.

(By Order.)
(Signed) H. A. STUART,
Under Secretary.

Note by the Chief Engineer, Public Works Department.

The type designs lately sanctioned by Government do not allow for so large accommodation as provided in the design submitted by the Superintending Engineer: the plans and estimates must, therefore, be revised and reduced. There is no objection to both courts being in one building which may conveniently be upper storied, if communication with the upper story is provided for so that the business of the lower court is not liable to interruption by the passage of persons to the upper court.

2. Muntapams and sheds have not been allowed for in the new type designs, as verandahs are supposed to give shelter when necessary.

3. Latrines will be constructed in accordance with the former type designs.

4. The compound wall should be of the simplest description, and as the muntapams are to be omitted, so large a compound as that allowed does not seem necessary.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer.

2nd June 1887.

Order—dated 7th June 1887, No. 1528 W., Public Works.

Communicated to the Superintending Engineer, IV Circle, who will submit revised estimates for the court-houses based on the type design circulated with G.O., No. 1098 W., dated 21st April 1887.

Court-house for the Sub-judge and the District Munsif of Palghat

Revised estimates, based on the revised type design recently circulated, called for, for a —.

No. 1310

CURRENT NO. 13

High Court of Judicature,
Madras, 8th April 1886.

1723/5

From

H. T. Ross Esquire,
Registrar of the High Court
of Judicature at Madras.

To

The Honorable E. F. Webster,
Chief Secretary to
Government.

Sir,

I am directed to submit th estimates, prepared by the Executive Engineer, 3rd Circle, and approved by this Court, for improving, at a cos of Rs 2736, the Court-house of the Distri Munsif of Penukonda in the Bellar District, and to request that, as the improvements and repairs proposed are not all of a petty nature and as they are very urgent, sanction may be accorded and funds allotted for their execution by [illegible] D. P. W. within the current year.

2. The building was inspected by the District Judge in December last and

and by the Executive Engineer in January, and the urgent necessity for its repair will be seen from the accompanying extract from the District Judge's report, which shows that in its present state, it is unsuitable for a Court-house, low, ill-ventilated, and unsafe.

I have the honor to be,
Sir,
Your most obedient Servant,

J. Ross
Registrar,
Appellate Side.

Sub 3 [illegible]
[illegible]

Extract.

1273/2

But I have to bring prominently to notice of the High Court that the building in its present state is not at all adapted to the requirements of a court house. It was formerly the dwelling house of some petty Rajah. The spaces occupied (I can not call them rooms) by the Munsif and his establishment are exceedingly confined and low, and in the front where the Vakeels sit the building is entirely open. On the North East it is flanked by a narrow watch tower 3 stories high, at the bottom of which is a small domed chamber utterly devoid of ventilation assigned to the Deputy Nazir. When parties press upon him at the entrance of this dungeon the atmosphere must be quite insufferable. There is at present no other available spot to which he can be shifted and the walls surrounding it are too substantial (being 3 or 4 feet thick)

to

to admit of their being pierced for ventilation.

It is not easy to describe the edifice but the main block may be said to consist of 3 rows of open domed spaces, very low and very contracted. In the centre dome of the central row the Munsiff sits within a railed enclosure which leaves hardly any room for any one to approach him, such as a witness under examination or the date-clerk in attendance. In front exposed to the direct influence of the morning sun, the wind and the rain (when any falls) sit the Vakeels. But the most objectionable feature in the building is a fissure which commences in the Southern wall and narrowing as it goes along extends right across the ceilings of the central row of domes over the Munsiff's head and on to the domed space beyond.

The

The walls are every where of great thickness and the old chunam as hard as iron, so that in any case it might cost more to repair the building than it is worth, assuming that repairs are feasible. The upper story which in its present state can not be used, consists of a central dome in a good state of preservation and a modern verandah, the walls of which have crumbled away and the roof has disappeared. If the foundations are insecure, this mass of masonry pressing as it does just above the crack referred to will some day bring the building down with a run. I do not think however that the danger is so imminent as to require the immediate evacuation of the premises, although the fissure is much wider than it is stated to have been 2 years ago, but it is my duty to suggest that Government should be moved without delay

to

to pass an order in the Public Works Department that the building be examined forthwith by a competent officer, and reported upon. If it is found that it can be made secure at a reasonable cost, I would suggest that the upper story be put in order for the Munsif and that the establishment be accommodated downstairs. To do this it would be necessary to rebuild and re-roof the upstair verandah and make certain other arrangements for ventilation &c. Downstairs the space behind the central row of domes and inclusive of it, should be railed off to give more room for the establishment and a proper place set apart for the Deputy Nazir. Windows could be let in to ventilate the central row throughout, but I would deprecate any additional walls being raised inside as suggested last year by the

Munsif

Munsif. It might also be found necessary to construct a new stair case on the outside, the stair case that winds up through the Tower being much too narrow.

J. Ross.

B

Please check my remarks in this statement, in cases where I have made only pencil remarks, please note in red ink whether funds have been allotted or not —

Please see what was done with Judl. Endt. No 743C of 7.5.87 —

Please return the list by Monday's post, as W wishes to distribute as soon as possible the Rs 15000 reserved for Judl. buildings

24.6.87 Cr

To W

The list of judicial buildings requiring funds has come back from Madras checked.

The sum available for distribution is Rs 18,000 —

The work marked No 1 in the list by the H.M. has already been provided with funds.

Proposed to make the following appropriation

(2) Calicut law courts (drainage of compound) Rs 3000 —
(2A) Reformatory Chingleput — 5000
(3) Improvements Kulitalai munsif's court — 1450
(4) ditto Ariyalur do — 1230
(5) Shermad do — 1534
total Rs 12,214

Rs 5,786 will still remain available — If the grant for the Chingleput Reformatory be considered insufficient, it might

The list of judicial buildings requiring funds has come back from Madras checked

The sum available for distribution is Rs 18,000-

The work marked No 1 in the list by the H.M. has already been provided with funds

Proposed to make the following appropriation

(2)	Calicut law courts (drainage of compound)	Rs 3000
(2A)	Reformatory Chingleput	5000
(3)	Improvements Kulitalai munsif's courts	1450
(4)	ditto Ariyalur do	1230
(5)	Shermadevi do	1534
	Total	Rs 12,214

Rs 5,786 will still remain available. If the grant for the Chingleput Reformatory be considered insufficient, it might be increased — Otherwise it would be best, person to credit the sum of Rs 5786 to reserve — till plans of No (6) comes in.

M.B.

The items Nos (6) & (7) are large works, & the estimates are not ready —

For orders.
